The Calendar for 1864.

THE Time given in this Almanack is Bombay Civil Time or that which a well-regulated Clock ought to show.

SUNRISE AND SUNSET.

The time of Sunrise and Sunset shows the instant at which the centre of the Sun is on the visible horizon of Bombay. In calculating the effects of refraction and the dip of the horizon, the Barometer has been assumed at 29·8 in., the Thermometer at 80° Fahrenheit, and the eye of the observer 15 feet above the level of the sea.

MOON'S AGE.

The time given as the Moon's Age is the period which has elapsed since the Sun and Moon were together in the same longitude at Bombay.

TIDES.

The Times of High Water in the Calendar have been computed from such data as are at present available, and it is hoped they will be found more accurate than hitherto. They have also been separately determined both by the method in use in the Master Attendant's office; and at the Colaba Observatory, and added in separate tables at pp. 37-40.

TWILIGHT.

The duration of Twilight and of Daybreak shows the time within which the Sun is not more than 18° below the horizon of Bombay.

RISING AND SETTING OF THE PLANETS.

The times of Rising and Setting of the Planets shows the instant at which the Planets are on the visible horizon.

ADJUSTMENT OF THE CALENDAR.

Julius Cæsar was the first to attempt to adjust the length of the year with any degree of accuracy and fixed it at 365 days 6 hours; introducing a day every fourth year, (called Leap Year,) which accordingly consists of 366 days, while the three others have only 365 days each.

From him it was called the Julian Year, and it continued in general use till the year of 1582, when Pope Gregory XIII. undertook to rectify the error, which then existed between the Julian year of 365¼ days and the solar year of 365.24222013 days. At that time the difference amounted to ten days. He accordingly commanded the ten days between the 4th and 15th October in that year to be struck out, so that the 5th day was called the 15th. This alteration has been introduced throughout Europe, except in Russia and by the Greek church, and the year was afterwards called the Gregorian Year, or New Style.

In England the Method of reckoning after the New Style was not admitted into the Calendar till the year 1752, when the error amounted to nearly 11 days, which were taken from the month of September, by calling the 3rd of that month the 14th, and it was settled by Act of Parliament (24 Geo. II. 1751) that the years 1800, 1900, 2100 2200, 2300 and every hundredth year of our Lord which shall happen in time to come, shall be computed as each consisting of 365 days only, excepting every fourth hundredth year, whereof, the year 2000 should be the first.

By the same Act of Parliament the Legal beginning of the year was changed from the 25th of March to the 1st of January, so that the succeeding months of January, February and March up to the 24th day, which by the Old Style would have been reckoned part of the year 1752, were accounted as the three first months of 1753, which is the reason we sometimes meet with such a date as—

MARCH 15TH 1774-75.

that is, according to the Old Style it is 1774, according to the New 1775.

CHRONOLOGICAL CYCLES.

Solar Cycle	25	Julian Period	6577

The Solar Cycle or Cycle of the Sun, is a period of 28 years, after which all the Dominical Letters return in the same order as they did during the 28 years before. The first year of the Christian Era was the 10th of this Cycle.

The Lunar Cycle, or Cycle of the Moon, commonly called the Golden Number, and sometimes the Metonic Cycle, (from Meton, an Athenian, who invented it about 432 years before the Birth of Christ,) is a revolution of 19 years' in which time the conjunctions, oppositions, and other aspects of the Moon are within an hour and a half of being the same as they were on the same days of the months 19 years before. The prime, or Golden Number, is the number of years elapsed in this Cycle. Before the Birth of Christ 2 years of this Cycle had elapsed.

The Roman Indiction is a period of 15 years, used by the Romans for the time of taxing their provinces. Three years of one of these Cycles had elapsed before the Birth of Christ.

The Julian Period contains 7980 years and arises from multiplying together 28, 19, and 15, being the Cycles of the Sun, Moon, and Indiction. This was contrived by Joseph-Juste Scaliger in 1583, for Chronological purposes and is assumed as a fixed era in calculations by all Astronomers and Chronologers throughout the Christian world. Its beginning is placed 710 years before the usual date of the creation of the world, or 4714 before the commencement of the Christian Era.

Explanation.—Look for the year in the first part of the table, and opposite it will be found the Dominical letter. When there are two letters together the first is for January and February, the second for the rest of the year. In a line with the month, in the second part of the table, find the dominical letter of the year and down the same column with the letter find the day of the week, and the figures on the left give the day of the month. Thus for the Sundays in Sept. 1863. Opposite 1863 in the 3rd Col. is D. in the 5th. In a line with Sept. find D, and descend the column to "Sun."—on the left is 6,13,20 and 27, the required dates.

OBSERVATIONS ON THE TIDES.

THE waters of the ocean are observed to rise and fall by a regular daily movement of *flux* and *reflux*. These periodical oscillations are occasioned by the difference of the attractive forces exercised by the sun and moon on the solid parts of the earth and on its surrounding oceans, which produces two *flood* tides or "high waters," and two *ebb* tides or "low waters" in the time between two consecutive passages of the moon over the meridian, that is, in the course of an average lunar day of 24 *hrs.* 50 *min.* 28·32 *sec.*; hence the mean retardation of the tides from one day to another is 50½ minutes on the solar time. But this interval is subject to irregularities which depend principally upon the moon's angular distance from the sun. Again, the mean interval between two successive flood tides is 12*hrs.* 25·24*min.*, but the intermediate low water does not take place always in the middle of the interval;—in many places, and especially in narrow seas and bays, the tide takes considerably more time to fall than to rise.

The effect of the action of either the Sun or the Moon on the waters of the sea is the production of a wave which follows the luminary westwards. The height of the wave produced by the sun is considerably less than that of the one raised by the moon. The periods of these waves correspond with the solar and lunar days respectively. And, since they concur at the syzygies, they are 90° apart at the quadratures, and hence, the lunar tide then occurs at the time of the low water of the solar tide; thus the highest tides must occur soon after new and full moon, when the forces of both luminaries act in the same direction; and the lowest tides about the quadratures, when the height of the lunar wave is diminished by that of the solar wave,—the luminaries then acting at right angles. The former are called *Spring*, and the latter *Neap* tides. Between the conjunctions and quadratures the effect of the solar tidal wave is more or less to increase or diminish the height of the lunar tidal wave. The heights of the tides also vary with the declinations and distances of the luminaries, the greatest tides occurring when they are nearest, and pass most nearly vertically over the place of observation. The distance of the moon has always a marked influence on the height of the tides, and it varies in the ratio of 89 to 111. Also, the highest tides occur at the equinoxes when the moon is in perigee and very near the equator; and the lowest at the solstices when the moon is in apogee and has the greatest declination. Moreover, the higher the flood tide rises, the lower the ebb falls.

The agitation of the sea caused by the wind only affects its surface to an inconsiderable depth, whereas the tide wave affects the whole depth of the ocean nearly equally from the bottom to the surface. In shallow seas its action on the bottom is often very violent, but it diminishes in an inverse ratio with the depth. The currents which form the wave run most rapidly at the times of flood and ebb, but the times of most rapid rise and fall in the tide are those of "slack water," when the currents *at* the place cease, because they then *begin* to set *in* to, or *out* from, the place equally in opposite directions. The velocity of the tidal wave also varies with the depth,—running with the greatest rapidity in deep open seas, the height and force of the wave increasing as the rate of advance diminishes with the gradual shoaling of the bottom and the approach of the shores. It has been remarked that the retardation of the tides is not equable, but is much

greater when the moon is in quadrature than at the syzygies. In fact, the tidal day at the times of conjunction and opposition is really about 50 minutes shorter than at the times of the quadratures; and it is only about the octants that the tidal day is equal in length to the lunar day. The tide day, at new and full moon, is, according to Bernoulli, about 24*hrs.* 35*min.*, and at the quadratures it is 25*hrs.* 25*min.* nearly: now the moon's mean motion from the sun is about 50½ minutes in a day, and the smallest retardation about the times of conjunction is nearly 35 minutes. Hence, if M denote the moon's disturbing force in producing the tides, and S the sun's—we have, by a known proportion,—

$$M : S :: 35^m : 50\tfrac{1}{2}^m - 35^m :: 2{\cdot}26 : 1, \text{ nearly.}$$

Or, since the tide day near the quadratures is about 25*hrs.* 25*min.*, the lunar day being 24*hrs.* 50½*min.* we have thus,—

$$M : S :: 25^h\ 25^m - 24^h : 25^h\ 25^m - 24^h\ 50\tfrac{1}{2}^m :: 2{\cdot}46 : 1, \text{ nearly.}$$

Moreover, since the retardations at the syzygies and quadratures are respectively 35*min.* and 85*min.* we have also—

$$M - S : M + S :: 35 : 85;$$

and, hence—$M : S :: 85 + 35 : 85 - 35$, or $2{\cdot}4 : 1$.

Lastly, when the lunar and tide day are equal, the moon's elongation has been observed to be about 12° 30′; hence also by a known theorem—

$$\frac{S}{M} = \text{Sin } 2\ (\text{☾'s elongation} = \sin 25° = \frac{1}{2{\cdot}366} \text{ nearly.}$$

The ratio of the disturbing forces, as obtained by these different methods, is nearly the same; and it agrees pretty closely with other calculations from data independent of the phenomena in question.

From this it is inferred that the ratio of the forces of the sun and moon, in producing the tides, probably lies between that of 1 : 2·2 (or 5 : 11) and that of 1 : 2·6 (or 5 : 13). This however only corresponds to the mean intensities. The disturbing action of the luminaries varies in the inverse triplicate ratio, of their distances. Therefore, if the ratio 1 : 2·4, be taken as the value of this ratio, we have the following extreme values—

	M.	:	S.
Apogean.....	0·9513	:	2·0448, or 1 : 2.15 nearly.
Mean	1	:	2·4
Perigean.....	1·0521	:	2·8425 or 1 : 2·70 nearly.

Hence the ratio may vary from 0·9513 : 2·8425, or nearly as 1 : 3, to 1·0521 : 2·0448 or as 1 : 2 nearly. It must be remarked, however, that this supposes both the sun and moon to be together on the equator, which can never happen for any length of time. The effect of either luminary in raising the tide varies with the square of the cosine of its declination.

From the mean ratio, just derived, we infer that the mean height of the spring tides is to that of the neap tides nearly as 2·4+1 : 2·4—1, or as 10 : 4·12; from the observations at Brest, Laplace deduced the proportion of 138 to 62, or that of 10 to 4·49. Elsewhere, he again finds, from more numerous observations, the proportion of the solar and lunar forces to be 1 : 2·35333, whence the relative heights of the spring and neap tides would be inferred to be as 10 to 4·033.

Owing to the position of the Continents, the phenomena of the tides is still farther complicated. In each of the three great oceans partial tides are produced which, combining with the tidal wave from the

Southern Ocean (where alone it can circulate freely round the earth) run to the north-west until they are destroyed or broken up by the interfering islands and continents. The effect of the coasts is evidently such, that, were the action of the luminaries suspended, the tide wave would probably be entirely confused and broken up by the time it had performed a single revolution. Hence, any tide may be considered as principally dependent on the actual position of the sun and moon at the time it was produced; and every variation in the disturbing forces is propagated in the successive tides and may be noted at every port it reaches,—but later at each, according to the longer time required to reach it, and latest in those seas which, like the German Ocean, have a pretty high latitude and are much shut out by land from the great basins. Thus the highest spring tide is not the one which immediately follows the conjunction or opposition of the luminaries, since it frequently requires a day, or a day and a half, to reach the port: the highest tide on the southern coasts of India, at the Cape of Good Hope, and St. Helena, accordingly, is the second after new and full moon; on the Coasts of Spain, France, and the West of Ireland, it is the third; and at London and the ports of the German ocean, it is the fourth after the syzygy which is the highest. The interval occupied between the moon's passing the meridian and the occurrence of the tide which follows either syzygy, at the time of the equinoxes, when the Moon is at her mean distance from the earth, has been called the *Establishment of the Port*. The Establishment of the Port, then, is the retardation of High Water on the time of the moon's meridian passage at the time of an equinoxial syzygy. Thus, the Establishment of the Port of London is $1hr.\ 57{\cdot}3min.$ It is a constant of the greatest importance in the computation of the times of high water, and can only be accurately ascertained by long continued and careful observations at each port.*

It is not necessary here to enter into the analysis by which the formulæ for the calculation of the tides have been deduced. Laplace, in his *Mécanique Céleste* (tome II, p. 289) has given a formula for the time of high water which is essentially the same as the following—

$$\tan 2\,(h-\lambda') = \frac{\frac{m}{r^3}\cos^2\delta\,\sin 2\,(h-h'-\lambda+\lambda')}{\frac{m'}{r'^3}\cos^2\delta' + \frac{m^3}{r^3}\cos^2\delta\cos 2(h-h'-\lambda+\lambda')}$$

$$= \frac{\sin 2\,(h-h'-\lambda+\lambda')}{\frac{m'r^3\cos^2\delta'}{mr'^3\cos^2\delta} + \cos 2(h-h'-\lambda+\lambda')}.$$

In which m represents the mass of the sun,
r ,, the distance of the sun from the earth,
δ ,, the sun's declination,
h ,, the sun's hour angle,

* The value employed for the Establishment, in the calculations made at the Colaba Meteorological Observatory in Bombay is —58m.; but this does not agree with observation in the harbour. From the preceding transit the Establishment is usually given as $11h.\ 40m.$

and the same letters with a dash, the corresponding quantities with reference to the moon ; λ and λ′ being constants to be determined for each port from the observations. For the height of the tide the formula is—

$$H = B\left\{\frac{m}{r^3}\cos^2\delta\cos 2\,(h-\lambda) + \frac{m'}{r'^3}\cos^2\delta'\cos 2(h'-\lambda')\right\}$$

B, being a constant determined by observation at the port.

When, from sufficient observations, the values of λ′ and λ—λ′ have been carefully determined, the tides for the port may be computed with very considerable accuracy.

Since the distances, horizontal parallaxes, and angular diameters of of the same body have constant ratios,—putting P for the Horizontal parallax, and d for the Semidiameter, we have—

$$\frac{m'r^3}{mr'^3} = \frac{m'P^3}{mP^3} = k\frac{d'^3}{d^3}$$

Now the sun's semidiameter d=961″82, according to Airy ;

$\frac{\text{Sin } d'}{\text{Sin } P'}$=·273114, and the mean value of P′=3422″·3, according to Adams;

Encke makes P=8″.5776, but it has recently been shown by Mr. Stone and others to be about 8″.97 ; and m=354936, according to Laplace.

$$\text{Hence } \frac{m'r^3}{mr'^3} = \frac{m'}{354936}\times\left(\frac{961\cdot82}{8\ 97}\right)^3\times\frac{49\cdot0872d'^3}{d^3}$$

$$= \frac{m'}{354936}\times 107\cdot226\times\frac{49\cdot0872d'^3}{d^3} = 170\cdot5\ m'\frac{d'^3}{d^3}$$

Mr. Adams, from M. Peters's value of the nutation, finds $m'=\frac{2}{1}$, nearly, but tidal observations generally give a higher value. Laplace supposes the term $\frac{m'r^3}{mr'^3}$ or $\frac{m'P^3}{mP^3}$ to have a co-efficient, depending on local circumstances, and of the form $\frac{1+n'x}{1+nx}$. It appears better then, for the purpose of predicting the tides at any port, to determine the value of this term from local observations. Thus Laplace found it for Brest 2·6157 ; and Sir J. W. Lubbock for London 2·6395.

To tabulate these,—

$$\text{Put } A' = \log k\frac{d'^3}{d^3} = \log\frac{m'P^3}{mP^3} = \log 170\cdot5\frac{m'd'^3}{d^3};$$

$$A'' = \log\frac{\cos^2\delta'}{\cos^2\delta};\ \text{and } \log A = A' + A'',—$$

and for the time of high water—

$$\tan 2\,(h'-\lambda') = \frac{\sin 2\,(h-h'-\lambda+\lambda')}{A+\cos 2\,(h-h'-\lambda+\lambda')}$$

and, assuming A'=·3815+$\log\frac{d'^3}{d^3}$, we may now reduce these to tables of the following forms :—

Were the constant quantities determined with accuracy from sufficient observations for the port of Bombay, we should be able to test the correctness of the above formulæ and tables, which would probably be found to give results within the limits of error in the observations.*

* It is greatly to be regretted that so important a matter as the reduction of the tide observations made at the Colaba Observatory since 1847 has not been carried on. The empirical formulæ in use at present was derived from observations inadequate to give anything but a very rough approximation to the value of the constants employed; and it is well known that the tide-tables hitherto formed by means of them and published in the Bombay Almanacs were unworthy of confidence. The following, selected at random

The time of high water depends upon the time of the moon's southing or transit over the meridian of the port. The Nautical Almanack gives the mean time of the moon's meridian passage for Greenwich, and when the difference of longitude is not great, or a near approximation* only is required, the hour of the moon's southing at any place, whose longitude expressed in *time* is l, will be found by applying the correction—

$$2{\cdot}1\text{m} \times l.$$

to the time of transit at Greenwich,—*adding* it when the longitude is west, and *substracting* when east.

But, for greater accuracy, we may find the difference between the times of transit at Greenwich on the given day and the one preceding when the place is in East longitude or the succeeding one when in W. longitude, and calling this difference D and the required correction d, we have—24h : l :: D : d.

Thus, for Bombay,—d=·2022 D, or nearly $\frac{1}{5}$ D, which is to be subtracted from the Greenwich time, for the mean time of the moon's transit at Bombay.

Thus by the Nautical Almanack

☾'s Mer. Pass at Greenwith 4th Jan. 1864 is ...	20h.	15·0m.
,, ,, 3rd Jan. 1864	19	22·1
Difference	0	52·9

Then 52.9m. × ·2022 = 10·7m.

And ☾'s Mer. Pass. at Bombay 20h. 15·0m.—10·7m. = 20h. 4·3m.
or Jan. 5th at 8h. 4·3m. A.M.

To find approximately the time of High Water at Bombay, the following method, founded partly on theory and partly on an examination of the Colaba observations of 1861, may be employed :—

from the Colaba Observations and compared with the computed times of High Water taken from the Almanac for 1858 will best illustrate this :—

Can such discrepancies be explained? Or, are the observations collected and published from year to year untrustworthy, and if so, why are means not employed to make them at least deserving of the publication? If they are even tolerably correct, Government might have them reduced in order that accurate Tide tables may be available for the public use.

* The error will never amount to more than 1 *min.* for 42° difference of longitude, or 1·7*m.* at Bombay where the longitude is 4·85*h.* and the approximate correction 10·2*m.*

From the *apparent* time of the moon's meridian passage subtract 32 minutes, and with the remainder and the value of log. A, (tabulated in table IV. for the year 1864) as arguments, take out the correction from table III. Apply this, with the proper sign, to the *mean* time of the moon's southing and add the constant 23h. 34m. to the result, for the approximate time of high water.

INTRODUCTION.

The only explanation which is conceived necessary, to render the scheme of the following Calendar fully understood, is that the Christian months indicated at the top of each page divide the Native months as they appear represented in the space below allotted to their names. January, for example, partakes the Hindu months (Marú and Gujarat, Dakhan, and Koncan) Push and Maugh; (Malabar) Dhanuh and Magaram;—the (Rasami) Parsi months Tír and Amardad; of the Kadimi months Amardad and Sharivar; and the date of Naoroz 130 to 160;—the Muhammadan months Rajab and Saban;—and the Jewish months Tebet and Shebat.

In the respective columns 1st of January corresponds with the 7th of Push Shud (Marú Gujarat, Dakhan, and Koncan); the 19th of Dhanuh (Malabar); the 10th of Tir (Rasami); the 10th of

Amardad (Kadimí); and the 130th day of Naoroz or Kadimí; the 21st of Rajab (Muhammadan); and the 22nd of Tebet (Jewish); and so on throughout the year.

HINDUS.—It may here be observed that the Hindu Lunar months invariably consist of 30 Tithís, or Lunar days; and the whole month is divided into two equal parts of 15 Tithís each, the one called Shúkla Paksh, or Shúd, the bright half or increase of the Moon, the other the Krishna Paksh, or Vad, the dark half or decrease of the Moon. The Lunar month begins, on the Western side of India and South of the Narbada river, with the first day of the Shúkla Paksh (Shud Pratipada), or bright half of the Moon. At Benares, Ujjain, and the countries North of the Narbada, the Lunar month begins with the first day of the Krishna Paksh (Vad Pratipada) or dark half of the Moon. The first is designated the Shúkladi mode of reckoning; and the latter the Krishnadi. The Lunar year begins with the first day of the Shukla Paksh or bright half of the Moon in Chaitra, both North and South of the Narbadda, in every country in India; but as the dark half of the Moon precedes the other, or Shukla Paksh at Benares, the half Lunar month of Chaitra is taken from the last Lunar month of the year preceding, and considered to belong it.

The Lunar month invariably consists of 30 Tithís or Lunar days, but it has been customary in order to regulate the Feasts and Festivals, to drop certain Lunar days, and to reckon others twice to make up the deficiency; the first of these are termed by Hindús, Kshuya Tithís (perishable days), and the days repeated twice are called Virdh Tithís (additional days). The rule of these is exceedingly simple; those Lunar days on which the sun does not rise (Suryoduya nahín) are struck out; those in which it rises twice (Virdh,) are additional; and it is obvious that such circumstances will occur about six times in the course of the Lunar year.

The Hindús have several Eras:—The *Kaliyug* commences from the fictitious era 3101 B.C. The *Era of Vikramaditya*, so named from a sovereign of Malwa who defeated Soka, King of Delhi, and got possession of the chief throne of Hindùsthàn is reckoned from 56 B.C.; the years of this Era being called *Samvat*. The *Era of Salivahna* dates from the year 79 A.D.; it is the most prevalent in the South of Hindùsthàn as that of Vikramaditya is in the North and in Guzerat. The years of it are termed *Sáka*. The *Faslì Era*, of which name there are several beginning in Bengal in September, and at Madras 12th July. It was introduced into Upper India by Akbar, and dates from his accession 2 Rabi-ul sànì 963 A.H. It commences on the 1st of the lunar month Aswin; and its equation with the Christian epoch is 592½ and with the *Samvat* 649. It was named from the time at which the land-tax in Upper India was paid for the season,—the Faslí or *harvest* year. The Faslí Era in the South of India established by Shah Jehan (A.D. 1638) ought to be sidereal, but its commencement was fixed by the Madras Government to 12th July. Its equation is 590 with the Christian epoch. The *Era of Parhsurama* is used in Malàyala, or from Mangalore to Cape Comorin. It derives its name from a prince who is said to have reigned 1176 B.C. The epoch is 7th Aug. 3537 Jul. Per. or 1925 K.Y. It is reckoned in cycles of 1000 sidereal years, commencing when the Sun enters *Kanya* (Virgo) answering to the month Aswin. The Fourth Cycle of this era commenced 15th Sept. 1825.

TABLE OF THE CORRESPONDENCE OF INDIAN ERAS WITH THE CHRISTIAN YEARS TILL THE END OF THE XIXth CENTURY.

For the Bengali San, subtract 515 from the Saka date or 3694 from the Kaliyug (Sidereal) date ; it begins on the same day.

For the Fasli year of Upper India, subtract 649 from the Samvat date ; it begins on the 1st of the lunar month Ashwin.

For the Buddhist era of India, Ceylon, Ava, &c., add 486 to the Samvat date, and for the vulgar era of Burmah and Arracan, subtract 695 ; these are also luni-solar, and commence on the same day as the Hindu year.

PARSIS.—The ancient Persians reckoned a new era from the accession of each successive monarch, and as Yazdijird had no successor, the alleged date of his accession to the throne has been brought down to the present time thus making their current year 1233-34. In their calculations of the year only 365 days are allowed; leap year is unknown to them, though there are records which prove that in every 120 years one month was added to make it correspond with the solar year. The year is divided into twelve months of thirty days each, and five days, or "Gathas," as they are called, are added at the end to make up the deficiency.

The Parsis of India are divided into two sects,—the "Shahanshahis" or "Rasamis," and the "Kadimis" or "Churigarians," the former of whom constitute the larger portion of the race. This division originated about a hundred and fifty years ago, when a learned Persian priest, named Jamasp, arrived in India, and found that his co-religionists differed from their brethren of Iran in their calculation of time by a full month, and in other minor points relating to their "liturgy." Serious disputes arose in consequence, which ended in the formation of the two sects, the Rasamis adhering to their own views, and the Kadimis adopting the opinions imported by Jamasp,—thus agreeing with their Persian brethren. The difference lies in their computation of time, and in some slight variations in the forms of prayer.

The present scheme embraces the Parsi Era of Yazdijird, commonly styled Kadimi or Deufeay Naoroz, or sea reckoning, the same being made use of in all nautical calculations among Asiatic mariners, the New Year of which always commences on the 1st of Farvardin which fall about the 24th of August, one month earlier than the commencement of the Rasami New Year. It also embraces the Parsi Era of Yazdijird, commonly called Rasami i.e. 'customary,' and Shaharsi, for which some one proposed to substitute Shahanshahi (of the king of kings), and the absured change has ever since been adopted.* The New Year begins on the 1st day of Farvardin. Which occurs about the 23rd of September, a month later than the commencement of the Kadimi New Year.

The Parsis do not now divide their time into weeks, but name the 30 days of their months each after a celestial being—7 Amshaspands and 23 Izads—who is supposed to preside over them;—in Gujarati these are as follows:—

1 Hormazd.	16 Meher.

MUHAMMADANS.—The first day of the Muharram, or the commencement of the year, is ordinarily reckoned from the first observed appearence of the new Moon, or, in cloudy weather, from the time at which, but for such obstacles, it would be visible; and this can scarcely happen earlier than 24 or later than 48 hours after the conjunction. In this manner each separate month is reckoned, and the lapse of 12 such lunar months constitutes the Muhammadan year. In chronology, history, and other documents, however, they use months of 30 and 29 days alternately; and they add an intercalary day to the 2nd, 5th, 7th, 10th, 13th, 15th, 18th, 21st, 24th, 26th, and 29th, year in a Cycle of 30. They reckon from the Hajira or flight of Muhammad which took place on the evening of Thursday, 15th July A.D. 622, and the era commences from the following day. Thus the year 1280 A.H. began 18th June 1862 and ends 5th June 1864. Thirty-two common years are about equal to 33 years of the Hajira; or, more nearly, 163 common years are within less than a day of 168 Mussulman years.

To find the day of the Week answering to any day of the Muhammadan year. Divide the year by 210 and the remainder by 30 and with the remainder on the left hand and last quotient at the top of the following table, the day of the week on which the year begins will be found at the intersection of the line and column. The Calendar following will show the day of the week answering to any day of the year and *vice versâ*. Thus, to find the day of the week corresponding to 1st Ramadhân 1281:—1281÷210, gives 61 as a remainder and 61÷30=2 and 1 over. With 2 at the top and 1 on the left hand we find "Monday" for the first day of A.H. 1281; and by the Calendar below in the 2nd column, (which begins with Monday) and in a line with 1st Ramadhân, we find "Saturday" as the day required.

JEWS.—The Jews have ever marked their time by *sevenths*, according to the command given by God himself, for labouring during only *six* days of each week, and resting on the seventh, which was consequently set apart, or consecrated, to the service of the Creator. They not only hallowed the seventh day, or Sabbath, which formed a portion of their *week of days*, but they had, also their *week of years*, which consisted of seven years, and their *jubilees* or rejoicing periods, which were celebrated by acts of justice, forgiveness, and restitution, at the end of every *seven times seven years*. The Hebrews, the Assyrians, Egyptians, Arabians, and Persians, all had the custom of reckoning by weeks.

We have endeavoured to discriminate the Feasts and Festivals of each nation by different sorts of type; the Hindú, for example, we have distinguished by Roman small letters, as Púsh Shúd; the Malabar and Jewish by Roman capitals, as MAGARAM; the Parsi by small capitals as AMARDAD; and the Muhammadan by Italic small letters, as *Muharram*.

ENGLISH FESTIVALS, FASTS, AND OBSERVANCES.

JANUARY.

1. *New Year's Day.*—The first day of January, or New Year's Day, is set apart as a festival in commemoration of the Circumcision of Our Lord Jesus Christ, who, on the eighth day after his nativity, submitted to that rite. The title of Circumcision, as applicable to this festival, cannot be traced to an earlier period than A.D. 1090; nor was it generally observed as such by the members of the English Church, until the year 1550, when it was included in the Liturgy.

6. *Epiphany.*—The word Epiphany signifies APPEARANCE OR APPARITION. This festival is kept in commemoration of the "Manifestation" of the Saviour of mankind to the Gentiles, and appears to have been first observed as a separate feast in the year 813. The primitive Christians celebrated the Feast of Nativity for twelve days, observing the first and last with the greatest solemnity. From the circumstance of this festival being twelve days after Christmas, it is vulgarly called "Twelfth-day."

24. *Septuagesima Sunday.*—Septuagesima Sunday is a Sunday dependent upon Lent as that season is upon Easter. It is to be considered as the preparation for the fast of Lent. Its observation was instituted by Pope Gregory the Great. The name of the first Sunday in Lent having been distinguished by the appellation of Quadragesima, and the three weeks preceding having been appropriated to the gradual introduction of the Lent Fast, the three Sundays of these weeks were called by names significant of their situation; and reckoning by DECADES (tenths), the Sunday preceding Quadragesima received its present title of Quinquagesima, the second Sexagesima, and the third Septuagesima.

FEBRUARY.

1. *Purification or Candlemas Day.*—This day is kept in the English Church, as well as in the Church of Rome, as a festival in memory of the purification of the Virgin Mary, who obeyed the injunction of the law under which she lived, and presented the infant Jesus in the temple forty days after birth. The festival was celebrated in the Churches of the middle ages with an abundance of light, and was originally called "Candlemas Day" as well as the Day of Purification. The practice of lighting the Churches has been discontinued in England since the second year of Edward VI.: in the Roman Catholic Church all the attendant ceremonies are still retained.

10. ASH-WEDNESDAY.—Pope Felix III., in the year 487, first added the four days preceding the old Lent Sunday, to complete the number of fasting days to forty. Gregory the Great introduced the sprinkling of ashes on the first of the four additional days, which give it the name of DIES-CINERIUM, or ASH-WEDNESDAY. At the Reformation this practice was abolished as being a "mere shadow, or vain show."

14. *Quadragesima; or first Sunday in Lent.*—Ercombert, King of Kent, first appointed the fast of Lent in England, in the year 641. Succeeding generations marked the distinctions between the various foods.

Ember Week.—The meaning of the word Ember in the Saxon language is embers, synonymous with the English embers or ashes which were sprinkled on the heads of the people at these seasons. On Ember-days also nothing was permitted to be eaten until the evening, and then only cakes baked under the embers or ashes: hence called *panem sub-cinerium*, or ember-bread. The observance of the Ember-days in the Church is said to have been appointed by Pope Calixtus in the third century, for the purpose of imploring the blessing of the Almighty on the produce of the earth. He appointed four times in each year, answering to the four seasons, for exercising these acts of devotion. The two first happen on the Wednesdays, Fridays, and Saturdays following Quadragesima Sunday and Whit-Sunday, and are variable like those festivals. The two latter, which depend on the fixed festivals of Holy Cross and St. Lucy, may also vary a week, as they take place on the Wednesdays, Fridays, and Saturdays after those feasts.

MARCH.

1. *St. David's day.*—St. David, the patron Saint of Welshmen, was Archbishop of Menevy. He was a man of considerable learning, and was reputed to possess the power of performing miracles. He died in 544, and was buried in the Church of St. Andrew; but his remains were afterwards removed to Glastonbury Abbey. On this day Welshmen wear a leek in their hats, a practice supposed to have originated from their countrymen in a great battle with the Saxons, fought in the vicinity of a leek field, having adopted that vegetable as a military mark of distinction by which they might distinguish each other from the enemy during the battle.

17. *St. Patrick's day.*—A grand festival of the Church of Rome; and on which Irishman considers his duty to make himself as happy as a Welshman does on the 1st of March. The Irish venerate St. Patrick as the introducer of Christianity into Ireland. He was a Scotchman by birth. The shamrock, a species of clover is generally worn by the Irish on this day.

20. *Palm Sunday.*—Palm Sunday is the Sunday preceding Easter, or the last Sunday in Lent. Anciently Palm Sunday, with the whole of the week which it commences, was held in strict devotion and observed with more rigor, as to fasting and humiliation, than any other part of the Lent season. The festival commemorates our Saviour's triumphal entry into Jerusalem, when branches of palm were spread before him.

25. *The Annunciation of our Lady.*—This day is more familiarly known in England as Lady Day. It is kept as a festival in the English Church in commemoration of the Incarnation of Christ.

In England it is one of the Quarter days on which rent and other dues become payable. The other quarter days are Midsummer Day (June 24), Michaelmas Day (September 29), and Christmas Day (December 25.)

28. *Maunday-Thursday.*—Edward III., in the year 1263, appears to have been the first English Monarch who introduced into that country the practice of feeding, clothing, and distributing money to indigent persons on Maunday-Thursday. The custom has continued without intermission to the present period; and yearly on this day, the Lord Almoner, or, in his absence, the Sub-Almoner, attends for that purpose in Whitehall Chapel.

25. GOOD FRIDAY.—From the earliest times this day has been held as a solemn fast, in remembrance of the Crucifixion. Its appellation of good appears to be peculiar to the Church of England. Our Saxon forefathers denominated it Long Friday, from the length of the offices and fasting on that day.

27. EASTER SUNDAY.—Is a movable festival, held in commemoration of the Resurrection; and being the most important and most ancient in observance, governs the whole of the other movable feasts throughout the year.

*** Nearly the whole of the movable feasts and holy-days of the Church are determined by Easter Day, which is itself movable according to the following canonical regulation, *viz.* Easter Sunday always falls upon the first Sunday after the first Full Moon after the 21st day of March. If the first Full Moon happens on a Sunday, then the following Sunday is Easter Sunday. The first of these movable feasts in the year is Septuagesima Sunday, and it takes place nine Sundays before Easter.

APRIL.

3. *Low Sunday.*—So termed from the Church services being somewhat abridged or lowered from the preceding Sunday.

23. *St. George.*—Edward III., at the battle of Calais, in the year 1349, joined to England's then supposed principal guardian, St. Edward the Confessor, St. George, both of whom he earnestly invoked to aid his arms. The next year the name of the Order of the Garter was established, dedicated to St. George; and the Saint himself has, from that period, been considered as Protector of England.

MAY.

1. *Rogation Sunday.*—Rogation Sunday received and retains its title from the Monday, Tuesday, and Wednesday immediately following it, which are called ROGATION DAYS, derived from the Latin ROGARE, to beseech. The early Christians appropriated those three days to extraordinary prayers and supplications as a preparation for the devout observance of our Saviour's Ascension on the day next succeeding to them, denominated Holy Thursday, or Ascension day.

5. *Ascension Day or Holy Thursday*—Is the day on which the church celebrates the Ascension of our Saviour—the fortieth day after his Resurrection.

15. *Pentecost or Whit-Sunday.*—The seventh Sunday after Easter Day. It was on the feast of Pentecost (a great feast of the Jews), that the Holy Ghost miraculously descended on the Apostles. This and the two following days comprise Whitsuntide; and in many parts of England it is a term for hiring servants. It is named White Sunday, because on this day the Catechumens appeared in the Ancient Church in white garments.

22. *Trinity Sunday.*—Trinity Sunday is a festival observed by the Latin and English Churches on the Sunday next following Pentecost, or Whitsuntide.

26. *Corpus Christi.*—A festival of the Roman Catholic Church, held on the Thursday after Trinity Sunday. It celebrates, as the name indicates, the doctrine of transubtantiation, and is observed in Catholic countries with considerable ceremony.

JUNE.

24. *St. John the Baptist.*—The Nativity of St. John the Baptist, is a holiday of the Church of England. The Eve of St. John, variously called Midsummer Eve, was formerly a time of high observance amongst the English, as it still is in Roman Catholic countries.

JULY.

3. *Dog-Days begin.*—The Canicular or Dog-Days commence on the 3rd of July and end on the 11th of August. The Egyptians, &c. were accustomed to regard the rising and setting with the Sun or Sirius, or the Dog-star, as the cause of excessive heat and consequent calamities, instead of viewing it as the sign when such effects might be expected. Of this notion, Dr. Hutton says—"The star not only varies in its rising, in every one year, as the latitude varies, but is always later and later every year, in all latitudes; so that in time the star may, by the same rule, come to be charged with bringi frost and snow."

SEPTEMBER.

29. *Michaelmas Day.*—A grand festival of the Latin and English Churches, established 487, in honor of St. Michael and all the Holy Angels. St. Michael is singled out for peculiar mention as being the chief of angels or archangels. It is an ancient and extensively prevalent custom to have a goose for dinner on Michaelmas Day. It seems to have arisen singly from the goose being at its best, immediately after it has had the range of the reaped harvest fields.

NOVEMBER.

11. *St. Martin's Day or Martinmas.*—Popularly this is one of the most remarkable days of the year, especially in Scotland, where Whitsuntide and Martinmas are the two great terms for leases and engagements of servants, the latter being that at which the occupation of farms usually commences. When a few fine days occur about this time of the year, they are called St. Martin's Summer. Formerly this was a quarterly day in England. A payment of corn at Martinmas occurs in the Doomsday Survey. It is still retained in the Church of England Calendar.

27. *Advent* [*literally the coming.*]—A term applied from an early period of ecclesiastical history to the four weeks preceding Christmas, which was observed with penance and devotion, in reference to the approaching birth of Christ. There are four Sundays in Advent, the first of which is always the nearest Sunday to St. Andrew's day (November 30).

30 *St. Andrew's Day.*—St. Andrew was one of the Apostles. His history, as related by the Catholic writers, represents him as martyred in the year 66, at Patræ, in Greece upon a cross of the form of the letter X, which, accordingly, is still recognised at St. Andrew's Cross.

DECEMBER.

13. *St. Lucy.*—Retained in the Church of England Calendar. St. Lucy was a young Syracusan, who retained a high character for a devout and charitable life, and died in the year 304. The last of the four series of the Ember Days, commences on the Wednesday following this festival.

21. *St. Thomas,* Apostle, having preached the Gospel to Parthians, Medes, Persians, and Hyrcanians, went into India, where he instructed the people in the Christian faith; for which by the King's command, he was pierced through the body with lances, and died at Calamina, in 44 A.D.

25. CHRISTMAS DAY.—Observed from an early period as the Nativity of our Lord. In England Christmas Day is kept by the Church as a solemn festival, and is distinguished by the complete cessation of business—an honor paid to no other day, besides Sundays and Good Friday. In many country places the celebration of Christmas begins in the latter part of the previous day—Christmas Eve. The house is decked with holly, ivy, and other evergreens, and an enormous log, called the Yule log or Christmas Block, laid upon the fire; the people sitting round regaling themselves.

NATIVE FESTIVALS, FASTS, AND OBSERVANCES.

HINDU.

MAKAR SANKRANT.—On this day the sun enters the sign "*Makar,*" or Capricorn.—*Vide 12th January.* The Hindu festivals are very numerous and the writers of the Hindu legends have set such enormous merit on the observances of each of them, as to surpass all human comprehension; they unhesitatingly say that those observances themselves will obtain heaven. Great rejoicings are held among the Hindús, but particularly among the Brahmans, on the feast of *Makar Sankránt.* From this day till the time of his leaving the most northern sign of the Zodiac, he is said to be in *Utaráyan,* and from the time of his leaving the northern sign to the entering the sign "*Karkata*" or Cancer, he is said to be in *Dakshanayan.* The vernal and autumnal equinoxes divide the year into two equal parts, *Utaráyan,* and *Dakshanayan.* The days of *Utaráyan* are reckoned lucky, and those of *Dakshanayan* unlucky. During the days of *Dakshanayan,* it is said that the gates of heaven are shut, and in the *Utaráyan* they are open. For men to die in the *Utaráyan* is considered more blessed, because they are said to get immediate entrance into heaven; but if the righteous die in the *Dakshanayan,* they have to wait outside the gates till the *Utaráyan* sets in. In the days of *Utaráyan,* Múnj—the ceremony of investing youths with the sacred cord—and marriages are celebrated. The ceremonies that are performed on the day of *Makar Sankránt,* just at the time of the sun's entrance into the sign, are these:—The Hindús go to the sea, accompanied by the Brahman

priest, to bathe: there they rub their bodies with *tilla* seed,* and wash themselves in the manner prescribed in the Shástra. The Brahman then repeats certain incantations suited to the occasion, and closes the ceremony by receiving adoration, and a present of money for himself. On their return home they invite Brahmans, present them with a cup of bell-metal, filled with tilla seed and some money, according to the ability of the *Yajáman*. Some present copper pots, new *dhótars*, umbrellas, &c., and the whole family receives benediction from them, which is done by the Brahmans repeating certain words, and throwing on their heads a few grains of red coloured rice. After the performance of this ceremony they go to take their meals, which consist of sweetmeats. They invite their friends and relations to dinner; and towards evening they wear new clothes, gold, and other ornaments, and frequent the houses of their friends and relations, distributing *tilla* seed mixed with sugar. At the time of putting the *tilla* into the parties' hands, they repeat these words: "Receive these *tillas* mixed with sugar, and be friendly to me throughout the whole year." All the praise and prayers offered this day are to the Sun, and to no other god. The second day of Sankránt is named *Kar*, which is generally celebrated by the women, making small presents among those of their own sex.

WASANT PANCHMI seems to have been instituted in honour of the Spring, which season is personified under the name of *Wasanta*, who is fabled as attending on *Kama*, the god of love.—*Vide 12th February.*

RATHSAPTAMI is dedicated to the worship of the Sun.—*Vide 14th February.* This day is the beginning of the Manwantra, or period embracing the reign of *Manú*, of which fourteen govern in succession, during the different ages of the world. The present age is under the dominion of the seventh Manú; and at the commencement of this period a new sun is supposed to have mounted his chariot.

SHIVRATRI.—A fast-day in honour of *Shíva*, during which the *linga*, or Bacchiophallus, is worshipped—*Vide 6th March.* Vad Chatúrdasí, or the 29th of every month, is kept sacred by the votaries of Shiva; but *Magh vad Chatúrdasí* has obtained the peculiar epithet of *Máhá Shíva Ratrí*, or the great night of Shíva. The Hindú legends account for its celebrity in the following manner among the rest of *Shíva Rátrís*:—In time immemorial an archer of wicked and licentious habits went into a forest on this day, to shoot deer. He spent the day in the pursuit of his game, and on a sudden night came on, and he was left at the mercy of wild beasts. When he found himself in such a condition, he had recourse to a *Bale* or *Bilva* tree† to secure himself from their attack. Having got into the tree, by way of relaxation, or to get a clearer view, he broke off all the branches that hung around and above his head, and flung them down: the twigs which he threw fell on a *Linga* of *Shíva* near the foot of the tree. Shíva was so pleased and satisfied by this accidental worship, that he forthwith sent a *Vaimán* or heavenly chariot, and took the hunter into *Kylas*, his own abode, with acclamations of joy. To commemorate the entrance of this archer into Kylas, the Hindus observe a feast this day, and worship Shíva in hopes of obtaining a like reward. His votaries fast, and in the night, repair to the temples of Shíva, accompanied by a Brah-

man priest, who performs púja by repeating certain incantations ; first he pours some water over the *Linga*, and washes it, and afterwards he decorates it with choice flowers. When this is done, the priest takes his sacred book, wherein Shíva's thousand different names are written, and reads the names : and the Yajamán,—the worshipper,—flings a leaf of the *Bale* over the top of the *Linga* each time. This kind of púja is performed four different times, and thus no sleep is obtained the whole night. This is styled the púja of the four *Práharas* or watches. It commences at about eight P.M. and ends at five A.M. The pagodas of Shíva are thronged by devotees. Some persons engage twelve Brahmans, others four, &c., according to the abilities of the Yajamán to perform the púja. The Brahmans must be liberally paid for their labours.

HOLI (Sanscrit—HOLIKA or PHALGOTSAVA)—*Vide 22nd March.*—This festival, called also *Dólawatra*, or the swinging festival, is supposed by Sir W. Jones to relate to the vernal equinox, and to be similar to the Persian Naoroz. It commences fifteen days before the full moon, on which the ceremonies are terminated, and is held in honour of *Krishna*. Red powders are daubed upon the image of the god, and thrown and squirted by his worshippers on each other, while females are insulted by exclamations and jests of the most impure description. The wheaten cake, which is placed on the pile lighted at the close of the festival, is called *Poli* and the right of first offering it in a village is considered as an honorary privilege. Neither the origin of this festival, nor the obscene manner in which it is observed, in Western India can be decently described. Nor is the observation of it confined to the lower classes of the native community—the highest join in it with the same zest as the lowest. This festival nominally continues from the new to the full moon; but only a few of the last days are practically and openly devoted to it. It is often called Shimga, from the name of the month in which it occurs

THE HINDU NEW YEAR—*Vide 7th April.*—(the first day, called Gúdi Padva).—On the morning of this day a Hindú first rubs oil upon his body, and then bathes himself with warm water. A pole bearing a flag, and surmounted with a brass or copper vessel, is erected in front of each house. One such pole must be erected by each family to represent the banner of Indra, the king of the gods, which on this day is also said to be raised in honour of him by the gods. What is done on earth is therefore in imitation of what is imagined to take place in the heaven of Indra. The leaves of the bitter Nimb tree are then to be eaten, which are supposed to secure health to the body, because this tree is the offspring of the Ambrosia of the gods. The Almanack for the New Year is then to be worshipped, and its predictions in regard to the year just commencing, are to be heard from the mouth of the Jyotishyís. They tell whether there is to be abundance or scarcity of rain, whether there will be unusual heat or cold, whether robberies, insurrections, &c., are to abound, whether unusual sickness is to prevail, &c. &c. Each individual on this day also learns what he is to expect during the year; whether health or sickness, prosperity or adversity, is to be his portion, &c. &c. All this important information is not, of course, to be obtained without compensation. And not only are presents to be given to be Jyotishyís, but the poor people are taught on this day to extend their liberality also to the Gúrús and Brahmans. The day is also to be celebrated by fasting. This is considered an

auspicious day for commencing a new building, or engaging in any new undertaking.

RAM NAVMI.—On this day it is said Ramchandra, the 7th incarnation of Vishnu, said to have been born at *Ayodhya* or Oude, about B.C. 950. —*Vide 15th April.* The object of the incarnation was to effect the destruction of Ravan, the ten-headed tyrant of Lanká or Ceylon, which was at last done with the assistance of Hanúmán, the chief of the monkey tribe. The birth of Rama is celebrated eight days previous to its occurrence, that is, from the first of *Chaitra Súdh* to the ninth. On the first day the temples of Rama are whitewashed and illuminated in the evening, and the image of Rama adorned with costly ornaments. In the evening the *Ramayan*, or legendary history of Rama, is read in the temples, and in the night *Kírtan* is preached by the *Haridas*, who describes the pretended morality and heroic actions of Rama. Náches are not omitted during the nights. In some temples Brahmans are fed with rich and substantial dinners for eight successive days; these days are denominated *Ráma navratri*, or nine nights of Ráma. During these days, many Hindus, both males and females, go to the temples of Rama to hear the *Kírtan* and *Púrán*. The last or principal day is *Ramnavmí*, when, it is said, Rama became incarnate at noon. In honour of this incarnation, the Hindus fast the whole day. They get up in the morning, wash themselves, and put on rich clothes and ornaments, and repair to the temples of Rama about nine o'clock. Every temple of Rama is well furnished on this day, and the images are decorated with precious ornaments and rich brocade. A *Haridas* is engaged to describe the birth and circumstances that attended this incarnation. He continues his discourse till twelve o'clock, when he brings a small image of Rama, nicely ornamented and well clad, and shows it to his audience, and tells them that it is Rama who became incarnate; he then puts it into a small cradle prepared for the purpose. The assembly then throw themselves prostrate before the image and worship it. Great is their rejoicing and acclamation on this occasion; they fling *gulál*, a red power, on each other, and with great mirth at about one o'clock they go home, and again return to the temples in the evening. The feast of Ramnavmi is more particularly observed by the votaries of Vishnu.

VAT SAVITRI (SAVITRI VRATA)—*Vide 19th June.*—A fast observed by women at the root of the Indian fig tree, to preserve them from widowhood.

ASHADY EKADASHI is the eleventh of the light half of the month *Ashad*, and is dedicated to Vishnu.—*Vide 15th July.*—On this day, which refers to the summer solstice, commences the night of the god, during which the deity reposes, for four months on the serpent Shesha.

NAG PANCHAMI, is sacred to the demi-gods in the form of serpents. —*Vide 7th August.* Ceremonies are performed on this day to ensure protection against the bites of snakes. The serpent *Kalíya*, slain by Krishna, is worshipped at the festival.

SHRAWAN OR NARIYAL PURNAMA.—*Vide 17th August.*—On this day the rainy season is considered to be at an end, and a cocoanut is offered to the sea to gain its favour towards those who now begin to trust themselves to its mercy.

JANMA OR GOKUL ASHTAMI (JANMA ASHTAMI,)—*Vide 24th August.* —Instituted in commemoration of the birth of *Krishna*, which took place at midnight in the city of Mathúra. Krishna was the eighth in-

carnation of *Vishnu*, in which, according to a large sect of Hindus, was manifested a greater portion of divinity than in any of the preceeding ones. His uncle *Kaunsh* who, it was predicted, would be slain by one of his own family, endeavoured to ensure the destruction of the infant god, by placing guards over his pregnant sister; but the child was preserved from this and other attempts of his relations, who had given directions for the slaughtering of all newly-born infants. This holiday is considered one of the greatest among the Hindus, and is observed by almost all the community; there are two sects among the followers of *Krishna*, and they solemnise the feast on different days. Those belonging to the one keep the eighth day of the dark moon, and those belonging to the other, the day following—being the one on which he was removed to *Gokal*, to the house of Nanda, from fear of his maternal uncle, who sought his destruction; and some even keep both days. The former fast on the day of *Janma Ashtámi*, and the latter on the day of *Gokal Ashtami*. They fast the whole day, and at night they bathe, and worship an image of the infant *Krishna*, adorning it with *túlsí* a favorite plant of *Vishnu's*, and with other flowers, in the manner enjoined in the *Shastra*; and at about ten or eleven P.M. they eat their *Palahár* food which consists of fruits and a certain kind of grain, being prohibited from eating rice and other grain that day. A Brahman is called in to perform the *púja*, and afterwards he himself is worshipped, and sent away loaded with *dakshina* and other presents. The holiday is thus observed among the people of the higher castes. On the day of *Gokal Ashtami*, *gavlís* (or keepers of cattle) hold a great jubilee among themselves, as Krishna is said have been bred up among their race. They form companies, and frequent the houses of the people who follow their profession, holding each other's hands, dancing in the street and repeating the words, "*Govin·ia, Govinda,*" when they are honoured either by throwing over them curds, or presenting them with curds. These people are called *Gopáls*—protectors of cows. On the night of *Janma Ashtami*, crowds of people, generally of the lower ranks, flock to the temple of *Kánobá* which is commonly known by the name of *Matth*; there they hire native music, and continue shouting and making a great noise. The *Bhaghat of Kánobá*, or the head of the temple, who is very often of the *Shudra* caste and *who* is considered a supernatural being, at least at the time, with great solemnity and grave countenance, makes his way through the assembly accompanied by the playing of tom-toms, and acclamations of joy from his disciples, and standing before the shrine of *Kânobá*, offers prayers to the idol which is richly decorated on the occasion. He is at first calm, but shortly shows signs of inspiration by the god. He begins to untie his shendi, or the tuft of hair on the crown of his head, and then slowly shakes his limbs. By degrees his whole frame quivers, and he throws his body into violent contortions, dancing and muttering strange ambiguous and wild sounds, which no one can understand. He then takes his scourge, which is kept near the shrine, and scourges himself, as if he were insane, and performs many other equally ridiculous actions. No sooner does the assembly see this, than, believing that the spirit of the god has entered into him, they burn incense before him, fall prostrate, and pray to him to be merciful to them. When he has received divine homage, he quietly takes his seat, but does not cease appearing to quake and tremble. His disciples, who are always near him, then commence, one after another, to shake them-

selves and dance in the same way ; and the spirit of the god is believed to enter them also. This day the great *Bhagat* can create new disciples, and give them the power of bringing the spirit of the god into their bodies. Sick persons, persons supposed to be possessed of devils, children, &c., are brought to the temple to receive the benediction of the *Bhagat* and his disciples ; he rubs ashes on their foreheads, passes his hand over their heads, and gives them full assurance of speedy recovery from their sickness without taking any medicine. The poor patient, with full confidence, returns home, expecting the fulfilment of the *Bhagat*'s promise. The *Bhagat* receives large presents on this occasion from his followers, and he is held in great respect among the orthodox Hindus, and even among people of other tribes. On the following morning the *Bhagat* collects his disciples in front of the temple, and orders a sufficient quantity of curds to be thrown over their heads to wet their whole bodies ; they all begin to dance in company, holding each other's hands, and occasionally throwing themselves on the ground and besmearing their bodies with mud, shouting as loudly as they can. The *Bhagat*, in the mean time, with a scourge in his hand, forces his way into the crowd, and with all pretended dignity stands in the midst and looking in all directions in feigned solemnity, he then lifts up his scourge and putting it round the neck of one of his disciples as a token of his regard, draws him towards himself, when the disciple affects to tremble a little, and then stands firm stretching his hands towards the sky, with his eyes closed. No sooner does the *Bhagat* see him in this state, than he scourges him two or three times so adroitly that it gives him no pain, while to the eye of the spectator it appears a prodigy that he does not feel it. This is repeated with the whole body of his disciples, and when he ceases, sweetmeats are distributed among the disciples and to the spectators. This terminates the feast of *Gokal Ashtami* among the people of the Shudra caste.

PITTHORI OR PRACHINI AMAS.—*Vide* 31*st August*.—A ceremony observed at the new moon of the month *Shravan*, at which the 64 Yogin, or female attendents of the goddess Dúrga are worshipped, particularly, by women, with the hope of obtaining issue. The 30th day of *Shravan*, or the last day of the dark half of the moon is denominated "*Prachi Amás*." Prachí is commonly known among the people of the Konkan and Dakhan by the name of Pitthori. Wealthy Banias and other people of Gujarat go to Walkeshwar on the previous evening with their families to remain in the *Dharmashala* during the night ; and, in the morning bathe in the tank. This tank is called by the natives *Ban-ganga*, *i.e.* the Ganges produced by an arrow. They say when *Ráma* visited this place, and found that there was no pure water to drink, he pierced the ground with an arrow from his bow, and thus brought the Ganges into existence. The worshippers perform *Sradhas* on the margin of the tank, and ceremonies for procuring the deliverance of their departed ancestors from the thraldom of *Yama*, the king of the infernal regions, if they still remain at his court or in his dominions. They afterwards repair to the temple of *Walkeshwar* and worship his image, and then take their meals. The remaining part of the day is spent in amusements. Booths are erected in the locality of the temple, and furnished with all kinds of articles that please the fancy, or delight the taste. Hindus on this occasion squander hundreds of rupees in hiring vehicles, and buying toys and sweetmeats for their children. This holiday is not observed by the majority of the inhabitants of the Konkan and Dakhan. It is kept up chiefly by those women who lose

their children in infancy. They fast on this day, and worship an image of *Pitthorí*, by adoring it with various kinds of fruits and flowers, through the medium of a Brahman priest.

GANISH CHAOTH, OR CHATURTHI.—*Vide 5th September.* On this day was born Ganpati, or *Ganish*, who is considered as the god of prudence, and invoked at the commencement of all undertakings. The manner of his birth is differently told; one story relates, that as the god *Kartikvirya* was created by Shiva without connubial assistance, in like manner *Ganpatí* was formed by his consort *Parvatí* from the turmeric and oil scraped from her body while bathing. The loss of his human head, and the substitution of that of a female elephant with one tusk, is also variously explained. By some, his head is said to have been cut off by Shiva when he endeavoured to prevent the god from entering the chamber of Parvati when performing her ablutions. According to others, it was reduced to ashes by a glance from the eyes of *Shaní* when all the gods went to look at the newly-born child, and its place supplied by that of the animal first found, which happened to be an elephant. Clay images of the deity are formed, and after having been worshipped mostly for two days, or for nine or ten days, are thrown into the water. The Chinchore or Chinchwad (properly Deo) who resides at the village of that name near Púna is supposed to be an incarnation of this god, who granted to a holy Gosanvi who had won his favour, that the divinity should be continued in his family for seven generations; and though the present one has exceeded that limit, the miracle is perpetuated by the Brahmans from self-interest. It is commonly said among the Hindus, that the *Shastra* enjoins on its followers the worship of Mrutika (earth) in the following forms, three times a year:—The first of them is *Nagpanchmí*, on which day a snake of clay is made and worshipped; the second is *Gokal Ashtamí*, when a clay image of the infant *Krishna* is made and worshipped; and the third and last, is *Ganesh Chatúrthí*, on which day a clay image of Ganesh is worshipped. This being the last day of the worship of *Mrutika*, it is observed with greater pomp and more ceremonies, conviviality, and music, than the other two. The image worshipped on this occasion has four hands and an elephant's head. The mouse, being *Ganpatí's* favourite vehicle, is sometimes placed beside his image, richly saddled and bridled. The image of *Ganpatí* is either made in the house or purchased from an artist; it is gilt with the finest gold, and painted with superior and variegated colours; much labour and ingenuity is bestowed on it by some to render it elegant and attractive, according to the taste and pecuniary means of the worshipper. The 4th of the month of *Bhádrapad* is the appointed period for the celebration of this feast. On the previous day the worshipper cleans and whitewashes his house, and furnishes it with all sorts of costly furniture that he can procure. The profusion of light is the first thing that would attract the eye. On the following morning, *i.e.* on the day of *Ganish Chatúrthí*, they bring the image home (if it is bought) with great display, accompained by native music, and with all the honours of a god. A place where the god is to be seated is prepared, either in the form of a covered shrine or open space, which is adorned with all kinds of fruits and flowers strewed round it, and twigs of trees hung over it in clusters; after which commences the business of the officiating priest who sits near the master of the house, and begins consecrating the idol, by reciting incantations, or *mantras*, from his book and throwing over it red coloured rice; after performing many consecrative ceremonies, he brings

the god into the image. Being installed the devotee places before him *Nayavedya* food, which consists of sweetmeats, and invokes the god to partake of the offering. Afterwards he falls before him, and prays him to be gracious to him and his family. By the generality of the people, *Ganpati* is kept one day and a half; but by some five or ten days, according to the wealth and wish of the proprietor. A discourse is delivered in commemoration of his godship's exploits by a *Haridas* in his presence, at which friends and relatives are invited to attend. A large party of Brahmans are entertained at a sumptuous dinner, in honour of *Ganish*, and are then dismissed with the usual *dakshina*. On the last day preparations for his departure are made. Evening is the appointed time for parting, when the master of the house performs Uttarpuja through the priest, who takes away the divinity with which the image was invested, by repeating certain *mantras*: flowers, fruits, and sweetmeats are offered to the idol, and *árti*, that is, lighted wicks, are moved before him, accompanied with music and hymns; and he is invoked to bless the owner and his family, and remove any calamity that might befall them throughout the year. Afterwards the Brahmans are presented with *dakshina*, and the image is seated in a palanquin, or in an ark expressly made for the purpose, adorned with fresh flowers, and carried to the sea or a tank in a procession which consists of the master of the house, his children, and relatives, attired for the occasion. When they reach the place, they take out the image and commit it to the water, with expressions of regret for its absence till next year. On the day of *Ganish Chatúrthí* the Hindus are prohibited by the *Shastra* from looking at the moon, and therefore the prejudiced and credulous are afraid to look at her this evening for fear of incurring any calamity during the year. If the common people happen to see the moon, they try to provoke their neighbours to abuse them, and comfort themselves with the idea that the calamities incurred will be all comprehended in that abuse, and removed by it.

Rishi Panchmi.—*Vide 6th September.* Observed in honour of the seven Rishis or sages, who are supposed to be the seven bright stars in the *Great Bear*.

Gaori.—*Vide 8th September.* One of the names of the goddess *Parvati*. Cakes are made in the shape of pebbles, and eaten at night.

Vaman Devadashi.—*Vide 12th September.* Instituted in commemoration of the fifth incarnation of Vishnu, in the shape of a dwarf, to prevent *Bali* from obtaining dominion over the three worlds through the effects of his religious austerities. Bali it is said, promised the dwarf at his own request to grant him as much land as he could compass at three steps. On the ratification of this promise, the first two strides of the incarnate deity, embraced the heaven and the earth: their being now no place for him to put down his foot for the third time, Bali magnanimously told him to put it on his head, which the dwarf having done crushed him down to Patala, the dominion of which was conceded to the ambitious monarch.

Pitru Paksh.—*Vide between 15th and 30th September.*—The dark half of the month *Bhadrapad*, and sacred to the Pitrus, or progenitors of mankind, to whose heaven the souls of the deceased ascend after the celebration of funeral rites, which are considered particularly proper during this season.

Dassera.—*Vide 10th October.*—This festival, called Durga Puja or *Durgaochchhava*, is supposed to relate to the autumnal equinox. On

this day, in commemoration of the victory of *Devi* the wife of *Shiva*, over the monster *Mahíshashúr*, her images, after having been worshipped for nine days, are thrown into the water. On this day also *Rama* marched against *Ravána*, on which account the Mahrattás seem to have selected it as a proper period for commencing their plundering excursions. Early in the morning the Hindus, having washed themselves perform the *púja* of their household gods in conjunction with that of all their *shastrical granths* or religious books. Mahrattas and Kshetris, or those who consider themselves of the military race, worship the implements of war, and ask protection of them throughout the year, under a conception that to the propitiousness of the sword they owe every prosperity. At noon they take dinner, in company with their relatives. In the afternoon they go to the temples in procession, with friends, relatives, and children. Mamadeví and Bhúléswar are the principal scenes. Both of these places are thronged by Hindus, bearing each in his hand flowers and a branch of a certain tree *(Apta)* denominated *sona* (gold), which is held highly sacred and indispensable in commemorating this day. On entering the temple they offer the *sona* and flowers to the image, accompanied with a prayer; they also give *dakshina* to the Brahmans, and return home, visit their friends and relatives, present them with a leaf or two of this imaginary gold, concluding with an embrace, and receive similar treatment in return. The vicinity or front of the temples are surrounded by the vendors of *sona*, who range themselves with baskets full of branches in bundles. At night an illumination is made. This day is considered by the Hindus most auspicious for sending their childern to school. The preceding days of the Dasséra are called *naoratri*, a compound word for nine nights. During these previous nine days, the devotees of Durga engage a Brahman to read hymns before her, in which her exploits are extolled and her rewards to her votaries described. On the ninth day, at every temple of Durga, *Havan*, or sacred fire, is created, and fed with rice and clarified butter, and adored by repeating the mantras. It is customary among the Bania women to keep up a dance during these nine nights, called *Garba*, which is accompanied with religious songs. The celebration of the Dasséra owes its origin to the *Páṇḍavas*; the five sons of Pandú having selected this day, after completing their exile of twelve years, as an auspicious one for making preparations for the tremendous war with their paternal cousins the *Kouravas*, of which the Puranas give an account, occupying the whole volume. The Hindus decorate their horses with flowers this day, putting garlands of flowers round their necks. It is said that *Parth*, the most invincible of the five Pandavas, who had a peculiar fondness for horses and pre-eminent skill in the art of chariot-fighting, and from horses being great auxiliaries in the matters of battle, washed his favourite milk-white steeds, put garlands of flowers around their necks, and tapped them with his own hand, in token of fondness and approbation: owing to this legend it seems the decorating of horses with flowers on this day is observed.

Divali (from *Dipavali*, Sanscrit, signifying a row of lamps)—is celebrated in honour of the goddess Kali, or Bhawaní, who was formerly propitiated by human sacrifices, and of Vishnu's victory over the demon Tarakí.—*Vide 28th October.* The festival, however, seems to be more peculiarly consecrated to Lakshmí, or the goddess of prosperity. The thirteenth day (Ashwin vad) is termed *Dhanatrayodashí*, and Shaukars now count their stores and perform Púja to their wealth.

The Divali means the feast of illumination, or ranges of light. It is celebrated for a period of five days, during which houses are cleaned, whitewashed, and illuminated; a quadrangular floor is made in the front of the house, and painted with different coloured powders, it is called *Rangúli*. Playing with dice is the chief recreation of the feast. The Divali commences from the 28th day of *Ashrin vad*,—this day is denominated *Dhanatrayodashí*. On it they collect all the treasure in their houses and worship it, giving it the name of *Lakshmí*, the goddess of wealth; a light is made and dedicated to *Yama*, the god of the infernal regions, and every preparation is made for the succeeding morning. Fireworks, crackers, spouters, &c., are displayed. The 29th is *Narsinhachatúrdashí*. On it Vishnu killed Narkashúr, the giant, and entered his city early in the morning, when the people illuminated the city and received him with great joy and aeclamation; and the women having adorned themselves, went before him with lighted lamps. The Hindus keep this day to commemorate this great conquest. They get up early in the morning, fill the house with lights, rub their bodies with perfumed ointment, and bathe themselves with hot water. No member of the family is left unbathed: new clothes and ornaments are put on, and the children are decorated. When this is done, the mistress of the house performs a sort of ceremony called *Arti*—by placing wicks either in silver or brass dishes, symbolical of the removal of all their difficulties and of a happy year—when each male member makes her a present of money; sweetmeats are distributed, and friends are invited to dinner. The 30th, *Amávasha*, the last day of the moon, is the day of *Sarasvati*, the goddess of learning and wealth. It is known by the name of *Pedhipújan*, or the worship of the shops. This day the year of Vikram Samvat closes; all the merchants close their accounts this evening. New journals, ledgers, and day-books are brought and worshipped through a Brahman priest; new entries are made in the account books; clerks are sent to different shops with rupees to credit in their names, on this auspicious evening. *Sarasvati* is invoked to render the subsequent year prosperous, and to be with them throughout it; then the Brahmans are sufficiently paid for their labours, and the servants receive a present of money, according to their rank; this day is celebrated by all classes of people—Banias, Parsis, Muhammadans, &c. This first day of *Kartik Shúdh* is Baliraj, the day of king Balí. On it Balí was sent to *Patala* or the lower region by Vishnu, for his great merit. They rise up very early in the morning, prepare the lights, clean the houses, wash their bodies, and fill a basket with all the rags and rubbish in the house, put a lighted lamp over it, and throw it outside of the house, repeating these words—"Let all misery and troubles go, and the kingdom of Balí come." After ablution, the women make an image of Balí Rajah and worship it; presents are given to the Brahmans and other mendicants. The 2nd day of Kartik Shúdh is *Yama Dwitiya*, which is commonly known by the name of *Bhaibij*. This day it is said Yama, the king of the infernal regions, went to his sister to dine, and to perpetuate the memory of this, the Hindus must go to their sisters' houses and take their meal with them, and make them a present of money or gold ornaments, and thus please the king, who will save them from the punishment of their sins.

KARTIK EKADASHI.—*Vide 9th November.*—Is the eleventh day (in some years the twelfth) of the light half of the month Kartik, and is celebrated in honour of Vishnu. On this day the god is supposed to

rise from his slumber of four months—a fable which has reference to the sun at the winter solstice.

KARTIK PURNIMA—is the full moon of the month Kartik.—*Vide 13th November.* On the fifteenth of this month, as well as of Magh, Ashád and Vaishákh, which days are called "*Donú-masya Kuru,*" gifts to Brahmans are considered indispensably necessary. Shiva is said to have gained his victory at this season over the monster "*Tripúrashúra.*" Kartik Shúdh Purnima,—the full moon in the month of *Kartik*, is hence called *Tri Púra Shúra*, master of the three cities. This demon is said to have become so powerful that he defeated almost all the gods, and drove them out of their habitations, when they went to *Kylas*, the abode of *Shiva*, and represented to him their grievances. Shiva assured them that the evil would be soon removed, and sent them back to their homes. He made a car of the earth, the wheels of which were the sun and the moon; *Brahma* was chosen his Charioteer, the mountain Himalaya formed his bow, and *Wasákey*, the king serpent, his bowstring; Vishnu himself became his quiver. Thus equipped, *Shiva* rode and after a struggle destroyed the mighty giant. To perpetuate the memory of this event, the women of the Hindus get up in the morning about two o'clock, and wash themselves in cold water, repair to the temples of *Shiva*, and worship his image. Afterwards they return home, and present a Brahman with a lighted lamp, made either of silver, copper, or brass, according to their ability, along with some fruits and *dakshina*,—a present in hard cash; this is called *Dipdan*, or present of a lamp. In the evening an illumination is made in the temples of *Shiva*, and a pillar of stones is built in front of all of them for this special occasion. A fair is also celebrated in honour of *Walkeshwar*, an image of *Shiva* at Malabar Hill. It is kept for three days. The Hindus, both the rich and poor, Brahmans and Shúdras, go there and worship the image of *Shiva*, and buy sweetmeats and toys for their children. Some of the wealthy Hindus remain there with their families for three or four days in the *Dharmshála*, or inns built by them, but the poor return the same evening. During these days hundreds of rupees are uselessly spent in hiring conveyances, and purchasing sweetmeats and toys.

BIRTH CEREMONIES.

Different ceremonies are prescribed by the Shastras to be observed at the period of conception, and in the different stages of pregnancy. "*Jatkarm*" is to be performed at the birth of the infant, and consists in giving it a drop of honey out of a golden spoon, before dividing the naval-string. Other rites are to be observed on naming the child twelve days after birth—on bringing him outside the house when three months old—on feeding him with the hand at six months—and, if a male on shaving his head at the age of three years.

MARRIAGE CEREMONIES.

Among the Brahmans the male may be married at any time after the "*Munj*" or investiture with the sacred thread, which is done within the age of eight years, and among other castes at any age. The female should not be ten years old, and her age must be less than that of her husband; and she should be married before the appearance of the signs of puberty. The Shastras mention eight kinds of marriage, but only one is observed by the higher castes, named *Brahma*,

when the charges are severally incurred by the fathers of the parties. The principal marriage ceremonies among Brahmins are the "*Lagna-patrika*," or writing by the Jotishyi or Astrologer of the names of the parties, and the day and hour at which the wedding is to take place; the "*Saptapadi*," or walking round a fire three times, at each time seven steps, and tying together the garments of the parties; and the "*hom*" or burnt offering; after which the contract is indissoluble. The girl is given away by her father in his own house, in which it is usual for her to remain till the appearance of the signs of puberty, after which she proceeds to the residence of her father-in-law, where her husband also resides, or to that of the latter, should it be otherwise. Particular months and junctions of the planets are prescribed for the celebration of marriages in different castes; as also the same castes in different provinces have their peculiar ceremonies. "*Phallasambandh*" is the performance of certain ceremonies on the occurrence of the first menstruous symptoms.

DEATH CEREMONIES.

On the death of a man, the performance of his funeral obsequies (*Kriya*) and of the monthly and annual purificatory ceremonies, devolves on his heir. The principal times for performing "*Sradh*" are eleven days after death; secondly, every month; and thirdly, on the anniversary of death. Brahmans are unclean for only ten days after the death of a relation,—the military class for twelve,—the mercantile for fifteen,—but Shudras for thirty. Among the Hindus, generally, the body of the deceased is burnt, but that of an infant under two years of age is buried. The "Sradh" consists in the offering of rice, flowers, water, &c. to the manes of the deceased, in order to enable his soul to ascend to the heaven of the Pitars, or great progenitors of the humane race.

MUHAMMADAN.

RAMADHAN.—*Vide February 9th to March 9th.*—This Muhammadan fast commences each day throughout the month of this name, from the time when the first streak of light borders the eastern horizon, and until the stars are clearly discerned in the heavens. During the whole of this period not the slightest particle of food, not a drop of water, nor other liquid should pass the lips. Each day during the fast is passed in occasional prayer, besides the usual namaz, and in reading the Qôran or the lives of the prophets. The fast is first broken by a cooling draught called *Dandhi*, the same which is used in fevers. It is composed of the seeds of lettuce, cucumber, and melon, with coriander well pounded, and afterwards diluted with cold water; rose water, sugar, syrup of pomegranate, and kurat, are also added; the preparation is made in the zenana, and then drunk in basins-full by all true *Rozedhars*. Plain boiled rice, with dhi (sour curd) and sugar, forms the first morning's repast of the Eed; dried dates are eaten with it in remembrance of the prophet's family, whose greatest luxury was supposed to be the dates of Arabia. The conclusion of the month Ramadhan is celebrated as an *Eed* or festival, and is hailed with great rejoicing and merriment, as a sort of reward for their severe abstinence. In every house the same dainties are provided, every amusement that can be thought of is indulged in; on

the last day of the Ramadhan, when the matron of the mansion sits in state to receive nazars from inferiors, and to grant favors to others, the nách women in the apartments of the gentlemen, and the domni in those of the women are in great request.

EED.—The followers of Muhammad claim to be the descendants of Abraham through his son Ishmael, who, they aver, was chosen as the offering to the Almighty, and not Issac,—grounding their assertion on traditions which they deem conclusive evidence on the subject. The offering thus made is annually commemorated by the sacrifice of animals, such as camels, sheep, goats, kids, or lambs, according to each person's means, which answer the double purpose of honouring the memory of Abraham and Ishmael, and also assisting as a meal. The followers of Muhammad believe that the entrance to Paradise is guarded by a bridge as narrow as a *scythe*, affording a precarious and unstable footing. To enable them, therefore, to pass without danger, they believe that the animals they have sacrificed at the feast of Eed will be present to lend their aid to help them over in safety.

EED KORBAN.—*Vide 11th May.*—In commemoration of Abraham offering up Ishmael; and this is the day on which they annually perform the Haj at Mecca.

MUHARRAM.—*Vide 6th June.*—A celebrated mourning festival, held annually in remembrance of the first martyrs of the Mussalmans—Hasan and Hoscin—from whom the whole race of Syads have descended. Hasan was poisoned by an emissary of the usurping Kaliph, and Hosein the last victim of the descendants of the prophet's family to the king Yazíd's fury, suffered a cruel death, after the most severe trials on the plain of *Kurbala* on the 10th day of the Arabian month Muharram, the anniversary of which catastrophe is solemnised with the most devoted zeal. Hasan and Hosein were the two sons of Ali, by his cousin Fatima, the daughter of Muhammad; and after the murder of their father by the contrivances of the Kaliph, they with their families removed from *Shawn*, the capital, to Medina. After residing there for several years, the people of *Shawn*, being tired of king Yazíd's tyrannical rule, invited Hosein to return to the capital and assume his lawful right as Imám (leader of the faithful.) Before accepting this invitation, Hosein sent Moslem, his cousin, as a messenger, to report the true state of affairs to him; but on his arrival with his two sons at *Shawn* he was seized by order of king Yazíd, and cast from a precipice, and his two sons were barbarously murdered, for the sake of the reward offered for their heads. This forms the subject of the ten days' bewailing during the Muharram. The Muhammadans are divided into distinct sects, called the Shías and the Súnias. The former regard Ali and his descendants as the lawful leaders after Muhammad, and the latter the Kaliphas, as Abubakr, Omar, &c.,—hence quarrels, animosities, and dislikes are hoarded up to be avenged during the Muharram. The festival begins on the first day of the moon (Muharram). Tazias (a term signifying grief and applied to a representation of the mausoleum erected over the remains of Imám Hosein at Kurbala,) made of ivory, ebony, sandal-wood cedar, and some wrought in silver filigree, and indeed of every variety of material, from pure silver to bamboo and paper, according to the rank and wealth of the party, are exhibited, and conveyed in procession through the streets. Mourning assemblies are held morning and evening, in the Imambaras, during the Muharram, and the head maulvi

or preacher recites a subject for each day's service from the various books descriptive of the life and sufferings of Hasan and Hosein. The Marsíah, a poetical composition of great merit, and embracing the whole of the subject they commemorate, is chaunted; the names of their lawful leaders are recounted with blessings, and that of the usurpers, the Kaliphas with curses. Then comes the procession of Dhal Dhal—Hosein's horse, killed at Kurbala, beautifully caparisoned; and finally the Tazias are deposited with funeral rites in the public burial grounds, when the Muharram ceases. The Tabút is a slight framework of bambu, in the shape of a mausoleum, covered and ornamented with coloured paper and tinsel. They vary in size and appearance, according to the taste and ability of those who build them. Before these incense is burned, and other rites are performed. The Tabúts, it is said, are peculiar to India. They are not mentioned in the Qôran, nor are they built by the inhabitants of Persia and Arabia. Many Muhammadans regard them with strong disapprobation. In Bombay the larger portion of the Muhammadans unite in building Tabúts. These are taken out, and, accompanied with music, carried in procession through the Bhendy Bazar, from midnight of the ninth until three o'clock of the morning of the tenth day, and from two to six o'clock on the afternoon of the same day,—on their way to the beach in Back Bay, where the greater part of the Tabúts, after being stripped of whatever is of value, are cast into the sea. The Indian Muhammadans, who do not unite in building the Tabúts, are accustomed to go on this occasion to the mosques for five successive evenings, to listen to the account of the death of Hosein. Their demonstrations of grief, however, are not equal to those of the Moguls and Persians, who, while listening to the recital, weep aloud, and smite violently upon their breasts. These are accustomed to meet at the Masjid, in Mirza Muhammad Ali Khan Street. Some two or three horsemen, bearing flags, enter the large yard adjourning the Imámbara with loud wailings, and are followed by the two horses caprisoned, to represent those which were for the use of the fallen Hosein. One person on horseback, with a long sword apparently run through the head, and covered with blood, joins in the wailings. A female infant in deep mourning, sitting at the door of a small mausoleum, which is carried on the shoulders of men, constantly casts ashes or cut-straw upon her head, in token of grief. These pass round in a circle, accompanied or followed by a company on foot, who beat upon their breasts, crying, "Hai Hosein! Hai Hosein!" Sometimes, a person represented in a dying state, his body covered with wounds and blood, and darts and daggers run into it, is carried about in procession. This festival is becoming more and more a farce. The grief is doubtless for the most part feigned.

PARSIS.

The festivals of the Parsis, are celebrated with little outward pomp. Their holidays are mostly occupied in prayers in the morning, and festivities and rejoicings during the rest of the day. The Emperor Akbar adopted their "Naoroz," and fourteen other festivals of the Parsis, for the observance of those who were attached to his favourite doctrines of the "Ilahi faith," or the "Religion of God," which he endeavoured to introduce among his people.

PAPETI OR NEW YEAR'S DAY.—This day is celebrated in honour of Yazdijird, the last King of the Sassanid dynasty, who was dethroned by Kalif Omar about A.D. 640. On the Gathas the Parsis rise early, and dress themselves in new suits of clothes, and those piously disposed say their prayers in their private residences, or attend the fire-temples. After prayers the Parsis visit their friends and relations, when the "Hama-i-jur" or "joining of hands" is performed. This ceremony is a sort of greeting, or wishing each other a happy new year. Their friends and relations are invited to breakfast. They spend the rest of the day in their country houses or clubs, where feasting, rejoicing, and nâch-parties are kept up till a late hour. Alms are also given to the poor in the course of the day, and new suits of clothes are presented to servants and dependents.

KHURDAD-SAL.—The second of the Parsi festivals is the "Khurdad-Sal" day, or the supposed anniversary of the birth of Zoroaster, who they say was born in the city of Reh, in the North of Persia, in the reign of Darius Hystaspis about 520 years before Christ. They differ, however, as to the exact time of his birth; some fix the date B.C. 389; others B.C. 638. Religious ceremonies are performed in the morning by the women of the family and priests, the men, as usual on such occasions, limiting themselves to private prayers.

AMARDAD-SAL.—This holiday, which falls on the day immediately after the preceding festival, appears to have no origin in the books of the Parsis. It is merely kept up as the continuation of the "Khurdad-Sal;" no religious ceremonies are required, and the day is always spent in the enjoyment of epicurean pleasures.

FARUHARDIN JASAN.—This day is set apart, for the performance of ceremonies for the dead, "Faruhar" meaning soul or spirit. The superstitious portion of the people attend on the hills at Chaopati where their "dokhmas" or "towers of silence" are situated, and there perform prayers for the dead, as if they had a better chance of being heard at that place on behalf of their deceased relations than in any other. The Parsis are enjoined by their religion to preserve the memory of their dead by annual religious ceremonies performed in the house; but such of their friends as die on long voyages or in unknown places, and the date of whose death cannot be positively ascertained, are honoured by sacred rites on this day. The ceremony "consists" in a man or woman preparing small round pieces of baked bread, called darúns, which are put on a tray or other copper vessel, along with fruits and flowers, over which the priest performs the prayers of the Baj, or "Vaj." Prayers of this sort are performed among the Hindus and the Muhammadans, and are not unknown in the Roman Catholic countries of Europe.

ARDEBEHIST-JASAN.—This festival, as its name implies, is in honour of Ardebehist Amshaspand, the angel controlling the sacred fire, that element being one of the objects of worship.

THE NAOROZ.—The fifth is the Naoroz, called by some the Naoroz-i-Jamshid or the Naoroz-i-Sultan, the king's day. This festival falls about the 21st day of March, and corresponds with the Vernal Equinox, and the Makar Sankranti of the Hindus. This day is observed by the Modern Persians, the Arabs, the Turks, and several other Asiatic nations for the computation of the solar year, and for State purposes, such as the collection of revenue, and the arrangements for the agricultural operations of the year.

In Persia this festival is kept for several days with unusual pomp by all the inhabitants, whether Muhammadans or Parsis. In India it is simply a day of rejoicing.

AVA ARDUI SAR JASAN.—Ava, in the Zend text, is the name of the angel who presides over the sea, and this "Jasan," or festival, is held in his honour. The Parsis are required on this day to approach the sea shore, or any stream of water, and chant the Zend prayers; but owing to their long residence in this country, they have borrowed many Hindu rites in the observance of their holidays, and offerings of sugar, cocoanuts, flowers, &c., to the sea, are not uncommon. In Bombay a fair is held on the Esplanade on the occasion of this festival.

ADAR JASAN.—Adar, another synonyme for fire, is the name by which the ninth month of the Parsi year is called. This is the most sacred of the twelve months, and the ninth day of it is held in great respect. On this day the fire temples are very much crowded, and offerings of sandalwood are made to the sacred flame, and money distributed among the priests.

Besides the above, the festivals of the Parsis are the Meher Jasan, the Bahman Jasan, and a few others of less importance, all of which are partially observed.

The MUKTAD is the name of a ceremony which is performed at the end of the Parsi year. It consists of a pile of brass or silver vessels filled with water, and raised above the ground on iron stools. Flowers and fruits are placed there, and religious ceremonies in honour of the dead are peformed before the Muktads. The Parsi scriptures only require that the last ten days of the year should be spent in deeds of charity, prayers, and freedom from worldly pursuits; this ceremony of the brass and silver vessels, &c., seems borrowed entirely from the Hindus.

JEWISH.

The weekly festival was the Sabbath, a day consecrated to rest and cheerful devotion. It was instituted when God rested on the seventh day from the work of Creation, and the precept was renewed to the Hebrews at Marah, ere yet the Decalogue had been given from Sinai. It was kept from sunset on Friday to sunset on Saturday.

The monthly festival was held on the day of the new moon, or the first day of every month, which was proclaimed by sound of trumpet; the law, however, did not oblige the people to rest on these days though it appointed particular sacrifices.

The PASSOVER was instituted to commemorate the departure out of Egypt, because on the night preceding that departure, the destroying angel who slew the first-born of the Egyptians *passed over* the houses of the Hebrews, they being marked with the blood of the lamb, which for this reason was called the Paschal Lamb. It was celebrated on the 14th day of the first month (Nisan) of the ecclesiastical year, and lasted seven days. A lamb, or, if that could not be found, a kid without blemish, was killed, roasted and eaten with unleavened bread and bitter herbs. The first Passover was eaten with their loins girded, their shoes on their feet, and their staves in their hands, that they might be in readiness for their journey.

The Feast of PENTECOST was celebrated on the fiftieth day after the Passover, and was a feast of thanksgiving to the Lord, wherein they

acknowledged his dominion over their country and their labours, by offering to him two loaves, as the first fruits of all their harvests. It also commemorated the giving of the law from Mount Sinai two years and fifty days after their departure from Egypt. The Hebrews counted seven weeks from the Passover, beginning on the second day of that solemnity and hence called it the Feast of Weeks; but by the Christians it was called Pentecost, a name which signifies the Fiftieth Day.

The Feast of TABERNACLES was instituted as a memorial of their fathers having dwelt in tents for forty years during the passage through the wilderness. It was kept in the first month (Tissi) of the civil year, and lasted eight days, the first and seventh being the most solemn. During its continuance they lived in booths, tents, or arbours, constructed of the branches and leaves of trees. On the first day they cut down branches of trees, with their fruit, which they carried in ceremony to the synagogue. Holding in their right hand a branch of a palm-tree, three branches of myrtle, and two of willow, tied together, and having in their left hand a citron and its fruit, they waved them, and sang songs crying "Hosanna!"

The feast of TRUMPETS was celebrated on the first day of their civil year (September), its commencement being proclaimed by sound of trumpet, and the day was kept solemn, all business being forbidden, and certain sacrifices appointed to be offered.

The feast of DEDICATION was appointed to celebrate the re-establishment of Divine worship in Jerusalem, after Antiochus Epiphanes had been vanquished and the temple purified. It is observed for eight days from the 25th of the third month (December), and is also called the Feast of Lights, from the illuminations which the Jews make during these days in their houses. The feast of Purim falls on the 14th and 15th of the sixth month (Nisan), and commemorates the defeat of Haman. On these days they give alms to the poor and presents to their friends.

The 10th of the first month of the civil year is the day of ATONEMENT, on which they observe a fast from evening to evening and bewail their sins. Other fasts were also instituted in later times, connected with the siege of Jerusalem (10th day of the tenth month,) the capture of the city (17th of the fourth month), the burning of the temple (9th of the fifth month), and the death of Gedaliah (3rd of the seventh month of the Ecclesiastical year.)

Every seventh year was to the Jews a Sabbatical year; and Alexander the Great granted them an exemption from tribute on that year.

After seven weeks or Sabbaths of years, that is, after seven times seven years, the great Festival of the JUBILEE was celebrated. On this fiftieth year every one resumed possession of his inheritance, whether it were sold, mortgaged, or alienated in any way. Houses and edifices in walled towns were the only kind of property that did not return to the original owner in the year of the Jubilee.

TABLE OF COINS, WEIGHTS, AND MEASURES.

I.—BRITISH INDIAN TABLES.

MONEY.

Silver is the legally constituted medium of exchange in all money transactions throughout the British-Indian Possessions. Gold coin was intended to be a legal tender, at a fixed value of 16 rupees for the Gold-mohar of Calcutta, and 15 rupees for the gold rupee of Madras and Bombay; but it is not demandable in payment, and is left to find its current value in the market.

An order in council was promulgated January 1841, authorizing officers in charge of public treasuries freely to receive gold coins struck in conformity with the provisions of Act. XVII of 1835, establishing the 15 Rupee pieces. This continued till December 1852 when the swelling tides of California and Australia began to pour their rich treasures over the globe, when, in apprehension that India would be inundated with gold, the proclamation of 1841 was hastily rescinded, and gold henceforth debarred from entrance into any of the public treasuries.

The entire Bank-note circulation of the three Presidencies was calculated in 1858 at 1½ millions sterling, of which amount the Bank of Bengal had in circulation about one million sterling or one karór of rupees.

			Value Sterling.		
	1	Pie	£ 0	0*s.*	0¼*d.*
3 Pie	= 1	Paisá or ¼ anna	0	0	0¾
12 Pie	= 1	Anna	0	0	1½
16 Annas	= 1	Rupee*	0	2	0
15 Rupees	= 1	Gold Rupee	1	10	0
16 Rupees	= 1	Gold Mohar	1	12	0
100,000 Rupees	= 1	Lákh	10,000	0	0
100 Lákhs	= 1	Karór	1,000,000	0	0

The Rupee weighs 180 grains troy, or 1 tolá, and consists of 11 parts of silver and 1 of alloy. The Gold Rupee is of the same weight and standard. The Copper coinage are the half anna weighing 200 grains; the quarter anna or paisá 100 grains; the half paisá, 50 grains; and the pie 33⅓ grains.

In Bombay, accounts are still occasionally kept in Rupees, quarters and raes, 25 raes making one anna.

In Madras, accounts were formerly kept in Star Pagodas, fanams and cash.

80 Cash	= 1 Fanam or panam.
42 Fanams	= 1 Star Pagoda, Hun, or Varáha.

The pagoda was of gold 19½ carats fine, and intrinsically worth 7*s.* 5½*d.*

---

* The value of a Rupee is generally assumed as equal to 2*s.* sterling. At the Calcutta Mint price of silver it is worth 2*s.* 0·035*d.*; at the Commercial par of Exchange 1*s.* 11·51*d.*; and at the London Mint price of silver it is worth 1*s.* 11·04*d.*

WEIGHTS AND MEASURES.

The British-Indian weights established by Regulation VII. of 1833, and now for upwards of a quarter of a century in use in Bengal, were founded on the tolá of 180 grains as a unit.

1.—Bazar Weight.

4 Síkí, or quarters.	= 1 Tolá	$6\frac{102}{175}$ drs.	Av.	180 grs.	Troy.
5 Tola	= 1 Chhatánk ...	$2\frac{2}{35}$ oz.	,,	$1\frac{7}{8}$ oz.	,,
4 Chhatánk	= 1 Pauwá	$8\frac{8}{35}$ oz.	,,	$7\frac{1}{2}$ oz.	,,
4 Pauwá	= 1 Sér or Seer ...	$2\frac{2}{35}$ lb.	,,	$2\frac{1}{2}$ lb.	,,
5 Sérs	= 1 Passéri	$10\frac{2}{7}$ lb.	,,	$12\frac{1}{2}$ lb.	,,
8 Passéri, or 40 Sérs	= 1 Maṇ or maund	$82\frac{2}{7}$ lb.	,,	100 lb.	,,

The standard sér weighs 80 tolás or rupees.

The tolá weighs 11·6638 French grammes; the máṇ, 37·3242 kilogrammes; and the gramme weighs 0·08573526 tolá.

Also 35 sérs are equal to 72 lbs. avoirdupois; and 49 máns are equal to 36 cwt.

The *Factory weight*, adopted by the Bengal Government in 1787, was subdivided as in *Bázár Weight*, only lighter; 49 of any denomination of Bázár weight being equal to 54 of the same denomination of Factory weight; and $1\frac{1}{2}$ Factory máns being equal to 1 cwt. or 1 Factory mán equal to $74\frac{2}{3}$ lbs. or $\frac{2}{3}$ cwt. Hence 1 Factory mán =0·9074074 Bázár mán. It is now disused.

In Bombay the following Local Weights are still used :—

4 Dhan, or yav	= 1 Raktica or gúnj	2·1267 gr. tr.		·01182	tolá.
8 Raktica	= 1 Masha	8·5069	,, ,,	·09452	,,

20 Máns	= 1 Khandi.....	560 lb.	,,	6·8056	Imp.mán

The Khandi for Cotton is 28 máns oz. 784 lbs. avoir. or 7 cwt.

The "pakka sér" is $1\frac{1}{3}$ lbs. avoir. or. 72·59 tolas. At Panwell, the sér weighs 72·83 tolas.

The British Indian or Imperial sér and mán are 2·9387755 Bombay máns and sérs respectively; and the Bombay máṇ is 0·3402778 Imp. máns.

The Bombay sér weighs 317·51485 grammes, and the mán 12·700594 kilogrammes.

At Puna.

The sér is 80 Ankushi rupees or 76·66 standard tolas, or 1·9714 lbs. avoir. or 2·33604 lbs. troy = ·9583 Br. Ind. sérs.

$4\frac{1}{2}$ Tanks	= 1 Chhatank.	1·971 oz. av.		4·791	tolas.

A Dhan is 0·46875 gr. troy or 0·0303745 French grammes. *Mashas, rati, dhans* are employed in the native evaluation of assay of the precious metals: thus "10 mashas fine," signifies 10-12ths pure, or the same as "10 oz. touch."

3.—MEASURES OF LENGTH.

The gaz, or unit of lineal measure, not only differs in different provinces of India, but also in the same province for different purposes. The English yard, however, is rapidly becoming the only standard unit, especially where English education has obtained a firm footing.

3 Jau	= 1 Anglí.....	¾	in.	19·05millim.
4 Anglí	= 1 Mutthí	3	,,	76·2 ,,
12 Anglí	= 1 Big'hath	9	,,	228·6 ,,
2 Big'hath or 24 Ang.	= 1 Háth or Cubit	18	,,	457·19 ,,

4 Háth	= 1 Danda	2	yds.	1·8287 met.
2000 Danda	= 1 Kos or Kros...	4000	yds.	3657·5 ,,
4 Kros	= 1 Yojan	9 1/11	ms.	146·30 ,,

In Bombay the half háth is called Vént; and the measuring rod or Kathi for land, according to Jervis, is 9·4 feet. In Gujarat 5 háth make 1 Vasô or Kathi. In Western India almost every village has its own Kathi.

The Kos of the Ayin-Akbarí was about 2·58 miles or 4540 yards or 4151 metres.

The Bengal kos contains only 1,000 danda or dhanú. In Surveying, 80 Háth = 1 Rassí.

In the N. W. P.,—Delhíe, Lúdhianah, Ferozpur, and part of Berar, 33 inches = 1 Iláhí gaz, 3 Il. gaz = 1 Bans or ganteh, and 20 bans = 1 Jaríb. In Benares and Ghazípur, the gaz used by Mr. Duncan in the settlement of 1795 was 33·6 inches. The true Ilahí gaz probably measured 32·6 to 32·8 inches; in Bareilly, Bulanshahr, Agra, &c., it it is reckoned at 32·5 inches. In Orissa the padika or rod is 10·4355 feet; in Tirhút the lagí is 9¾ feet; and in Jynteah the dastidari háth is 18·87 inches, and 16 haths make 1 null.

In Bombay—for Cloth.

2 Angalí	= 1 Tasú.....	1½	inch.
24 Tasú	= 1 Gaz	27	,,

In Púna, the Gaz is 34½ inch, but English cloth is sold by the yard.

4.—MEASURES OF SURFACE.

In Bengal the following are used:—

2 Square Haths ...	= 1 Gandeh.....	2¼	sq. ft.
20 Gandeh	= 1 Chhatáuk.....	5	sq. yds.
16 Chhatánk	= 1 Katthá	80	,, ,,
20 Katthá...	= 1 Bighá	1600	,, ,,

The Bengal bighá is $\frac{4}{1\,2\,1}$ or 0·3305785 of an acre.

The Benares and Ghazipur bighá contains 3,600 square Benares gaz or 3,136 squre yards, or ·647934 acre.

In Bombay, Púna, &c.

$34\frac{1}{3\,5}$	Square Haths	= 1	Káthí.
20	Káthiyó	= 1	Pand or Vasó.
20	Pand	= 1	Bíghá.
6	Bíghá	= 1	Rúkeh.
120	Bíghá	= 1	Chahúr.

If the Bombay Káthí of $5\frac{1}{8}$ háths be exactly 9·4 feet, as stated by Jervis, this Bighá will contain $3926\frac{2}{3}$ square yards = 0·811387 acre; but in other places it varies with the Káthí, which is the only real measure ever used in the central and southern parts of the Bombay Presidency. In some places the survey chain of 33 feet has taken its place, and—

16 Anas or links = 1 Gunta or chain.
40 Guntas = 1 Acre.

In Gujarat.

20	Khunt	= 1	Padtal.
20	Padtal	= 1	Padat.
20	Padat	= 1	Vishwásí.
20	Vishwásí	= 1	Vásó.
20	Vasa	= 1	Vingho, Bíghá or Dórí.

In the N. W. Provinces,—Delhie, Patna, Shahabad, Sarun, Bhagalpur, and Monghyr, the bíghá of 3600 square Iláhí gaz = 3025 sq. yards, or 0·625 acre prevails, and is divided as follows:—

20	Uswansi or Nanwansi	= 1	Saswansi	24·5025	sq. in.
20	Saswansi or Tanwansi	= 1	Kachwansi	3·40312	sq. ft.
20	Kachwansi	= 1	Biswansi	7·56125	sq. yds.
20	Biswansi	= 1	Biswá	151¼	,, ,,
20	Biswá	= 1	Bíghá	·3025	,, ,,

1 Acre = 1·6 Delhe bíghá.
The Orissa bighá is 1 acre = 4840 sq. yds.
The Tirhút bíghá, is 400 sq. lagí = 4225 ,, ,, = ·872934 acre.

5.—Liquid and Dry Measures.

India, properly speaking, does not possess dry or liquid measures. Where these are employed they represent the sér or the mán weight. The value of any vessel of capacity rests solely on the weight contained in it. In S. and W. India an equal mixture of the principal grains is taken and a vessel formed to hold a given weight of it.

In Bengal, the following is used for grain;—the conversion into English measures being derived from the capacity of a vessel holding a mán of water or $1\frac{1}{3\,5}$ bushels.

5	Chhatánks	= 1	Kúnkí	11·407	c. in.	0·5143 pts.
16	Chhatánks	= 1	Sér	57·037	,,	1·6457 ,,
4	Kúnkí	= 1	Rék	71·3	,,	2·0571 ,,
4	Rék or 5 Sér	= 1	Pálí, or drón	285·186	,,	8·2286 ,,
8	Pálí	= 1	Mán	2281·49	,,	8·2286 gal.
20	Pálí	= 1	Shalí	5703·72	,,	20·5714 ,,

It may be remarked that the mán of 8⅔ gallons very nearly, would form a very convenient dry measure, it would be very little larger than the English bushel and ought to be a cylinder 8 inches deep and 19·055 inches diameter, or 8½ inches deep and 18·487 inches diameter.

At Bombay.

36	Tanks	= 1	Tiprí	9·7046	c. in.	5⅔ oz. av.

5	Kasas	= 1	Mundí	93·942	,,
12	Mundías or 60 Kasis	= 1	Khirwar	1127·304	,,

The values of these measures vary at different places; the Toya at Nagar is 528 tolas, at Mitthí 518, at Islamkot 464, on the frontier about 344, and at Shikarpur 295 tolas weight of water.

At Madras.

The *Garce* for Grain is 12¾ máns or 320 lbs. avoir. = 3⅔ Brit. Ind. màns.

6.—Measures of Time.

The Hindús reckon by a lunar year for religious, and by a sidereal year for civil purposes. The year begins when the sun enters the first *constellation* of the Hindú Zodiac, which at present happens about the 12th of April,—in Maláyala, or from Mangalur to Cape Comorin, however, the year commences when the sun enters Kanya (Virgo), answering to the month Aswin, which generally happens about the 15th September.

	days.	hours.	minutes.	seconds.
The exact length of the sidereal year is	365	6	9	10·38
By the Surya Siddhanta it is	365	6	12	36·56
By the Arya Siddhanta ,, ,,	365	6	12	30
By the Brahma Siddhanta ,, ,,	365	6	12	9
By the Parasara Siddhanta ,, ,,	365	6	12	31·4

And since the Gregorian year has an average length of 365*d.* 5*h.* 49*m.* 12*s.*, the commencement of the Hindú year will fall a day later every 62 or 63 years.

The Hindú month is the time the sun takes to pass through one-twelfth of the Zodiac, and consequently varies in length from 29*d.* 8*h.* 21*m.*, when the earth is in perihelion, to 31*d.* 14*h.* 39*m.*, when it is in aphelion. The *Civil* differs from the *astronomical* account only in rejecting fractions of a day; each civil year and month being accounted to begin at Sunrise instead of the exact time of the Sun's entering into the respective signs; and if the fraction exceed 30 gharís or ½ day, the civil day or month is accounted to begin one day later than the astronomical.

	The Hindú Year.	= 1·000042	Gregorian year.	
	The Gregorian Year	= 1·999958	Hindú year.	

The Muhammedans reckon by a lunar year, consisting of months of 30 and 29 days alternately and intercalate a day eleven times in 30 years.

The lunar year is 354d. 8h. 48.57m.; and a year of the Hajira is 354d. 8h. 48m.

Hence a year of the Hajira = 0.970223 Gregorian year.

And a Gregorian year = 1.03069 of the Hajira.

We may find the Christian date from that of the Hajira by deducting 3 per cent. from the latter and then adding 621.54, for the date A.D. of the end of the Mussulman year; or, more correctly, by multiplying the Hajira date by $\frac{33}{32}$ and adding 621.54—thus $1278 \times \frac{33}{32} \div 621.54 = 1240.04 \div 621.54 = 1861{\cdot}58$, which shews that the year A.H. 1278 ended about the middle of 1862.

The standard pound kept in London is a cylinder of platinum 1·35 inches in height and 1·15 in diameter very nearly.

ANGULAR MEASURE.

Most nations divide the circle into 360 degrees, the Chinese, however, divide it into 365¼ and the French, since 1792, into 400. The common method is termed the *sexagesimal*, and the French method the *centesimal* system.

60 Seconds (″)	=	1 minute (′)
60 Minutes.....	=	1 Degree (°)
30 Degrees.....	=	1 Sign (*s*)
90 Degrees	=	1 Quadrant.
60 Geographical Miles or 69·045 Statute miles nearly	=	1° of the Terrestrial Meridian

The circumference of a circle is about 3½ or 3·1416 times (very nearly) the diameter; and the diameter is $\frac{7}{22}$ or 0·31831 of the circumference.

European Time Table.

60	Seconds	= 1	Minute	2½ pal.
60	Minutes	= 1	Hour	2½ gharí.
24	Hours	= 1	Day	1 dín.
7	Days	= 1	Week.	
4	Weeks	= 1	Lunar month.	
365	Days, or 52 Weeks 1 day, or 12 calendar months	= 1	Common year.	
366	Days	= 1	Leap year.	
365¼	Days	= 1	Julian year.	
365d. 5 hr. 48 m. 49$\frac{7}{10}$ sec.		= 1	Solar or Tropical year.	

Every year of the *Christian era* of which the date is divisible by 4, without a remainder is a *Leap year*, except those *centuries* which are not divisable by 4. Thus 1752 and 1856 were Leap years, because the numbers 1752 and 1856, are divisible by 4 without remainder, but the years 1800, 1900, are not Leap years, because the centuries 18 and 19 are not so divisible, without remainder, In 400 years there are 97 Leap years. The Calendar is called the *Gregorian*, from Pope Gregory XIII. who introduced it in 1582. It is used by all the nations of Europe except Russia. The *Gregorian* year is 365d. 5 hrs. 49 m. 12 sec.

With the exception of July and August both of which have 31 days, the months are alternately *long* and *short*. In Bissextile or Leap years February has 29 days, in common years only 28 days.

The Months are—

1	January	31 days.	7	July	31 days.
2	February	28 or 29 ,,	8	August	31 ,,
3	March	31 ,,	9	September	30 ,,
4	April	30 ,,	10	October	31 ,,
5	May	31 ,,	11	November	30 ,,
6	June	30 ,,	12	December	31 ,,

The days in each month may be remembered from the lines :—

Thirty days are in September,
April, June, and dull November ;
All the rest have thirty-one,
Saving February alone,
Which hath twenty-eight days clear,
And twenty-nine in each Leap year.

[24*th November* 1862.

WHEREAS, by certain Regulations prepared and adopted by certain members of the Subordinate Medical Department, a Society was established at Berozepore, in 1852, for raising a Fund called "The Subordinate Medical Officers', Widows', and Orphans' Fund," the interest, dividends, and proceeds of which Fund were directed to be applied in making provision at certain specified rates for the widows and children of the subscribers, and it was directed that such provision should be made solely out of the interest and dividends of the said Fund; and whereas a petition has been presented to His Excellency the Governor General in Council by certain subscribers and members of the said Society, stating that no subscriptions have been contributed to the said Fund since the year 1857, and that in consequence thereof, and of the deaths of several of the subscribers to the said Fund, no steps have been or can be taken to make the provision intended by the Regulations of the said Fund, and that no pensions whatever have, since the year 1857, been paid to any of the persons entitled to the benefits of the said Fund, and that, therefore, the expectations of the founders of the Fund have been disappointed, and the objects for which such Fund was established have failed: and praying that an Act may be passed to wind up the affairs of the said Fund; and whereas no provision is made in the Regulations of such Fund for the dissolution thereof, or the distribution of the funds belonging thereto, and it is expedient to make provision for the same by law; It is enacted as follows:—

I. *On petition the High Court may order the winding-up of the Fund.*—On the petition to the High Court of Judicature at Fort William in Bengal, of a majority of the subscribers of the said Subordinate Medical Officers', Widows', and Orphans' Fund, or of any ten subscribers of the Society and pensioners on the said Fund praying for the dissolution of the said Society and the winding-up of the affairs of the said Fund, it shall be lawful for the said Court to make order for the same on the said petition, as fully as if the Regulations of the said Fund provided for the winding-up of the said Fund; and it shall be lawful for the said Court to make order for ascertaining and declaring the rights which attach on the said Fund, and for taking the accounts of the said Fund, and for the apportionment, division, and distribution of the said Fund; and for the ascertainment of the nature and numbers of the different claims on the said Fund, and of the persons having or entitled to make the said claims; and for the payment of the proper costs of the subscribers of the said Society, and of all parties conduct-

ing or otherwise concerned in the matter of the said petition and subsequent proceedings for winding-up the said Fund.

II. *Accountant or Actuary may be employed.*—It shall be lawful for the said Court, in such way as they may think fit, to obtain the assistance of an Accountant or Actuary the better to enable the Court to determine any matter relating to the division and distribution of the Fund, and to act upon the certificate of such person.

III. *Pensions may be commuted.*—In cases of pensioners or persons entitled to become pensioners who shall consent to commute their pensions, it shall be lawful for the said Court to order that the amounts to be paid in commutation shall be settled, invested, or paid in such manner as will give the several persons therein interested the full benefit thereof.

IV. *Money may be invested, or other arrangement made to pay pensions.*—In the case of pensioners or persons entitled to become pensioners, who shall refuse to commute their pensions, it shall be lawful for the said Court to order a sufficient sum to be set apart out of the said Fund to provide for the due payment of such pensions. The said Court may also sanction and give effect to any arrangement which it may deem just and sufficient for the future payment of any commuted sum or uncommuted pensions, by any Life Insurance Company willing to undertake the payment of such pensions.

V. *Case of minors entitled to pensions.*—Guardians of minors, pensioners, and of minors, if any, entitled to become pensioners on the said Fund, shall have full power and authority to consent on their behalf to commute the pensions of the minors for a fixed sum; and the said Court shall have full power and authority to give effect to such consent, and to make such order as the said Court may deem just for the application of the said commuted sum for the future benefit of the infant; and if there be no guardian, the mother, during her widowhood, may act as guardian, unless the said Court shall otherwise order, and, if necessary, the said Court may appoint a guardian for any minor.

VI. *Every part of the Fund may be applied.*—In dividing and distributing the said Fund, every part thereof which shall not be awarded by the said Court to members or representatives of deceased members, may, if the said Court shall think fit, be applied for the benefit of pensioners or persons entitled to become pensioners, whether they shall consent to commute their interests or not.

VII. *Dividend may be made in anticipation.*—With a view to expedite the distribution of the surplus of the said Fund over and above what may probably be necessary to provide for the pensions, the said Court shall have full power and authority at any time to order payment of a dividend of the said probable surplus to the persons entitled to the same, although the exact surplus and the exact amount of charges may not then be ascertained.

VIII. *Mode of bringing in claimants.*—For the purpose of winding-up the said Fund, and finally closing the accounts thereof, the like proceedings shall be had for the bringing in of claimants on the said Fund, as in ordinary administration suits for bringing in creditors and other persons; and claimants being pensioners or entitled to be pensioners, who may neglect to come in, in a due course, or within the time limited for that purpose, shall be deemed to have consented to commute their pensions, and a final distribution may be made of the said Fund.

XIX. *Local Government may in certain cases authorize exemption from payment of Duty.*—It shall be lawful for the local Government to authorize the Chief Customs Authority of any Presidency or place to exempt by special order, from the payment of Duty, under stated circumstances of an exceptional nature, any goods on which Duties of Customs are directed to be levied by any law for the time being in force.

XX. *Baggage in actual use.*—It shall be lawful for the Officer in charge of a Custom House to pass free of Duty, at his discretion, any baggage in actual use; and for this purpose to determine, subject to such general rules as may from time to time be made under Section IV. of this Act, whether any goods shall be treated as baggage in actual use, or as goods subject to Duty.

GENERAL PROVISIONS.

XXI. *Prohibitions and restrictions.*—The importation into or exportation from British India of the goods enumerated in the following Clauses is prohibited:

1. Any book printed in infringement of any law in force in British India on the subject of copyright, when the proprietor of such copyright, or his agent, shall have given to the Chief Customs Authority of the Presidency or place a notice in writing that such copyright subsists, and a statement of the date on which it will expire.

2. False or counterfeit coin, or coin which purports to be Queen's coin of India, but is not of the established standard in weight or fineness.

3. Any obscene book, pamphlet, paper, drawing, painting, representation, figure, or article.

XXII. *Importation of Arms and Ammunition prohibited without License.—Proviso.*—The importation into British India of Arms or Ammunition, except under a license from the Governor General of India in Council, or from some Officer authorised in that behalf by the Governor General of India in Council, is prohibited. Nothing in this Section shall apply to fowling pieces and sporting powder *bonâ fide* imported by any person in reasonable quantities for his own private use.

XXIII. *Governor General may prohibit or restrict importation or exportation of Goods.*—It shall be lawful for the Governor General of India in Council from time to time, by notice in the Official *Gazette*, to prohibit or restrict the importation or exportation of any particular class of goods.

XXIV. *Goods imported or exported contrary to prohibition liable to confiscation.*—If any goods, the importation or exportation of which is prohibited or restricted, or shall hereafter be prohibited or restricted, be imported into or exported from British India contrary to such prohibition or restriction; or if any attempt be made so to import or export any such goods; or if any such goods be found in any package produced to any Officer of Customs as containing no such goods; or if any such goods or any goods subject to a Duty or restriction, in respect of importation or exportation, be found either before or after landing or shipment to have been concealed in any manner on board of any vessel within the limits of any Port in British India; or if any goods, the exportation of which is or shall be prohibited or restricted, be brought to any wharf in order to be put on board of any Vessel for exportation contrary to such prohibition or restriction,—such goods together with any goods which shall be found packed with or used in concealing them shall be liable to confiscation; and any person concerned in any such offence, shall be liable to a penalty not exceeding three times the value of the goods, or not exceeding one thousand Rupees.

XXV. *Importation, exportation, and warehousing.*—It shall be lawful to import into, or to export from, British India any goods, the importation or exportation of which is not prohibited or restricted by any law or notice of the Governor General of India in Council, for the time being in force; and any dutiable goods, the importation and warehousing of which is not prohibited or restricted by any such law or notice, may, under the rules for the warehousing of goods in force at the Port of importation, be warehoused without payment of Duty on the first entry thereof.

XXVI. *Owner, &c. to declare real value of goods in bill of entry or clearance, and, if necessary, to produce invoice, &c.*—On the importation into, or exportation from, any Port in British India of any goods not liable to Duty or liable to fix Duties according to weight or quantity only, or to Duties on fixed Tariff valuations, the owner, consignee, importer, exporter, or agent of such goods shall, in his bill of entry or shipping bill, truly declare their real value to the best of his knowledge and belief. In case of doubt, it shall be lawful for the Officer in charge of the Custom House to require any such person or any other person who shall be in possession of any invoice, broker's note, policy of insurance, or other document, whereby the value of any such goods can be ascertained, to produce the same, and to

furnish any information relating to the value of such goods which it shall be in his power to furnish. And it shall thereupon be the duty of such person to produce any such document or to furnish any such information so required by such Officer.

XXVII. *Undervalued Goods how to be dealt with.*—If, upon the examination of any goods entered for Duty, and chargeable with duty upon the value thereof, but for which a specific value has not been fixed by the local Government, with the sanction of the Governor General of India in Council, it shall appear to an Officer of Customs that such goods are properly chargeable with a higher rate or amount of Duty than that to which they would be subject according to the value thereof as stated in the bill of entry or shipping bill, it shall be lawful for such Officer to detain such goods. In every such case the detaining Officer shall forthwith give notice in writing to the person entering the goods of their detention and of the value thereof, as estimated by him; and the Officer in charge of the Custom House shall within two clear working days after such detention, or within such reasonable period as may, with the consent of the parties be arranged, determine either to deliver such goods on the entry of such person, or to retain the same for the use of Government. If the goods be detained for the use of Government, the Officer in charge of the Custom House shall cause the full value at which such goods were entered to be paid to the person entering the same, in full satisfaction for such goods, in the same manner as if such goods had been transferred by ordinary sale, and shall then cause the goods to be sold by public auction after due notice in the Official *Gazette*. If the proceeds arising from such sale shall exceed the sum paid to the person entering the goods, together with the Duty to which the goods are liable, and all charges incurred by Government in connection with them, a portion not exceeding one-half of the overplus shall, at the discretion of the Chief Officer of Customs of the Port be payable to the Officer who detected the undervaluation of the goods. Nothing in this Section shall prevent the Chief Officer of Customs of the Port when he shall have reason to believe that any such undervaluation was solely the result of accident, from permitting the person entering the goods, on his application for that purpose, to amend such entry, as regards valuation, on payment of such increased rate of Duties or on such other terms as he may determine. When goods are retained under this Section on account of Government, the Duties payable thereon shall in no case be levied from the person entering such goods.

XXVIII. *Goods brought to be passed through the Custom House for importation or exportation to correspond in all particulars with description given of them in the application to pass.*—If it be found when any goods are entered at or brought to be passed through a Custom House either for importation or exportation that the packages in which they are contained differ widely from the description given in the entry or application for passing them; or that the contents thereof have been wrongfully described in such entry or application as regards the denominations, characters, or circumstances according to which such goods are chargeable with Duty or are being imported or exported; or that the contents of such packages have been wilfully mis-stated in regard to sort, quality, or quantity; or that goods not stated in the entry or application have been fraudulently concealed in or mixed with the articles specified therein; or have been packed to deceive the Officers of Customs—such packages, together with the whole of the goods contained therein, shall be liable to confiscation.

XXIX. *Date of importation.*—If upon the first levying, repealing, enhancement, or reduction of any Duty or upon any change of any fixed valuation for Duty, or upon the first permitting, prohibiting, or restricting of any importation, it shall become necessary to determine the exact date on which an importation of goods had effect, such date shall be deemed to be that on which the goods were actually entered for home consumption at the Custom House.

XXX. *Date of exportation.*—If, in like manner, it shall become necessary to determine the exact date on which an exportation of goods had effect, such date shall be deemed to be that on which the goods were actually entered outwards at the Custom House.

XXXI. *Re-imported articles of country produce to be deemed Foreign. —Proviso.*—If goods produced or manufactured in British India be imported into any Port in British India from any foreign Port or place, such goods shall be treated as Foreign goods, and shall be liable to all the Duties, conditions, and restrictions to which Foreign goods of the like kind and value are liable on the first importation thereof. Provided that if such importation shall take place within three years after the exportation of such goods, and it shall be proved to the satisfaction of the Officer in charge of the Custom House that the property in such goods has continued in the person by whom or on whose account they were exported, the goods may be entered as Indian goods, in such manner as the Chief Customs Authority of the Presidency or place shall, from time to time, direct. Goods for which any drawback of excise shall have been received on exportation, shall in all cases be treated as Foreign goods, unless the Chief Customs Authority of the Presideney or place shall in any case otherwise direct by special order.

XXXII. *Stations may be appointed for Customs Officers to board and also land from ships.—Penalty for infraction.*—The Chief Customs Authority of any Presidency or place may, from time to time, appoint in any Port in British India, stations or places at which vessels arriving at, or departing from, such Port, shall bring to for the boarding or landing of Officers of Customs, and may direct at what particular place in any such Port, small vessels, not brought into Port by Pilots, shall be required to anchor or moor. The Chief Officer of Customs of any such Port may, at any time, station Officers of Customs on board of any vessel, while such vessel remains within the limits of the Port. Any person infringing any rule or order made under this Section by the Chief Customs Authority of any Presidency or place, or by the Chief Officer of Customs of any Port, shall be liable to a penalty not exceeding five hundred Rupees.

IMPORTATION.

XXXIII. *Places may be fixed by the local Government beyond which inward bound vessels are not to proceed until a Manifest has been delivered.*—It shall be lawful for the local Government of any Presidency or place, by notice in the Official *Gazette* to fix a place in any River or Port beyond which place it shall not be lawful for any vessel whether laden or in ballast arriving from any Foreign Port or place to pass, until the Master or Commander thereof shall have delivered to the Pilot, Officer of Customs, or other person duly authorized to receive the same, a Report or Manifest containing a true specification

of all goods imported in such vessel with such particulars (as to the name, nation, tonnage, cargo, and Ports of landing of such vessel) and made out in such form as shall, from time to time, be directed by the Chief Customs Authority of the Presidency or place in which such River or Port is situated.

XXXIV. *On failure, Master to be liable to penalty of* 1,000 *Rupees.*—If, in any River or Port wherein a place has been so fixed by the local Government, the master or Commander of any vessel arriving from a Foreign Port or place shall wilfully omit, before passing beyond such place, to deliver a Report or Manifest in the form and containing the particulars indicated in the last preceding Section, in so far as they are applicable to his ship, cargo, and voyage; or if any Report or Manifest so delivered shall not contain a true specification of all goods imported in such vessel, such Master or Commander shall, in very such case, be liable to a penalty not exceed one thousand Rupees.

If any Master or Commander so remaining outside or below any such fixed place, shall wilfully omit, for the space of twenty-four hours after anchoring, to deliver his Report or Manifest, such Master or Commander shall, in every such case, be liable to a penalty not exceeding one thousand Rupees.

XXXVI. *Penalty for not delivering Report or Manifest within* 24 *hours after anchoring.*—If, after any vessel arriving from any Foreign Port or place shall have entered, any Port in British India at which a Custom House is established, and in which a place shall not have been fixed under Section XXXIII. of this Act, the Master or Commander of such vessel shall wilfully omit, for the space of twenty-four hours after anchoring, to deliver as required by that Section his Report or Manifest to the Pilot, Officer of Customs, or other person authorized to receive the same, such Master or Commander shall, in every such case, be liable to a penalty not exceeding one thousand Rupees.

XXXVII. *Penalty for Pilot, &c. not receiving Report or Manifest.*—If, any Pilot, Officer of Customs, or other person authorized to receive a Report or Manifest from any Master or Commander of a vessel, shall refuse so to do, he shall, in every such case, be liable to a penalty not exceeding five hundred Rupees.

XXXVIII. *Penalty for vessel removing from place of mooring or unlading without due authority.*—If any vessel arriving from any Foreign Port or place at any Port in British India, shall, after having come to its proper place of mooring or unlading, remove from such place, except with the authority of the Master Attendant or Harbour Master, obtained in accordance with the provisions of Act XXII. of 1855 *(for the regulation of Ports and Port-dues)*, directly to some other place of mooring or unlading, the Master or Commander of such vessel shall, in every such case, be liable to a penalty not exceeding

one thousand Rupees, and the vessel shall not be allowed to enter until the penalty is paid.

XXXIX. *Station may be appointed for Officers of Customs to board vessels arriving from Foreign Ports.*—It shall be lawful for the Chief Customs Authority of any Presidency or place to appoint stations at which any vessel, arriving at any Port in such presidency or place from any Foreign Port or place, may be required to bring to for the boarding of such vessel by an Officer of Customs deputed by the Officer in charge of the Custom House at such Port.

XL. *Penalty for not bringing to at boarding Station.*—If the Master or Commander of any vessel arriving at any Port in British India from any Foreign Port or place shall, when so inquired under the last preceding Section fail to bring to at any such station as shall have been appointed by the Chief Customs Authority of the Presidency or place for the boarding of vessels by an Officer of Customs, such Master or Commander shall, in every such case, be liable to a penalty not exceeding one thousand Rupees.

XLI. *Officer in charge of Custom House may depute Officers of Customs to board ships.—Proviso.*—It shall be competent to the Officer in charge of the Custom House at any Port in British India, at any time, to depute at his discretion one or more Officers of Customs to board any vessel arriving at such Port. Every Officer of Customs so sent, shall remain on board of such vessel by day and by night until it be otherwise ordered by the Officer in charge of the Custom House. Provided that it shall be competent to the Officer in charge of the Custom House to direct, whenever he may see fit so to do, and on such conditions as he may see fit to impose, that the discharge of Cargo may take place without the presence of an Officer of Customs.

XLII. *Penalty for refusing to receive Officer of Customs on board.*—Every Master or Commander of a vessel, who shall refuse to receive on board an Officer of Customs deputed as above provided, shall be liable to a penalty not exceeding five hundred Rupees for each day during which such Officer shall not be received on board; and the vessel shall not be allowed to enter until the penalty is paid.

XLIII. *Accomodation of Officers.—Penalty.*—Every Master or Commander of a vessel, who is bound to receive on board an Officer of Customs, shall also be bound to receive on board one servant of such Officer, and to provide such Officer and servant with suitable shelter and accommodation, and likewise with a due allowance of fresh water, and with the means of cooking on board. If any Master or Commander shall wilfully disobey the directions contained in this Section, he shall, in every such case, be liable to a penalty not exceeding five hundred Rupees.

XLIV. *Officers of Customs to have free access to every part of the ship, and may seal and secure goods. Officer in charge of Custom House may authorise search and opening of locks.—Penalty for concealment of goods.*—Every Officer of Customs, deputed as above provided on board of any vessel, shall have free access to every part thereof, and shall have power to fasten down any hatchway or entrance to the hold, and to mark any goods before landing, and to lock up, seal, mark, or otherwise secure any goods on board of such vessel. If any box, place, or closed receptacle in any such vessel be locked, and the keys be withheld, such Officer shall report the same to the Officer in charge of the Custom House, who

may thereupon issue to the Officer on board, or to any other Officer under his authority, a written order to search ; and, on production of such order, it shall be competent to the Officer bearing the same to require that any place, box, or closed receptacle in such vessel be opened in his presence ; and, if it be not opened upon his requisition, to break the same open ; and any goods that shall be found concealed therein, and that shall not be duly accounted for to the satisfaction of the Officer in charge of the Custom House, shall be liable to confiscation.

XLV. *Penalty for Masters resisting search, &c.*—If any Master or Commander of a vessel shall refuse to allow such vessel or any box, place, or closed receptacle in such vessel to be searched when so required by an Officer of Customs bearing a written order to search ; or if an Officer of Customs shall place any lock, mark, or seal upon any goods, and such lock, mark, or seal shall be wilfully opened, altered, or broken, before due delivery of such goods ; or if any such goods shall be secretly conveyed away ; or if any hatchway or entrance to the hold, after having been fastened down by an Officer of Customs, shall be opened without his permission, in every such case the Master or Commander of such vessel shall be liable, upon conviction before a Magistrate, to a penalty not exceeding one thousand Rupees.

XLVI. *Bulk not to be broken until ship is entered at Custom House, and bills of lading, &c., delivered.*—No vessel arriving in any Port in British India from any Foreign Port or place, shall be allowed to break bulk until a Report or Manifest shall have been delivered as hereinbefore provided, nor until a copy of such Report or Manifest, together with an application for entry inwards, shall have been presented to the Officer in charge of the Custom House, and order shall have been given thereon by such Officer for the discharge of the cargo. The Officer in charge of the Custom House may refuse to give such order, until any Port-clearance, cocket, or other paper, which he shall know, or have reason reason to believe, had been granted at the place from which the vessel is stated to have come, shall likewise have been delivered to him. Nothing in this Section shall prevent an Officer in charge of a Custom House from granting, on receipt of the original Report or Manifest, and prior to the entry of the vessel at the Custom House, a special pass, under such rules as shall from time to time be prescribed by the Chief Customs Authority of the Presidency or place, for the unshipping of Bullion or Treasure.

XLVII. *Master or Commander to deliver Bill of lading, &c. to Officer in charge of Custom House.—Penalty for false entry, or report, &c.*—The Master or Commander of every vessel arriving from any Foreign Port or place shall, at the time of applying for entry inwards at any Port in British India, deliver to the Officer in charge of the Custom House, if required so to do, the bill of lading or a copy thereof for every part of the cargo laden on board, and shall answer all such questions relating to the vessel, cargo, crew, and voyage as shall be put to him by such Officer. If any such bill of lading or copy thereof shall be false ; or if any such bill of lading or copy shall have been altered with fraudulent intent ; or if the goods expressed in any such bill of lading or in any bill of lading of which a copy shall be so produced shall not have been *bonâ fide* shipped on board of such vessel ; or if any such bill of lading so produced, or any bill of lading of which a copy shall be so produced by any such Master or Commander shall not have been made previously to the departure of the

vessel from the place where the goods expressed in such bill of lading were shipped; or if any part of the cargo shall have been staved, destroyed, or thrown overboard, or if any package be opened, and such part of the cargo or such package be not accounted for to the satisfaction of the Officer in charge of the Custom House; in every such case the Master or Commander shall be liable to a penalty not exceeding one thousand Rupees.

XLVIII. *No goods to leave ships until entry of ship is made. Goods not agreeing in description and quantity as declared in the Manifest how to be dealt with.*—No goods shall be allowed to leave any vessel, unless they be duly entered in the Report or Manifest of such vessel. If any goods be found on board in excess of those entered in the Report or Manifest, or not corresponding with the specification therein contained, the fact shall be reported by the Officer of Customs on board, and all such goods shall be liable to confiscation, or to be charged with such increased rates of Duty as the Chief Customs Authority of the Presidency or place shall direct.

XLIX. *Penalty for not being able to account for missing or deficient package, &c.*—If any goods entered in the Report or Manifest shall not be found on board of the vessel, or if the quantity found be short, and if such deficiency be not accounted for to the satisfaction of the Officer in charge of the Custom House, the Master or Commander of such vessel shall be liable, in addition to full Duty, to a penalty not exceeding twice the amount of Duty chargeable on the missing or deficient goods, if they be capable of being assessed therewith, or if they be not, to a penalty not exceeding five hundred Rupees for every missing or deficient package of unknown value.

L. *Amendment of obvious errors, &c.*—Nothing contained in the two Sections last preceding shall be construed to prevent any Officer in charge of a Custom House from permitting the Master or Commander of any vessel to amend any obvious error, or to supply any omission resulting from accident or inadvertence, by furnishing an amended or supplementary Report or Manifest. But the receiving of such amended or supplementary document shall always be discretionary with the Officer in charge of the Custom House; who, if he decide to receive any such amended or supplementary Report or Manifest, may levy thereon such fee as the Chief Customs Authority of the Presidency or place shall from time to time direct.

LI. *Consequence of exceeding period for landing Import Cargo.*—A period of fifteen working days after the entry of a vessel not exceeding 600 tons, or such other period as the Officer in charge of the Custom House shall direct shall be allowed (without charge for the Offier of Customs) for the landing of import cargo from such vessel. One additional day shall in like manner be allowed for every 50 tons in excess of six hundred. If the period occupied in the landing of import Cargo be in excess of that so allowed, the vessel shall be charged with the expense of the Officer of Customs at a rate not exceeding five Rupees per diem (Sundays and holidays excepted) for such excess period.

LII. *Goods to be landed within fifteen working days of the entry of the vessel.*—If the importer, owner, or consignee of any goods (except such as shall have been declared by the Master or Commander as not to be landed), or the agent of such importer, owner, or consignee shall shall not land such goods within fifteen working days after the entry of the vessel importing the same, or within such further period as the

bill of lading of such vessels shall specify, the Master or Commander of the vessel, or the Officers of Customs on the application of such Master or Commander, may then carry such goods to the Custom House; and the Officer in charge of the Custom House shall thereupon be bound to take charge of, and to grant receipts for such goods; and, if notice in writing shall have been given that the goods are to remain subject to a lien for freight, primage, general average, or other charges of a stated amount, such Officer shall be bound to hold such goods until the freight, primage, duties, and other charges to which such goods are liable, shall be paid.

LIII. *Proviso in case of goods being landed in time, with exception of only a small quantity.*—If the cargo of any vessel, with the exception of a small quantity only of goods, shall have been landed within such period of fifteen days or such further period as the bill of lading shall specify, the Officers of Customs may, on the application of the Master or Commander of such vessel, direct that such remaining goods shall forthwith be carried in like manner to the Custom House.

LIV. *Effect of not discharging cargo in any earlier period specified in the bill of lading.*—If any earlier period than fifteen working days after the entry of any vessel is specified in the bill of lading of such vessel for the discharge of her cargo or any part thereof, and if the importer, owner, or consignee of such cargo, or the agent of such importer, owner, or consignee shall not land the same within such specified period, the Master or Commander of such vessel, or the Officers of Customs on the application of such Master or Commander may then carry such goods to the Custom House; and the Officer in charge of the Custom House shall thereupon be bound to take charge of, and to grant receipts for such goods; and, if notice in writing shall have been given that the goods are to remain subject to a lien for freight, primage, general average, or other charges of a stated amount, such Officer shall be bound to hold such goods until the freight, primage, duties, and other charges to which such goods are liable, shall be paid.

LV. *Goods may be landed at any time after arrival, with consent*—At any time after the arrival of any vessel the Officer in charge of the Custom House may, with the consent of the Master or Commander of such vessel, cause any small package or parcel of goods to be carried to the Custom House, there to remain for entry in charge of the Officers of Customs during the remainder of the working days allowed under the provisions of this or any other Act relating to Customs, for the landing of such package or parcel. If any package or parcel so carried to the Custom House shall remain unclaimed, on the expiration of the number of working days so allowed for its landing, or at the time of the clearance outwards of the vessel from which it was landed, the Master or Commander may give such notice as is provided in Section LII. of this Act, and the Officer in charge of the Custom House shall thereupon be bound to hold such package or parcel as provided in the said Section.

LVI. *Consequence of non-payment of Duties within four months after entry of vessel.*—If the Duties chargeable upon any goods carried to the Custom House under the provisions of any of the four Sections last preceding, together with the freight, primage, charges of landing and removal, rent and other charges to which such goods shall be liable, shall not be paid within four months from the date of entry of the vessel, or if such goods shall not be duly warehoused within such

period, such goods may, after due notice in the Official *Gazette*, be sold by public auction, and the proceeds thereof shall then be applied; first, to the payment of freight, primage, and general average; next, to the payment of Duties; and then to the payment of other charges. The overplus, if any, shall be paid to the importer, owner, or consignee of the goods or to his agent on his application for the same; provided that such application be made within one year from the sale of the goods, or that good reason be shown why such application was not so made. If any such goods be of a perishable nature, the Officer in charge of the Custom House may at any time direct the sale thereof, and shall apply the proceeds in like manner. Nothing in this Section shall be held to authorise the passing for home consumption of any duitable goods without payment of Duties of Customs thereon.

LVII. *Goods not cleared within two months from the date of landing to be sold.—Disposal of proceeds.*—If any goods be not cleared for home consumption or for warehouse within two months from the date of landing of such goods, or within such further period as the Officer in charge of the Custom House shall direct, such goods may, after due notice in the Official *Gazette* be sold by public auction, and the proceeds thereof shall then be applied to the payment of duties and other charges. The overplus, if any, shall be paid to the importer, owner, or consignee of the goods or to his agent on his application for the same; provided that such application be made within one year from the date of the sale of the goods, or that good reason be shown why such application was not so made.

LVIII. *Goods landed on Sundays and other Holidays, unless with permission liable to confiscation.*—Except with the written permission of the Officer in charge of the Custom House, no goods, with the exception of passengers' baggage, shall on any Sunday, or on any Holiday, or day on which the discharge of cargo is or shall be prohibited by the Chief Customs Authority of the Presidency or place, be discharged from any vessel arriving at any Port in British India from any Foreign Port or place; nor, except, with such written permission, shall any goods be so discharged on any day, except between such hours as the Chief Customs Authority shall from time to time appoint by notice in the Official *Gazette* nor without the presence or authority of an Officer of Customs. Any Master or Commander of a vessel who shall cause or suffer any goods to be removed contrary to any of the provisions of the Section shall, in every such case, be liable to a penalty not exceeding one thousand Rupees; and all goods so unauthorizedly removed shall be liable to confiscation.

LIX. *Goods removed from importing ship to be forthwith landed.—Penalty for not so doing.*—If any goods shall be removed from on board of any vessel for the purpose of being landed and passed for importation, such goods shall be forthwith removed to and landed at the wharf or other place appointed for the landing of such goods. If such goods be not so removed or landed, or if the boat containing such goods be found out of the proper track between the vessel and such wharf or other proper place of landing and such deviation be not accounted for to the satisfaction of the Officer in charge of the Custom House, such goods, together with any vessel or boat employed in removing them shall be liable to confiscation.

LX. *Goods landed at any other except appointed wharves and places, &c.*—No goods which shall have been discharged from any vessel under the authority of an Officer of Customs shall be landed, except

at the wharf or other place appointed for the landing of such goods. No goods which shall have been so discharged into any boat for the purpose of being landed shall, previously to their being landed, be trans-shipped into any other boat without the permission of an Officer of Customs. Any goods landed or trans-shipped contrary to the provisions of this Section shall be liable to confiscation.

LXI. *Goods landed without a boat-note liable to confiscation.—And person in fault in the case to penalty.*—When any goods shall be sent from on board of any vessel for the purpose of being landed and passed for importation, there shall be sent with each boat-load, or other separate despatch, a boat-note specifying the number of packages so sent, and the marks and numbers, or other description thereof. Each boat-note shall be signed by an Officer of the vessel, and likewise by the officer of Customs on board, if any such officer be on board. If any goods sent to be landed be found without a boat-note in any boat proceeding to land, such goods shall be liable to confiscation, or the person by whose authority the goods are being landed, or the person in charge of the boat, if it appear that the fault was with him, shall be liable to a penalty not exceeding twice the amount of Duty leviable on the said goods.

LXII. *Entry for home consumption.*—The importer, owner, or consignee of goods liable to Duties of Customs, and intended to be delivered for home consumption on the landing thereof from the importing ship, or the agent of such importer, owner, or consignee, shall make entry of such goods by delivering to the Officer in charge of the Custom House a Bill of Entry thereof in such form and containing such particulars as may, from time to time, be directed by the Chief Customs Authority of the Presidency or place. The particulars of such entry shall correspond with the particulars given of the same goods and packages in the Report or Manifest of the ship. Whenever the value of any goods is required to be stated in the entry, the importer, owner, or consignee, or his agent, shall subscribe a declaration of the truth of such value at the foot of such entry. Provided that if the importer, owner, or consignee, or his agent, shall make a declaration before the Officer in charge of the Custom House to the effect that he is unable, from want of full information, to state the value or contents of any case, package, or parcel of goods, then the Officer in charge shall permit him, previous to the entry thereof, to open such case, package, or parcel, and examine the contents in presence of an Officer of Customs. Except as provided in Section XXVII. of this Act for cases of obvious error, no re-valuation of goods assessed for Duty on the declared value thereof shall be allowed after such goods shall have been removed from the Custom House.

LXIII. *Penalty for goods being delivered without entry.—Proviso as to passengers' baggage.*—If, without entry duly made, any goods shall be taken or passed out of any Custom House or Wharf, the person so taking or passing such goods shall, in every such case, be liable to a penalty not exceeding five hundred Rupees. Provided that no entry shall be required in respect of passengers' baggage, which may be examined, landed, and delivered under such rules as shall from time to time be made under Section IV. of this Act by the Chief Customs Authority of the Presidency or place. Any prohibited or Dutiable goods found, either before or after landing, concealed in

If such bond shall be taken at the Port or place of destination, a certificate thereof, signed by the proper Officer of such Port, or place shall, at the time of the entering of such goods, be produced to the proper Officer of the Port or place of removal, and such bond shall not be discharged unless such goods shall be produced to the proper officer, and duly re-warehoused at the Port or place of destination, within the time allowed for such removal, or shall be otherwise accounted for to the satisfaction of such officer; nor until the full Duties due upon any deficiency of such goods not so accounted for shall have been paid.

CVIII. *Remover may enter into a general bond.*—It shall be lawful for the Chief Customs Authority of any Presidency or place to permit any person desirous of removing warehouse goods to enter into a general bond, with such sureties, in such amount, and under such conditions, as such Chief Customs Authority shall approve, for the removal from time to time of any goods from one warehouse to another, either in the same or in a different Port or place, and for the due arrival and re-warehousing of such goods at the Port or place of destination, within such time as the said Chief Customs Authority shall direct.

examining such goods for re-warehousing shall have been duly performed, permit the goods to be entered and shipped for exportation, or to be entered and delivered for home consumption, upon payment of the Duties due thereon, in like manner as if such goods had been actually lodged in such warehouse. All goods so exported, or for which the Duties have been so paid, shall be deemed to have been duly cleared from the warehouse.

CXII. *Removal of goods to be noted on the bond, with particulars.*—When any goods warehoused as provided in this Act shall be removed from any public or private warehouse, the Officer in charge of the Custom House shall cause such removal to be noted on the back of the bond. Every note so made shall specify the quantity and description of goods removed, the purposes for which they have been removed, the date of removal, the name of the person removing them the number and date of the Export Pass under which they have been taken away if removed for exportation by Sea, or of the Import Pass or order if removed for home consumption, and the amount of Duty (if any) paid.

I. From the date of the passing of this Act Regulations IX. 1811 of the Bengal Code *(for facilitating the division of landed property, and for securing the rights of joint sharers in joint undivided Estates)*, Regulation XI. 1811 of the same Code *(for extending the period fixed by the existing Regulations for revising the Jumma on lands ordered to be divided into two or more Estates)*, Regulation XIX. 1814 of the same Code *(for reducing to one Regulation, with alterations and additions, certain Regulations respecting the Partition of Estates paying Revenue to Government)*, Act XX. of 1836, and Act XI. of 1838, except in so far as the said Regulations and Acts repeal any Regulation or Act, or any part of any Regulation or Act, and except as to the partition of any estate which shall be pending at the time of the passing of this Act, shall cease to have effect in the North Western Provinces of the Presidency of Fort William in Bengal. Unless, as hereinafter provided, the partition of any estate which shall be pending at the time of the passing of this Act shall be proceeded with and completed in the same manner as if this Act had not been passed.

II. *Future partitions to be made under provisions of this Act.*—Except as directed in the last preceeding Section, all partitions of estates which shall be ordered to be made by the Officers of Govern-

ment after the passing of this Act, shall be made under the provisions of this Act, whatever may be the tenure of the estate ordered to be divided.

III. *What parties entitled to partition.*—Every recorded proprietor of a joint undivided estate paying revenue to Government or of any portion thereof, whether such estate is held in common tenancy or otherwise, is entitled to claim partition under this Act.

IV. *Parties desirous of partition to apply to Collector in writing.*—When any one or more of the recorded proprietors of an estate as described in the last preceding Section shall desire to have his or their shares of the estate separated, in order that he or they may hold the same as a separate property, or as separate properties, such proprietor or proprietors shall make a written application for the purpose to the Collector of the District. Any two or more proprietors may apply to have their shares separated and to hold the same as a joint estate.

V. *Application to be signed and certain particulars specified:—Otherwise may be rejected.*—The application shall be signed by the party or parties applying for the partition, and shall specify the nature of the tenure of the estate sought to be divided. The names of all the co-sharers in the estate, the nature and extent of their respective shares, so far as the same may be known to the applicant or applicants, or can be ascertained by him or them, and the mode of partition desired, shall also be stated. If the application does not contain the particulars above mentioned, the Collector may reject it.

VI. *Procedure of Collector on receipt of application.—Notice to proprietor who have not joined therein.—Proclamation in case of service of notice being impracticable.*—The Collector, on the receipt of an application for partition, shall, if the application be in order, and not open to objection on the face of it, publish a Notification of the same at his Office, and at some conspicuous place on the estate to which the application relates, and shall invite any party in possession, who may not have joined in the application and who may object to the partition applied for, to appear before him either in person or by a duly constituted agent, on a day to be specified in the Notification, not being less than fifteen or more than thirty days from the date of the Notification, and state his objection. If the application for partition shall not have been made by all the recorded proprietors of the estate, notice of the application shall be served, in the manner usual in the District for serving notices of the Revenue Officers, on such of the recorded proprietors of the estate as shall not have joined in the application. Provided that, if from any cause such service cannot take place a proclamation notifying such application shall be published by affixing it at the Maal Cutcherry of such estate or other conspicuous place therein, or at the village Chowrie, Choupal, or other conspicuous place in each village in such estate.

VIII. *In case of valid objection being made within time allowed, application may be refused.*—If any objection be made to the partition by any party in possession, within the time allowed, and the Collector, on a consideration of such objection, be of opinion that there is any good and sufficient reason, not inconsistent with the provisions of this Act, why the partition should be absolutely disallowed, he may refuse the application, recording the grounds of his refusal.

VIII. *Procedure, if question of title or of proprietary right be raised.—Reference to arbitrators.*—If the objection raise any question

of title or of proprietary right, which shall not appear to have been already determined by a Court of competent Jurisdiction, the Collector may either decline to grant the application until the question in dispute shall have been determined by a competent Court, or he may proceed to inquire into the merits of the objection. In the latter case the Collector, after making the necessary inquiry and taking such evidence as may be adduced, shall record a proceeding, declaring the nature and extent of the interests in the actual possession of the party or parties applying for the partition, and any other party or parties who may be affected thereby. The procedure to be observed by the Collector in trying such cases shall be that laid down in Act VIII. of 1859 *(for simplifying the procedure of the Courts of Civil Judicature not established by Royal Charter)* for the trial of original suits. And the Collector shall have power to refer any question that may arise in such case to arbitration, and the provisions of Chapter VI. (relative to arbitrators) of the Code of Civil procedure shall apply to cases so referred by a Collector.

IX. *Decision of Collector equivalent to decision of Civil Court, and open to appeal.—Appellate Court may, on appeal, stay partition.*—All orders and decisions passed by the Collector under the last preceding Section, for declaring the rights of parties, shall be held to be decisions of a Court of Civil Judicature of first instance, and shall be open to appeal to the District or Sudder Court, according to value of the claim, under the rules applicable to regular appeals to those Courts. Upon such appeal being made, the District or Sudder Court, as the case may be, may issue a precept to the Collector desiring him to stay the partition pending the decision of the appeal.

X. *Special appeal to Sudder Court.*—From every decision pased under the last preceding Section by a District Court a special appeal shall lie to the Sudder Court, under the rules for the time being in force relating to special appeals to that Court.

XI. *Civil Court to entertain suits only on appeal from decision of Collector.*—It shall not be competent to the Civil Court to entertain a suit or application for the partition of an estate except on appeal from the decision of the Collector as hereinbefore provided, anything contained in Section, 225, Act VIII. of 1859 *(for simplifying the procedure of the Courts of Civil Judicature not established by Royal Charter)*, to the contrary notwithstanding.

XIII. *Partition by whom to be carried out.*—The partition shall be made by the Collector in whose District the estate is situate, or, if the estate be situate in two or more Districts, than by the Collector of any one of such Districts, who may be specially ordered by the Commissioner of the division to superintend the partition. If the estate be situated in two or more Divisions, the partition shall be made by such Collector as the Board of Revenue shall order.

XIV. *Assessment, and levy of costs incurred in making partition.*—The expense of making the partition, and the allowances of the

establishment necessary for the measurement and survey of the lands, the preparation of papers, and any other charges shall be fixed by the Collector. The amount shall be paid under such rules as may from time to time be laid down by the Board of Revenue with the sanction of the local Government, and, in default of payment, may be realized under the rules applicable to the recovery of arrears of rent or revenue.

XV. *Partition may be stayed, and proceedings quashed by Commissioner.—Decision not open to revision by Civil Court.*—At any stage of the proceedings after a partition shall have been ordered, if it shall appear from information which was not before the Collector at the time the partition was ordered, or otherwise, that any reason not inconsistent with the provisions of this Act exists why the partition should not be proceeded with, it shall be competent to the Commissioner, on the report of the Collector, and subject to any orders that the Board of Revenue may pass in the case, to stay the partition and to order the proceedings to be quashed. The decision of the Revenue Authorities under this Section shall not be open to revision by the Civil Court.

XVI. *Procedure after lapse of period mentioned in Notification under Section XII.*—After the expiration of the period mentioned in the Notification referred to in Section XII. of this Act, the Collector shall, if necessary, cause a measurement of all the lands comprised in the estate to be made, and a rent-roll of the same to be prepared. The village papers which are required to be prepared and periodically deposited in the Office of the Collector under the provisions of Sections XI. and XII. If the arbitrators are equally divided in opinion, the Collector shall act as umpire and the partition made by the arbitrator or arbitrators with whom the Collector shall concur shall be the partition in the case. The same rule shall apply in respect of any point arising in the course of a partition which shall be referred to arbitration.

XX. *Appointment in place of arbitrator refusing or being unable to act.*—If any person on being appointed an arbitrator, shall refuse to Act, or, after accepting the appointment, shall die or become incapable of acting, another person shall be appointed arbitrator in his stead, in the same manner in which the first person was appointed.

If a sale of any part of the estate shall ultimately become necessary for the liquidation of any part of such arrear which may remain due, only the share or shares of the propietor or proprietors who shall not have contributed their quota of the balance shall be sold in the first instance, and the partition shall go on and be completed in the same manner as if no arrear of public revenue had accrued. The purchaser or purchasers of the share or shares sold shall be entitled to separate possession of the estate or estates which, under the partition, would have been allotted to the defaulting proprietor or proprietors. Provided always that, in all cases of a partition, the entire estate shall be considered responsible for the public revenue assessed upon it until the partition shall have been completed, and the several proprietors shall have been put into possession of the separate estates into which the estate may be ordered to be divided, according as the same may be allotted to them.

XXX. *Division of lands held in common.*—When some of the lands forming the estate are held in common, the Collector shall declare, by a proceeding to be held under the provisions of this Act, the principle and rule under which, in accordance with the village custom, such lands shall be divided; and he shall cause the partition of such lands to be made in conformity to the provisions of this Act. The portion of the common land falling by such partition to the shares of

the several co-shares shall be added to the lands held by them in severalty, and the several estates thus formed shall be assessed and declared separate estates. Provided that it shall be in the discretion of the Collector to cause any transfer of lands agreed to by the parties to be made previous to such declaration, and the new estate shall be declared subject to the transfer so made.

XXXI. *Collector may refuse to separate lands in certain cases.*—The Collector may refuse to declare any lands held in severalty, and not liable to re-distribution according to special village custom, a separate mehal, if the lands be so intermixed with other properties as to render the formation of a compact estate impossible, and if the parties affected by the partition decline to permit of the transfers necessary for curing such defect.

XXXII. *Where no land held in Common, lands in severalty may be declared a separate estate.*—Where there be no lands held in common, the lands in severalty held by the applicant for partition or assigned to him by the Collector under the provisions of this Act, shall be assessed and declared a separate estate. Provided that it shall be in the discretion of the Collector to cause any transfer of lands agreed to, or direct by his order, as provided in Section XXX. to be made previous to such declaration, and the new estate shall be declared subject to the transfer so made.

XXXIII. *Sharérer failing to attend after proclamation liable to forfeit right of objection.*—If any sharer, after the issue of the proclamation mentioned in Section XXVI. of this Act, shall fail to attend the Officer appointed to make the partition, during the time the partition is being made, no objection taken by such sharer to the partition shall be heard, unless such sharer can show that his absence was not wilful, or unless for any good and sufficient reason it shall appear just and proper to allow him to be heard against the partition.

XXXIV. *Partition may be staved if parties so desire.—Recovery of costs.*—If, at any time after an order shall have been passed for making a partition, it shall appear, either from the report of the Officer appointed to make the partition, or from any other information, that the parties are not desirous that the partition should proceed, it shall be competent to the Collector, with the sanction of the Commissioner, to stop the partition, and to strike the case off the file, recovering from the sharers all costs and expenses incurred up to that time.

XXXV. *Estates formed in course of partition to be as compact as possible.*—It shall be the duty of the Officer appointed to make the partition, so far as circumstances will admit, to take care that the estates into which the estate is divided shall consist of contiguous mehals or villages. Provided that if the estate ordered to be divided shall not consist of a sufficient number of villages to admit of one or more entire village or villages being included in each estate, the partition of the village or villages of which the estate shall consist shall be made so as to render each estate as compact as possible.

XXXVI. *Revenue to be assessed on each divided estate.*—The public revenue shall be assessed on each estate into which the property shall be ordered to be divided, in conformity to the rules contained in any law for the time being in force.

XXXVII. *Circumstances to be considered in making partitions.*—In selecting the villages or lands to be included in each separate estate, the advantages or disadvantages arising from situation, the vicinity

So far as may be practicable and consistent with compactness of partition, lands held in severalty shall be left in the possession of the parties holding the same.

XXXVIII. *Rule when dwelling house belonging to one sharer is situate on ground to be allotted to another sharer.*—If a dwelling house belonging to one sharer shall be situate on any land, or in any village, which it may be necessary to include in the share of another sharer, the proprietor of such house shall be at liberty to retain it, with the offices, buildings, and grounds immediately attached thereto, upon agreeing to pay to the proprietor of the land or village in which the same is situate an equitable rent for the ground. The limits of the ground and the rent to be paid for it shall be fixed by the Officer making the partitions, and shall be stated in the paper of partition.

XXXIX. *Rules as to tanks, wells, water-courses, and embankments.*—Tanks, wells, water-courses, and embankments shall be considered as attached to the land for the benefit of which they were originally made. In cases in which, from the extent, situation, or construction of such works, it shall be found necessary to continue them the joint property of the proprietors of two or more of the estates into which the estate may be divided, the paper of partition shall specify, as far as circumstances may admit, the extent to which the proprietors of each of such estates may make use of the same, and the proportion of the charges for repairs to be borne by them respectively.

XL. *Rule as to places of worship.*—Places of worship, which shall have been held in common previous to the partition of an estate, shall continue to be so held unless the parties shall otherwise agree amongst themselves, in which case they shall state in writing the agreement into which they have entered, and the Officer making the partition shall enter a note of the agreement in the paper of partition.

XLI. *Particulars to be contained in the paper of partition to be submitted by Officer making same.—Map to be also submitted.*—When the Officer appointed to make the partition shall have completed the partition, and allotted the public revenue on each of the estates into which it is proposed that the estate shall be divided, he shall prepare and submit to the Collector a paper of partition showing how he proposes to divide the estate, and, to apportion the public revenue. This paper shall specify the names of the Mehals or villages included in each separate estate, the gross produce of each Mehal and village for the three years immediately preceding the year in which the partition is ordered to be made, the names of the parties to whom the several estates are allotted, and the proportion of the public revenue proposed to be assessed on each of such estates, with any remarks regarding the mode observed in selecting the lands included in each estate, and the accounts upon which the apportionment of the public revenue assessed thereon shall have been based, as may be necessary for the information of the Collector. The paper shall further contain a detail of the adjustments, if any, which shall have been made in respect to

preceding Sections. The Officer appointed to make the partition shall also submit a map showing the several estates into which the estate is proposed to be divided.

XLII. *Procedure of Collector thereupon.*—The Collector shall take into consideration the partition proposed by the Officer appointed to make the partition, and, after calling for any further information which he shall deem necessary, and disposing of any objections which shall be taken to the partition and allotment of public revenue as proposed by such Officer, he shall submit a report to the Commissioner, together with such of the papers of the case as shall appear to him essential. He shall also forward a list of the papers not sent. The Collector shall record his opinion whether the proposed partition should be confirmed or modified, and in the latter case he shall state the nature of the modification which, in his opinion, should be made.

XLIII. *Commissioner may confirm or modify partition, subject to appeal to Board of Revenue.—And may direct division by lot under certain circumstances.*—The Commissioner shall either uphold the partition proposed by the Collector, or modify the same. The decision of the Commissioner shall not be open to revision by the Civil Court, but shall be subject to appeal to the Board of Revenue. The Commissioner, before coming to a decision, may call for any additional papers, or direct any further enquiry that he shall consider necessary. He may also, if he think proper, direct that when two or more of the estates into which it is proposed to divide the estate shall consist of the same proportions of the entire estate, the parties entitled thereto shall draw lots for the same before the Collector.

XLIV. *Procedure by Collector of receipt of order of Commissioner, or of Board of Revenue on appeal.*—On the receipt of the order of the Commissioner, or if an appeal be preferred to the Board of Revenue, then, of the order passed on the appeal, the Collector shall cause the same to be published in his Office, and in some conspicuous place in each of the estates separately constituted by such order. The Collector shall at the same time specify the date from which each of the estates shall be held to be a separate estate, and shall enter the several estates into which the estate has been divided in the Register of Estates paying revenue to Government. The Collector shall give the several proprietors possession of the estates allotted to them, and, if necessary, may avail himself of the assistance of the Magistrate in giving possession.

XLV. *Government may order new allotment of public Revenue among estates formed by partition in case of fraud or error in original allotment being proved.*—In order to prevent collusion or error in the distribution of the public revenue assessed upon an estate which may be ordered to be divided into two or more distinct estates, if it shall be proved to the satisfaction of the Government, within twelve years from and after the date of confirmation of the partition, that the public revenue was fraudulently or erroneously apportioned at the time of the partition, the Government shall have power to order a new allotment of the public revenue upon the several estates into which such estate may have been divided, conformably to the principles prescribed in this Act, on an estimate of the gross produce of each estate at the time of the partition to be made agreeably to the best evidence, and information which may be procurable respecting the same. Such order shall not be liable to be contested in the Civil Court. The

parties whose estates may be declared to have been under-assessed shall be required to pay to the proprietors of the estates which shall have been over-assessed the sum in which they shall be found to have been over-assessed, and in default of payment the amount shall be leviable by the process prescribed for the recovery of arrears of rent or revenue.

XLVI. *Consequence to party having interest in any estate, if he neglect to affirm or establish such interest while the estate is under attachment with a view to partition.*—If, during the time an estate is under attachment with a view to the partition of the same, any party shall neglect or omit to claim by a suit any right or title he may then have to the ownership or occupancy at a fixed rent of any land situated in such estate, or any other interest therein, such neglect or omission shall be a valid plea in bar of any suit relating to such right, title, or interest, unless the party can satisfy the Court that there was good and sufficient reason for his neglect or omission to institute the suit at or before such time. Provided that this Section shall not bar any action for arrears of rent, or the enhancement or alteration of rent.

XLVII. *Holders of decree of Civil Court, awarding right to portion of an estate, may apply for partition, and Collector may proceed thereon under Act.*—Whenever any Court of Civil Judicature shall pass a decree, awarding to any person the proprietary right in a portion of an estate paying revenue to Government, whether the portion so awarded shall consist of a fractional share in the whole or a part of the estate, or of specific lands, the decree-holder may apply to the Collector for a partition of the estate; and on the receipt of such application, the Collector shall proceed thereupon under the provisions of this Act, which are hereby declared applicable to such applications.

XXII. *Government not barred from awarding compensation for land absolutely sold, though claim be not preferred in time.*—Nothing in this Act shall be held to prevent the Local Government from awarding to any claimant of waste land sold on account of Government, on proof to the satisfaction of the Local Government of the claim of such claimant (notwithstanding that he may not have preferred his claim either to the Collector or other Officer as aforesaid, or to the proper Court constituted under this Act within the period prescribed by this Act), such amount of compensation for the said land, within the limit as to amount mentioned in Section XIX. of this Act, if the land have been sold not subject to any condition or reservation, as to such Local Government may seem proper.

Rule 1.—*Rules for ascertaining the amount of such assessment.*—The assessment of lands other than those specified in Rule 2 shall, with respect to lands which have already been assessed by the Revenue Survey now in progress, be the assessment already imposed upon those lands by that Revenue Survey, and with respect to lands which have not yet been assessed by that Revenue Survey shall be such assessment as shall be agreed on by the Collector or settling officer and the owner or holder of the lands, which shall be final; and in failure of their agreement, it shall be the existing rental of the lands until the Revenue Survey, now in progress, shall have placed a new assessment thereon, after which the assessment so placed by the said Revenue Survey shall be understood to be the assessment. And it shall be lawful for the duly authorised officers of Government employed in the said Revenue Survey to enter upon all lands not heretofore assessed by such Revenue Survey for the purpose of fixing and making an assessment thereof, provided no arrangement can be otherwise arrived at by the Collector and the owner or holder, as above provided, to ascertain the fair rental of the lands.

Rule 2.—The assessment of lands of such an exceptional character as not to be assessable under the Revenue Survey Rules shall be in the discretion of the Revenue officers of Government, which discretion shall be guided, so far as may be, by the rate at which similar land in the same district belonging to Government is let, due regard being had by the said Revenue officers to all equitable considerations affecting such lands. Shares of the revenues of villages (such as Umuls) shall be assessed for the purposes of this Act at the value thereof, calculated at the average shown by such accounts of actual realizations by the holders as are forthcoming for the ten years immediately preceding the promulgation of these Rules.

Rule 3.—Lands for which a Joodee, Salamee, or other quit-rent or land-tax, under whatever denomination, is already paid to Government, instead of being liable to only one-fourth of the assessment, shall, in

addition to the annual amount of such Joodee, Salamee, quit-rent or other tax aforesaid, be liable to a further annual quit-rent, equal to one-fourth of the sum by which the annual or average annual amount of such Joodee, Salamee, or other quit-rent or tax aforesaid may fall short of the assessment.

Rule 4.—Quit-rent and annual Nuzzurana imposed under this Section (Section II.) and the Rules thereunto annexed, shall be fixed in perpetuity, and shall not be liable to increase or decrease on any new assessment, save so far as is above in Rule 1 of this Section (Section II.) provided to the contrary, in the case of lands which have not been already assessed by the Revenue Survey, now in progress.

Rule 5.—The whole of the exempt lands found in the possession of each holder shall be continued according to the provisions of this Section (Section II.) and the Rules thereunto annexed, and subject to the enactments contained in Section III.

Section III.

Adjustment, so far as right of Government to levy the Nuzzurana and annual quit-rent, binding on the rightful owner, his heirs, and assigns.—Saving rights and remedies of rightful owner, his heirs, and assigns.—Any adjustment made by the Governor in Council with the holder of land held wholly or partially exempt from the payment of land Revenue in accordance with Section II. of this Act and the Rules annexed to the said Section, shall, so far as the right of Government to levy the Nuzzurana and the annual quit-rent mentioned in the said Section is concerned, not only be binding upon such holder, his heirs, and assigns, but also on the rightful owner, his heirs, and assigns, whosoever such rightful owner may be: Provided always that the said rightful owner, his heirs, and assigns shall not, by this Act or anything therein contained, be deprived of any rights or remedies, either at law or in equity, to which he or they would be entitled against the said holder, his heirs, or assigns for the recovery of the said lands or any part thereof if this Act had not been passed; and in the event of the rightful owner, his heirs, or assigns, recovering the said lands, or any part thereof, from the said holder, his heirs, or assigns, any declaration, guarantee, or adjustment made by the Governor in Council under or in accordance with Sections I. and II. of this Act and the Rules annexed to the said Section II., with respect to the said lands while the same were in the possession of the said holder, shall accrue to the benefit of the said rightful owner, his heirs, and assigns.

Section IV.

The said lands, so far as rights of Government are concerned, to be recognized as the heritable and transferable property of actual and legal successors by inheritance and heirs by adoption.—All lands adjudicated to be heritable as aforesaid henceforth to be held subject to payment of an additional Nuzzurana, at the rate of one anna for each rupee of the assessment of the land.—Lands held partially or wholly exempt from the payment of Land Revenue and already formally adjudicated to be so continuable hereditarily in perpetuity, may, at the option of the holder, be henceforth recognized, so far as the rights of Government are concerned, as the heritable and also the transferable property not only of the actual descendants of the person to whose descendants

inheritance may have been limited by the terms of the said adjudication, but also of all his legal successors by inheritance, including heirs by collateral successions and heirs by adoption, and their assigns; and hereafter the right of Government or its officers to question the title to possession, or to exemption from the payment of Land Revenue, of any holder of the said land already so adjudicated to be heritable in perpetuity, on the ground that he does not belong to the family to which title is restricted by the adjudication, is hereby abrogated; and in any case of recognition as in this Section aforesaid lands already adjudicated to be heritable and to which such recognition applies are henceforth to be held subject to the payment to Government of an annual Nuzzurana, calculated at the rate of one anna for each rupee of the assessment of the land, ascertainable as provided in the Rules of Section II. of this Act, which Nuzzurana is to be in addition to the partial assessment (if any) ordered by the terms of the formal adjudication under which the land has already been declared to be continuable. Provided, however, that the assent of the holder of all lands adjudicated as aforesaid to the acceptance of such recognition and the payment of such Nuzzurana as in this Section as aforesaid shall be assumed, unless such holders shall within three (3) calendar months from the date on which this Act comes into operation decline to accept such recognition as aforesaid by a notice given in writing to the Collector of the District.

SECTION V.

Clause 1st.—Provisions in respect of the amount of Nuzzurana when it exceeds ten rupees.—Occasional Nuzzurana.—When the amount of the annual Nuzzurana payable for any holding in accordance with Section II. or Section IV. of this Act, respectively exceeds the sum of ten rupees, it shall be at the option of the holder of the land on account of which the said Nuzzurana is declared payable, if he be not merely a mortgagee, to elect, within two calendar months after service of a notice explaining the purport and effect of the Rules contained in this Section (Section V.), which service shall be made in the same manner as is hereinafter provided for the service of the notice described in Section XI. of this Act that in lieu of the land being made subject to the payment of such annual Nuzzurana an occasional Nuzzurana shall be payable at each change of possession thereof, or of any part thereof, by inheritance or transfer, the amount of which Nuzzurana shall be—

(a) On every succession by inheritance, a Nuzzurana equal to one year's assessment of the wholly or partially exempt lands which are the subject of such succession.

(b) On every transfer of lands wholly or partially exempt from the payment of Land Revenue, a Nuzzurana equal to two years' assessment of the land transferred.

The assessment shall be, in each case, ascertainable under the Rules annexed to Section II. of this Act.

Provided that in the event of more than one succession or transfer occurring within twelve months, such occasional Nuzzurana or succession or transfer shall not be leviable more than once.

Provided also that it shall be at the option of the holder of the land to pay such occasional Nuzzurana in one sum or by annual instalments not exceeding one-fourth of the whole Nuzzurana per annum.

Clause 2nd—Occasional Nuzzurana from whom to be levied.—Person obtaining possession to give notice to the Collector, &c.—When, at the election of the holder, lands wholly or partially exempt from the payment of Land Revenue, shall have been made liable to occasional Nuzzurana leviable under this Section (Section V.) instead of to an annual Nuzzurana of one anna in each rupee of the assessment as provided by Sections II. and IV. of this Act, the occasional Nuzzurana shall be levied from each person obtaining possession of the land to which it is subject, whether by inheritance or transfer; and it shall be the duty of that person, within the period of one calender month after obtaining possession as aforesaid, to give notice in writing thereof to the Collector or other chief Revenue Officer of the Collectorate or District in which the said lands are situate; and in default of such notice, the person so obtaining possession shall forfeit, in addition to the Nuzzurrana leviable on the occasion, a sum equal to the amount thereof.

Clause 3rd—Holder of land paying occasional Nuzzurana to give notice to the Collector, &c. of any transfer.—It shall also be the duty of the holder of any land made subject under this Section to the payment of occasional Nuzzurana instead of to an annual Nuzzurana of one anna in each rupee of the assessment, who shall transfer the same or any part thereof, to give to the Collector or chief Revenue Officer of the Collectorate or District in which the land so transferred are situate, notice in writing of such transfer, and of the nature and extent thereof, and of the person or persons to whom the same is made, within one calendar month after such transfer has been made; and in default of such notice, the person or persons so transferring as aforesaid shall forfeit a sum equal to the amount of the Nuzzurana leviable on the occasion from the person to whom the transfer shall have been made.

Section VI.

Clause 1st.—Holders asserting a right to exemption may claim a trial of and adjudication upon their title according to Act XI. of 1852.—When lands are held wholly or partially exempt from the payment of Land Revenue, upon the title to which exemption there has not been any formal adjudication, the holders asserting a right to such exemption shall be at liberty, on the conditions hereinafter described, to claim a trial of, and adjudication upon their title, according to Act. XI. of 1852, so far as the same is not altered, modified, or superseded by, or inconsistent with the provisions of this Act.

Clause 2nd.—Exemption established.—In the event of the title to such exemption being upon such inquiry demanded as last aforesaid, duly established, the land shall not be heritable in any other manner, or to any further extent than the same may, on such inquiry as last aforesaid, be adjudged to be heritable; nor shall any adoption be recognised in any Civil Court or Court of Law or Equity, or by any officer of Government, as creative of, or continuing a title to claim from Government any exemption from assessment or any other privilege on account of the said lands; and no Nuzzurana shall be received on account of Government from the holders of such lands. And whensoever the same lands or any part thereof, either by operation of law or by devolution, assignment, gift, sale (whether such sale be judicial, public, or private), devise, transfer, deed, or other instrument, or

otherwise howsoever, pass to any person, not an heir by actual descent from the person to whose heirs the lands shall be declared heritable, or in default of such declaration, from the person who may establish his title to exemption as last aforesaid, then the said lands, or such part thereof as may have so passed to any person other than the said actual descendants, shall forthwith become and be liable to payment of annual Land Revenue at the full assessment.

Clause 3rd.—Exemption not established.—In the event, upon such inquiry as aforesaid, of there being a failure by the holders to establish title to exemption from payment of Land Revenue, the lands to which he has failed to establish such title shall forthwith become and be liable to payment of annual revenue at the full assessment.

Clause 2nd.—Refund of assessment with interest if holder prove his title.—If the inquiry result in the establishment of the asserted title, the holder, or in the event of his decease, his heir who succeeds to possession of the said land, shall be entitled to a refund of any assessment levied under the provisions of this Section, pending such inquiry as aforesaid, and to interest thereon at the rate of five per cent. per annum.

Clause 3rd.—Full amount of Land Revenue to be paid if holder fail to prove his title.—If the result of the enquiry be that the holder fail to prove his title, the full amount of Land Revenue assessable on the lands from the date of the holder's demand for trial shall be levied from the said holder and his security, or either, any sums levied pending adjudication as aforesaid being taken in account of the same.

SECTION VIII.

Clause 1st—Lands held on behalf of religious or charitable institutions.—Lands held wholly or partially exempt from the payment of Land Revenue on behalf of religious or charitable institutions, shall, if already formally adjudicated to be permanently so continuable, be so continued wholly or partially exempt from such payment of Land Revenue as aforesaid, according to the terms of the adjudication.

Clause 2nd.—Lands held on behalf of religious or charitable institutions, either wholly or partially exempt from the payment of Land Revenue shall, if not already formally adjudicated to be permanently so continuable, be declared to be so wholly or partially exempt from such payment of Land Revenue as aforesaid ; subject, however, to the payment of annual quit-rent equal to one-fourth of the assessment which shall be ascertainable under the Rules annexed to Section II. of this Act.

It is, however, hereby further provided, that nothing in this Section contained shall disentitle Government, or its duly authorised officers, to produce and give evidence in rebuttal or disproof of the alleged title to exemption aforesaid, if it seem to Government or its duly authorised officers, desirable or necessary to produce and give such evidence.

Clause 9th.—When holder makes no answer for two months, he shall be deemed to have dispensed with such enquiry.—If no holder or owner discovered, land to be fully assessed.—If, within two calendar months after the service of such notice in manner aforesaid, the person holding the lands wholly or partially exempt from Revenue as aforesaid, or his legally constituted agent shall not give an answer in writing to such notice, stating clearly in such answer that he demands an

Clause 12th.—Claimant to be allowed benefit of any evidence to be found in Government Records in custody of such public officer.—Any claimant, demanding an inquiry into his title, shall be allowed the benefit of any evidence to be found in the records of the present or any former Government, in custody of such public Officer, as is authorised by the British Government to have charge or custody of the same, and such public Officer shall be bound to search for and to produce the same, on application made to him.

Any appeal from or against the proceedings, orders, or acts of the Officers of Government engaged in making any such adjustment, shall be made to the Governor in Council, or to such Officer or Officers as may be appointed by the Governor in Council to take cognizance of such appeals and shall not be recognizable by any other authority.

the Governor in Council certain annual sums in discharge of the original cost, with interest, of the works called the Vehar Water Works, and of the cost of maintaining the same, and whereas it is desirable, in consideration of the large outlay incurred in the construction of the said works, and in purchasing up the rights of the tenants or occupants of the site of the said Lake or Works, that one moiety of the same in excess of Twenty-five lacs of Rupees should be defrayed by the Governor in Council, and whereas it is expedient that the management of the said Vehar Water Works be transferred to the said Commissioners, and that the said Commissioners be invested with powers for making such management effectual, and for raising certain funds for the purposes aforesaid, in addition to the funds which by law they may now raise, and that in the exercise of such powers and the disposal of such funds they be subject to certain rules and limitations ; It is hereby enacted—

I. *Short Title.*—This Act shall be called "The Vehar Water Works Act."

II. *The Vehar Lake and Works to be vested in the Municipal Commissioners of Bombay.*—From and after the 1st day of July 1863 the Vehar Lake in the Island of Salsette and all the land adjacent thereto up to the level of the embankment on the southern side thereof, and included within the limits delineated in a plan deposited in the office of the Secretary to Government of Bombay and authenticated by the signatures of the Governor and Members of Council, and marked A, and all the land and other immovable property which is necessary for the purpose of conveying the water of the said Lake by pipes into the Town of Bombay, and there distributing the same, and which, being the property of Government, has ordinarily been applied to, or employed for, the purposes aforesaid, shall be vested for a term of 99 years in the Municipal Commissioners for the Town and Island of Bombay, in trust for the purposes of this Act and subject to the conditions hereinafter provided ; and it shall be lawful for the Governor in Council at the end of the period of 99 years aforesaid and thenceforward from time to time to order that the said property shall vest in the said Commissioners on the conditions and for the purposes aforesaid for such further period not exceeding 99 years from the day of any such order, as shall seem expedient : Provided that on the expiration of the said first term of 99 years, or of any further period for which the Governor in Council may have ordered that the said property shall vest in the said Commissioners, all rights and every power conveyed to the said Commissioners under this Act shall forthwith cease and determine, and the said property shall revert to and become vested in the Governor in Council as the same were vested in the said Governor in Council before this Act was passed.

III. *Access to land and conduits, &c.*—It shall be lawful whenever the same may be necessary in order to repair, renew, extend, improve or examine the Lake, conducting pipes, or any other portion of the Water Works aforesaid for the Commissioners and their servants at all reasonable times to enter upon and pass through any land or other property adjacent to the same or in the neighbourhood thereof, in whomsoever such property may be vested, and to convey into and through the said land or other property such materials, tools, and instruments as may be necessary for the purposes aforesaid ; and any person obstructing such entrance or passage, or conveyance, shall, on conviction before any Magistrate, be liable to a fine not exceeding

Rupees Fifty, commutable, if not paid, to one month's simple imprisonment, provided that all damage done to land or other property by the said Commissioners or their servants in the exercise of the powers by this Act conferred, shall be made good by the Commissioners to the owners of the same.

IV. *Movable property vested in Municipal Commissioners.*—All materials, tools, instruments, and other movable property, purchased or otherwise, acquired prior to the said 1st day of July 1863, by or for the Governor in Council for the purposes of the Water Works aforesaid and on that day vested in the Governor in Council or in any person in trust for him, shall then forthwith become vested in the Commissioners aforesaid in trust for the purposes of this Act.

V. *Management and maintenance by the Municipal Commissioners.*—From and after the day aforesaid the said Water Works and the business thereof shall be exclusively managed and conducted by the said Commissioners, who shall be bound to keep the said Water Works and the property pertaining thereto in good repair and effective for the proper purposes of the same, and the said Commissioners shall make such extensions, improvements, and alterations in the said Water Works and property as may be necessary, and for such purposes may expend such sums as may be necessary out of the Municipal Fund, subject however to such prohibitions and limitations as the Governor in Council, upon the representation of the Bench of Justices, may in any case think fit to prescribe.

VI. *Part repayment to Government by Commissioners of cost of Water Works.*—Whereas by the provisions of Sections XXX. and XXXI. of Act XXV. of 1858 certain sums are now and may become payable by the Municipal Commissioners of the Town and Island of Bombay to the Governor in Council, and will continue to be payable until the whole of the expense incurred in the construction of the Vehar Lake and Water Works, with interest at four per centum per annum, shall have been repaid; except such portion thereof as shall be defrayed by Government out of the Public revenue, and that the said Commissioners shall also pay to the Governor in Council such further sum in each year as shall be equal to the cost of the maintenance of the said works during the preceding year, and whereas a sum in excess of 25 lacs of rupees has been expended in the construction of the said Vehar Lake and Water Works, and in purchasing up the interests of the tenants or occupants of the site of the said Lake and Works, and it has been agreed that one-half of all sums so expended in excess of 25 lacs of rupees shall be defrayed out of the public revenue, is hereby enacted that the said Municipal Commissioners shall pay annually on or before the 1st July to the Governor in Council a sum not less than the total amounts payable under the provisions of the Sections of the Act aforesaid, which sums shall be appropriated to the liquidation of the amount payable with interest by the Municipal Commissioners until the whole amount be defrayed, and the said amount shall be the total of the said 25 lacs of rupees and of a moiety of the excess above 25 lacs of rupees expended on the construction of the said Vehar Lake and Water Works, the amount of which moiety shall be determined on a scrutiny of the accounts by the Deputy Auditor and Accountant General of Bombay; whose decision shall be subject to the approval and confirmation of the Governor in Council of Bombay, and when so confirmed shall be final, and from and after the day upon which this Act shall come into operation, the liability of the said Commissioners

to pay to the Governor in Council in each year the amount of the cost of the maintenance of the said Vehar Lake and Water Works shall cease and determine, but if the said Commissioners shall in any year fail to pay on or before the 1st July to the Governor in Council such sums as are in this Section prescribed, it shall be lawful for the Governor in Council to give two months' notice to the said Commissioners, requiring payment of all arrears accrued due on account of the sums so payable, and on failure of the Commissioner to make such payment, the said Vehar Water Works and all the movable and immovable property appertaining thereto and vested in the said Commissioners, shall cease so to vest, and shall forthwith become vested in the Governor in Council in trust for the purposes for which it was previously vested in the said Commissioners: Provided that all sums received by the Governor in Council on account of water supplied from the said Works, shall after deduction of all sums expended in the management and maintenance of the same be credited to the said Commissioners as having been paid on their account and received by the Governor in Council, in liquidation of the amount payable by the said Commissioners and in this Section.

VII. *Water-rates may be levied by the Municipal Commissioners.*—From and after the day upon which this Act shall come into operation, it shall be lawful for the Municipal Commissioners with the consent of the Bench of Justices and the approval of the Governor in Council to impose such annual or other periodical rates for the supply of water from the said Vehar Water Works, and such periods for the payment of the same, upon houses, wharves, and other structures, and upon all works and places whatsoever so supplied with water, and thereafter with such consent and approval so to alter the said rates and periods as may be necessary or expedient, and such rates shall be recoverable by the said Municipal Commissioners in like manner as rates payable under the provisions of Act XXV. of 1858.

VIII. *Municipal Commissioners may supply water by measurement and by Contract.*—It shall be lawful for the said Commissioners, with the consent of the Bench of Justices and subject to such rules as the Governor in Council may, from time to time, prescribe, to supply water to any person from the said Water Works, in such quantities and on such terms and conditions as shall seem fit, and to contract for the supply of such water for any purpose whatever to any person without measurement at a reasonable fixed rate, and all moneys due to the said Commissioners on account of any water so supplied shall be recoverable in like manner as the rates in the last preceding Section mentioned.

IX. *Public wells and tanks to be preserved.*—All public wells, tanks, reservoirs and the like vested, or which may hereafter be vested in the Municipal Commissioners, and from which the public may or shall ordinarily have drawn water without payment, shall be continued and maintained by the said Commissioners, so long as the Bench of Justices or the Governor in Council shall require, and the public shall have free access thereto and may draw water therefrom without hindrance or payment of any fee whatever.

X. *Punishment for fraudulent disposal of water.*—Every person liable to the payment of any rate or price to the Municipal Commissioners for any water supplied to him from the said Vehar Water

Works upon certain conditions as to the use of the same, who shall fraudulently dispose of such water to persons or for purposes in violation of the said conditions, shall be liable on conviction before any Magistrate of Police to a fine not exceeding Rs. 500, and in default of payment of such fine shall be punished with simple imprisonment for a period not exceeding two months.

XI. *Inspection of Works by Government Officers*—The Municipal Commissioners shall at all reasonable times permit all persons appointed by the Governor in Council on that behalf, to enter upon, and inspect, and take account of all the property by this Act vested, or which, in virtue of the same, may become vested in the said Commissioners: and the persons so appointed as aforesaid shall be entitled to enter upon and pass through any property adjacent to, or in the neighbourhood of, the said Vehar Lake and Water Works, or any part thereof, subject to the same conditions as the Municipal Commissioners, and if from the report of any person appointed as aforesaid it shall appear that the said Lake or Water Works, or any portion of the same are not in a sound and effective condition, it shall be lawful for the Governor in Council by notice, under the signature of a Secretary to Government, to call upon the said Commissioners to repair, improve, and make effective the said Works or Lake or portion thereof within such a period as may seem reasonable, and the said Commissioners shall be bound within such period to comply with such requisition, failing which the Governor in Council may immediately on the expiration of such period order the said Lake or Works or portion thereof to be repaired, improved, and made effective, in such manner and by such means as shall seem fit, and the Municipal Commissioners shall, in any such case, be bound forthwith to pay to the Governor in Council the cost of the work so performed, in addition to any other sums by them payable.

XII. *Municipal Commissioners to keep accounts.*—The Municipal Commissioners shall keep accounts of all receipts and disbursements on behalf, or by reason, of the said Vehar Water Works, apart and distinct from any other accounts, and shall annually present to Government and cause to be published in the *Government Gazette*, a statement of such accounts, and the said accounts shall at all reasonable times be open to examination and audit by any person appointed on that behalf by Government, and if upon the report of the person so appointed it shall appear that the said accounts are falsely, erroneously, or negligently kept, it shall be lawful for the Governor in Council to order the same to be corrected, and to be kept in future with due diligence according to such plan as Government may prescribe, as truly representing the affairs of the said Water Works, and the Municipal Commissioners shall be bound to conform to such order.

XIII. *Disposal of surplus funds.*—If from any such annual report of the Commissioners or any report of an examiner appointed by the Governor in Council as aforesaid, it shall appear that after paying to Government the sums due under this Act, and after providing for the repairs and maintenance of the Lake and Water Works and the payment of necessary salaries, any surplus remains in the hands of the said Commissioners or their agents, of moneys received on account of the said Works, it shall be lawful for the said Commissioners with the consent of the Bench of Justices to expend the same in such extensions and improvements of the said Works and of the apparatus

connected therewith, as the Governor in Council may approve, and if such improvements or extensions shall appear to be necessary, it shall be lawful for the Governor in Council, with the concurrence of the Bench of Justices, to require that the same may be made; and if it shall appear that the surplus, after providing for such payments to Government and for such expenses of repairs and maintenance as aforesaid, has in any year exceeded the sum of Fifty Thousand Rupees, the said Commissioners may forthwith prepare a new scale of rates and prices, so calculated as to reduce the annual receipts on account of the said Water Works, either by the whole amount by which the same exceed the necessary disbursements on account thereof, or by such sum as shall remain after providing for the extensions and improvements which may properly be made out of the said surplus or profits, and shall submit the same for the approval of the Governor in Council, and in failure thereof the Governor in Council, with the concurrence of the Bench of Justices, may order such new scale to be made, or may prescribe a new scale calculated as aforesaid, which new scale the said Commissioners shall forthwith adopt, and shall thereafter recover such demands only for supplies of water as are in accordance therewith.

XIV. *If Commissioners fail to perform their duties under this Act, they may be temporarily superseded.*—If the Municipal Commissioners shall refuse or fail duly and diligently to maintain and manage the Vehar Lake and Water Works, or to keep accounts of the same, or to perform, any duty which, under this Act they are bound to perform, it shall be lawful for the Governor in Council, after such notice as shall seem fit, to appoint any person or persons for the performance of all or any of such duties, until the next ensuing election of Municipal Commissioners, and to assign to such persons such salary as shall seem reasonable, to be paid out of the Municipal Fund, and the person so appointed shall have and exercise in the performance of the duties assigned to them by the Governor in Council the like powers and privileges as the Municipal Commissioners, and the Municipal Commissioners shall, from the date of such appointment, cease to perform the duties assigned to the persons so appointed, and shall transfer to the said persons all documents, accounts, and property necessary for the proper performance of such duties, provided that from and after the next ensuing election of Municipal Commissioners the duties and powers of the person so provisionally appointed by the Governor in Council as aforesaid shall cease, and shall forthwith devolve on and vest in the Municipal Commissioners, and that such person shall be bound to transfer to the Municipal Commissioners all documents, accounts, and property held by them or under their control, on account of the said Vehar Water Works.

XV. *Building, &c. within the limits of the watershed prohibited.*—From and after the day upon which this Act comes into operation, it shall not be lawful for any person to erect any building, shed, or other structure, for the purposes of dwelling or manufacture, trade or agriculture, within the limits of the water-shed of the Vehar Lake, as defined in a plan marked B, and deposited in the office of the Secretary to Government of Bombay and authenticated by the signatures of the Governor and Members of Council, or to extend or alter any such structure heretofore existing within the said limits, or to apply the same to purposes different from those to which it has heretofore been usually applied; and it shall not be lawful within the said

limits, for any person to carry on any operation of manufacture, trade, or agriculture, in any manner whereby any injury may arise to the said Lake, or the waters of the same may be fouled or rendered less wholesome; and any person so offending shall, at the prosecution of the said Municipal Commissioners, be subject, on conviction before any Magistrate, to imprisonment of either description for any period not exceeding one month, or to a fine of Rupees One Hundred, or to both; and it shall further be lawful for the Magistrate of the District in case of any such conviction as aforesaid, to order the immediate removal of such building or structure, and the discontinuance of such operation or use of the land as aforesaid; and in case of disobedience to remove such structure and to prevent such operation or use, and for any opposition to such removal or other disobedience of such order as aforesaid, the offender shall be liable, in each instance, to the penalty in this Section above provided.

FURLOUGH AND ABSENTEE RULES.

(Corrected to the 20th November 1863.)

CIVIL ABSENTEE RULES.

FORT WILLIAM, FINANCIAL DEPARTMENT, THE 8TH JUNE 1855.

The following Rules for the grant of Leave of Absence, for regulating Deductions from Salaries and Deputation Allowances, and for limiting the period of service of Civil Servants, are published for general information, and will take effect in all the Presidencies and Settlements under the Government of India from the date of the publication of this Notification, in supersession of the Rules of the 17th May 1843 and the 25th August 1854:—

CHAPTER I.

RULES FOR APPLICATION FOR LEAVE OF ABSENCE.

Section I.—No leave of absence from any Office or station can be granted but by the Government under which the employment is held, and on the application of the party requiring such leave, saving in such cases as may hereafter be specially excepted. The application must be made publicly, through the regular channel, in the Department to which the applicant may belong.

NOTE.—The Rule must be considered as superseding the Rule under which Commissioners of the Land Revenue and other Officers have heretofore been allowed to grant leave of absence in Bengal.

Section II.—The Official Allowances of the holder of a Civil office quitting his station without leave will entirely cease from the date of his quitting until his return, or, in the event of his subsequently obtaining leave to the date of such leave being granted to him.

Section III.—No leave of absence shall have any retrospective effect, except in cases of severe illness, to be attested by medical certificate, conforming in every respect to the directions contained in Section V.

1. Privilege leave with retrospective effect not claimable by an Officer compelled to absence from office without waiting for leave. (Notification of 23rd May 1860.)

2. The Commissioners of Revenue and Police, the Commissioner in Sind, and the Resident in the Persian Gulf, are vested with power of granting privilege leave for one month only to the officers subordinate to them, and in cases where leave for more than one month is applied for, the sanction of Government is necessary. The Commissioners are also vested with power to grant leave to their subordinates to proceed to Bombay for the purpose of undergoing examination.

3. The reckoning of leave of absence is made from the date of relinquishing charge of office without reference to the specification of commencement of leave in the Government orders.

4. Officers are to return to their station on the termination of leave whether that day falls on Sunday or otherwise.

5. Leave of absence whether on medical certificate or on private affairs, granted without specification of the date of its commencement, may be taken from any date within one month after the date of the Government order, otherwise a fresh application will be necessary.

6. The Secretary of State for India will not accept a resignation from any Civil Servant whilst on leave in Europe without ascertaining that there are no demands against him.

7. Every Civil Servant immediately on his arrival in England to forward to the office of the Secretary of State for India a copy of the Government letter granting him leave to Europe.

8. He should also forward a certificate from the Civil Pay Master, shewing the date of sailing of the vessel in which he embarked, the period for which leave has been granted, the amount of salary, the proportions thereof to which an absentee is entitled under the regulation, during absence, and whether it is to be drawn in India or otherwise.

9. In a case of urgent necessity the local Government may grant leave to an officer of the Account Department, but as a rule no Department or Government should give leave except the one under which the officer is serving as none other can possibly know how his absence will affect the service.

CHAPTER II.

Rules for Sick Leave.

Section IV.—Upon application duly made, the Government may grant leave of absence on medical certificate to any Civil Servant, to any place in India, in Europe, or elsewhere, as he may consider most conducive to the restoration of his health, without any restrictions whatever as to the places to which he may resort.

Section V.—When an application for leave of absence is made on the ground of ill-health, it must be accompanied by a certificate and a statement of the case from the Medical Officer by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the disease, the symptoms by which it is manifested, the period during which it has existed as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to some other place in India, or in Europe, or elsewhere, as laid down in Section IV; and in case of the applicant visiting the Presidency peparatory to obtaining leave, the certificate must be countersigned by the Members of the Medical Board, on their being satisfied on a perusal of the Medical attendant's statement of the case, that the leave applied for is absolutely necessary towards his recovery. Should the applicant's Medical attendant be of opinion that he ought to proceed to a Sanitarium or other place without visiting the Presidency, the certificate must, in the first instance, be countersigned by the Superintending Surgeon of the Division in which the applicant may be

located, and afterwards submitted with the statement of the case, for the consideration and countersignature of the Members of the Medical Board.

The certificate shall be given in the following form :—

"I, A. B., Surgeon at or of——, do hereby certify that E. F., of the Civil Service, is in a bad state of health, and I solemnly and sincerely declare that according to the best of my judgment, a change of air is essentially necessary to his recovery; and do therefore recommend that he may be permitted to proceed to sea (or to such place as the Surgeon may think proper, expressing it in the certificate)."

The following form shall be observed by the Members of the Medical Board or the Superintending Surgeon, in countersigning the Surgeon's certificate :—

"We (or I) do hereby certify, that, according to the best of our (or my) professional judgment after careful personal examination of his case, we (or I) consider the state of health of E. F. to be such as to render leave of absence for a period of ———— absolutely necessary (or highly desirable) for his recovery."

An application for extension of leave must, if the applicant be in India, be accompanied by a certificate to a like effect from the Medical Officer by whom the applicant is attended, together with a statement, showing sufficient reason for the extension solicited; and such certificate must be countersigned by the Members of the Medical Board, or by the Superintending Surgeon of the Division in which the applicant may be located, as the case may be, on perusal of the statement. In like manner, if the applicant shall have proceeded beyond the territories under the Government of the East India Company, he must furnish a certificate and statement to the required effect from a Surgeon or Physician at the place of the temporary residence by whom he has been attended, such attendance, and the period of it, to be stated, and the certificate to be countersigned by the examining Physician of the East India Company, if the applicant is in England, or, if not in England by the Principal Medical authority of the colony or country to which the absentee may have proceeded, or some sufficient reason stated for the want of such countersignature, if the certificate be not so countersigned. The Medical Board or Superintending Surgeon before countersigning a certificate as above mentioned, must either personally examine the applicant, or state some sufficient reason why they or he have or hath been unable to do so. When any of the required particulars are neglected, leave will be refused.

Section VI.—The following conditions will in future attach to leaves of absence granted to Civil Servants who may be declared by a sufficient medical certificate to require such leave for the recovery of their health :

1*st.*—The total period of absence, with the privileges hereinafter provided, shall not (save as especially excepted in Clause 5 of this Section, and in Section VII. of these Rules) exceed eighteen months in the whole, nor shall it exceed fifteen months on any one occasion. An officer, however, after 3 months leave on sick certificate cannot obtain further leave for 15 months to proceed to Europe which must be restricted to 12 months. (Government of India, September 1859, *Calcutta Gazette*, 10th idem.

2*ndly.*—The office of the absentee will be considered to be vacated if he shall be absent beyond eighteen months altogether,

or beyond fifteen months at any one time, unless he shall obtain leave under Clause 5 of this Section, such absence to be computed, if he shall proceed to a Sanitarium within the Presidency, from the date of his arrival thereat to the date of his quitting the Sanitarium; if to any place beyond the Presidency, but within the continent of India, from the date of his leaving the frontier of his own Presidency to the date of his return thereto; and if he shall proceed to sea, from the date of the sailing of the vessel on which he may have embarked from any port in India which is not more distant from his station than the port of his own Presidency, to the date of the arrival at any port within the Presidency to which he belongs, or at any other port which is not more distant from his station than the port of his own Presidency.

3rdly.—The absentee will be entitled to draw a moiety of his salary, and the same will be paid to him during such period of absence, provided that he shall in no case draw a larger sum than Rupees 10,000 (£1,000) per annum during that period; in cases in which the emolument of the absentee's office does not exceed Rupees 5,000 per annum, no deduction therefrom shall be made for the period of eighteen months, nor shall such a deduction be made in other cases as shall reduce the allowance below Rupees 5,000 (£500) per annum. In cases in which the salary of the absentee may not be of that amount, the full salary will be granted.

4thly.—For the interval elapsing between departure from Station to the commencement of reckoning absence, or between the end of reckoning absence and re-arrival at station, the absentee will be allowed a special leave for an additional period of one month, two months, or three months, according to the distance to be travelled, as prescribed in Section XX. of these Rules; and during this additional period the absentee will be entitled to draw the same salary as is allowed by Clause 3 of this Section.

5thly.—Civil Servants proceeding on sick leave beyond sea, will be allowed special leave for the interval elapsing between departure from station and the commencement of reckoning absence and between the end of reckoning absence and re-arrival at station, for an additional period of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, or be in excess of the last mentioned distance, on the condition that during this additional period the absentee shall be entitled to draw the same rate of allowance as laid down in Clause 3 of Section VI. If the leave on medical certificate be taken in India, the preparatory leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanitarium, and it is allowed on both occasions, *i. e.*, at the time of proceeding to the Sanitarium, and also at the time of returning to station. (Notification of the Government of India, 14th October 1857) and the Resolution of the Government of India, 14th May 1860.

6thly.—Second preparatory leave is not allowed when proceeding to Europe in extension, for sick leave taken in India. (Bombay Government letter, 9th April 1861.)

7thly.—Officers proceeding on sick leave to Europe from a Presidency Town are allowed preparatory leave for a period not exceeding one month. (Government of India, 7th September 1861.)

8*thly*.—Separate applications for the special leave above referred to, are no longer required, in the cases of Civil Servants proceeding on leave on medical certificate. In cases of Furlough on private affairs, separate applications for leave for the purpose of travelling must still be submitted. (Resolution of the Government of India, 17th April 1857.)

9*thly*. (*As amended by the Government of India on the 22nd December* 1858.)—If the absentee shall apply, under medical certicate, to remain absent for a longer period than eighteen months, or fifteen months at any one time, and it shall appear to the Honorable the Court of Directors to be absolutely necessary, after examination by their Medical Officers in England, that he should do so, the leave which may have been granted in India, will, under the orders of the Honorable Court be extended to the limit of two years, with permission to retain office and half salary within the limits enjoined during such extension. If the absentee be in India, the leave may be extended to the limit aforesaid, under the orders of the Government of India, or the subordinate Governments, upon the certificate of a Board of Medical Officers, to be summoned to report on the state of the absentee's health.

10*thly*.—If the absentee be compelled by the state of his health, under due medical certificate, to remain absent for a longer period than eighteen months, or fifteen months at any one time, or beyond two years in the case of an extension under Clause 4, he will, as before stated, vacate his appointment; but he will be permitted to receive an allowance at the rate of £500 per annum if above ten years' standing at the time when the leave was granted, or of £250 if not above ten years' standing at the time when the leave was granted, for such further period of absence as shall not exceed the entire term of three years in the whole. At the expiration of that term, all allowance must cease until he reports his return to his Presidency.

Section VII.—If a Civil Servant of more than fifteen years' service, after having been absent on sick leave for eighteen months in the whole, or for fifteen months of one time, at whatever period of his service such sick leave shall have been taken, shall be again compelled by the same cause to apply for leave of absence, the Government of India and the subordinate Governments may, on special grounds, grant leave of absence for one further period not exceeding six months, during which the absentee may retain his office and half his salary under the limits above enjoined.

Section VIII.—If a Civil Servant, after fifteen years' service, shall be compelled by ill health to apply for further leave of absence, he may be permitted on special grounds to obtain it, but his absence will involve the loss of office and salary; the Government of India and the subordinate Governments will, however, respectively, exercise a discretionary power to grant in such last mentioned cases a Sick Absentee Allowance not exceeding Rupees 5,000 or £500 per annum, for a further period not exceeding twelve months.

Section IX.—A Civil Servant who has taken sick leave under the Rules of the 17th May 1843 will not be debarred by that circumstance from taking such leave again under the above Rules, with the privilege of retaining office, provided the leave be not granted till three years

have expired after his return from his leave under the Rules of 17th May 1843.

Section X.—None of the above-mentioned Rules will be applicable to Members of Council. Each Member may, however, with the special sanction of the Government, be permitted to be absent, under medical certificate, for a period not exceeding six months, retaining his office and receiving half his salary, which shall be paid to him during such absence; but if his absence shall exceed six months, his office will be vacated.

Clause 1. This leave is granted to a Member of Council only once during the tenure of office, and shall, on his return and resumption of his office, receive half his salary for the period of such absence. (Government of India, No. 5582 of 25th November 1862.)

Section XI.—Civil Servants who may desire to draw their allowances while absent on account of sickness under the above Rules, will be required to give security, in such amount and form as may be fixed by the Government, for the refund of any excess that may be drawn either by the Agents at the Presidency or by themselves in case of their coming under retrenchment.

Absentees in Europe on medical certificate are not under the necessity of drawing their salaries through their Agents in India on bills audited by the Civil Pay Master, but are at liberty to draw them at the office of the Secretary of State for India at the rate of 2s. the rupee, on the production of the last pay certificate. An Officer visiting England can draw his Salaries during his absence through his Agents on guarantee on application to the Civil Pay Master instead of as is now the rule going up to Government for sanction in each individual case.

CHAPTER III.

Rules for Short Leave on Private Affairs.

Section XII. *(As amended by the Government of India on the 8th May* 1856.)—The Government may grant to Civil Servants leave of absence to any place in India, Europe, or elsewhere, without any restriction whatever as to the place to which they may resort, for one month in each calendar year, without deduction from the salaries and emoluments drawn by such servants. Such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officers seeking it. No second leave can be granted under this Rule until the completion of eleven months from the expiration of the last leave, if taken at one time, or from the date of return from any sick leave, or until the completion of six months from the expiration of the last instalment of a leave, if it has been divided. Servants not availing themselves of the indulgence in any one year may obtain, under the like conditions, leave of absence for two successive months, to commence at or after the expiration of twenty-two months from the termination of their former leave: and if two years elapse without enjoyment of the privilege, leave for three months may, in like manner, be granted at the expiration of thirty-three months from the termination of the last preceding leave; but no leave shall be granted under this Rule for any period exceeding three months. If an Officer shall not return at the expiration of the

period of leave, granted him under this Rule, he shall forfeit all pay and allowance during the time of his remaining so absent without leave; and if he shall so continue absent for more than one month beyond the term granted his office shall become vacant.

1. When the leave is divided, it is not necessary that six months should elapse before granting the second instalment provided it is taken in the same calendar year. (Decision of the Government of India, page 1869 of the Calcutta *Government Gazette* of 1856.)

2. Leave under Section XII. cannot be granted preparatory to Furlough or retirement from the Service, and to have the benefit of its advantages the party must continue to serve, unless disabled by sickness, for three months from the date of his return from privilege leave. (Notification of the Government of India, 19th September 1856.) Preparatory leave may, however, be granted on half salary under the same Notification.

3. Civil Servants taking privilege leave are to enjoy their full salaries in every instance, and the cost of substitutes in such cases to be debited to Absentee Fund. But in no case an officer is entitled to draw Tentage or other local allowance while absent from duty on privilege leave.

4. The condition of privilege leave is to return to duty on its expiration, and the allowance of an officer will therefore not be payable till he shall have rejoined his station.

5. An officer obtaining privilege leave on the ground of i health can obtain the same, as the sole restriction on the grant is that no inconvenience whatever must arise from the departure of the officer seeking it.

6. No privilege leave, not even for a day, can be granted until an officer has earned it by being at his post eleven months, when the Government may, if inconvenient, give him one month's leave either at one time or by instalments, but the provisions of the rules do not permit of any leave being granted until eleven months service has been completed.

Civil officers are not allowed to visit places beyond the Bombay Presidency on privilege leave without the sanction of Government.

7. Civil Servants absent from their stations under medical certificate cannot be admitted to leave under this Rule in continuation of their sick leave; and if while absent under this Rule they be granted extended leave under medical certificate, they shall be considered liable to the Rules applicable to leave of absence on medical certificate for the whole period of their absence.

8. The eleven months required by this Rule is computed from the date of an officer's return to India from sick leave and not from the date of joining his duties. (Notification of the Government of India, 15th March 1861.)

9. Junior Civil Servants cannot get leave under Section XII. unless he has been in India eleven months from the date of arrival. (Bombay Government letter, 2nd June 1859).

10. Sick leave is not converted into privilege leave.

11. Leave taken under Section XIV. must be held to be an interruption in calculating for the grant of leave under Section XII., and the computation must be subject to renewal from the date

of the Civil Servant's return from the former. (Para. 1st of the Honorable Court's Despatch, No. 6 of 14th January 1857.)

12. An officer is entitled to one month's privilege leave in the year which may be allowed in two instalments, if one only is obtained and the other not taken within the calendar year, the balance whatever it may be, will be forfeited, and a fresh leave can be granted only after the expiration of eleven months from the expiration of the leave that was taken.

13. Cancellation of leave need not be reported to Government, but to the Audit Department.

14. Civil Servants ordered out from England before the expiration of their Furlough consequent on the Mutiny in India of 1857, are to be allowed to add whatever privilege leave they may be entitled to up to three months in taking the balance of their Furlough. They will be allowed to draw full salary for the period of privilege leave and that amount will be paid in India. (Government of India, 25th March 1859, *Calcutta Gazette*, page 638.)

Section XIII. (As amended by the Government of India on the 8th May 1856.)—As a general rule, when leave is granted under Section XII., such leave will be in one period only whether for a whole month or less, and not in detached portions to complete one month; but as an exception to this Rule, it shall be discretional with the several local Governments, where good cause is shown for the indulgence, and it is attended with no public inconvenience, to sanction leave of absence under this Rule, to such parties as may not have occasion to apply for the whole at once, in two instalments only, which are not to exceed in the aggregate one month within the calendar year.

Section XIV. (As amended by the Government of India on 22nd December 1855.)—The Government may, on sufficient cause being shown, grant to a Civil Servant special leave of absence on private affairs for six months to any place in India, Europe, or elsewhere, without any restrictions whatever as to the place to which he may resort; provided, however, that the absentee shall draw no more than one half of his salary and allowances. After an absence of six months any office held by the absentee shall become vacant.

Clause 1. The special leave of absence from India on private affairs granted after 2nd January 1863 will not be counted as residence.

Clause 2. *(As amended by the Government of India on 22nd December* 1855.)—The leave granted under this Section if taken in India, will be computed from the date of the absentee's quitting his station to the date of his return thereto, and if taken to Europe, or beyond Indian limits, from the date of the sailing of the vessel on which he may have embarked from the port nearest to his station, to the date of his arrival at the same on his return to duty. A second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the half salary allowed to be drawn will be claimable till the absentee shall have returned to his duty.

For the interval elapsing in the case of leave taken to Europe or beyond Indian limits, between departure from station to arrival at the port of embarkation, or between return to port and re-arrival at Station, the Government may grant, on the same terms and conditions as the special leave, such an additional period of leave as may be

considered to be absolutely required to enable the absentee to reach the port of embarkation or to return from the port of debarkation to his Station.

Clause 3.—It will be understood that leave under this Section is not to be granted as a matter of course to every applicant, but that it will be the duty of the Government to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

Clause 4.—*(Notification of Government of India, re-published, and dated Bombay Castle, 17th June* 1857.)—In the event of a Civil Servant, while absent on special private affairs leave, under Section XIV. of the Rules, falling sick, and being granted extended leave under medical certificate, he shall be considered liable, for the whole period of his absence, to the Rules applicable to leave of absence on medical certificate.

Leave under Section XIV. cannot be allowed in continuation of leave granted under Section XII., and cannot be granted by instalments, but there is nothing to prevent such leave being allowed for a shorter period than six months, provided, the condition of leave not being claimable under the same rule for six years is maintained.

An absent officer is entitled to draw his authorised allowances during absence on *bonâ fide* return to service, and when ready to take up an appointment. (Notification of 4th May 1860.)

A second leave under this Section cannot be taken till the expiration of six years from the date of return to duty from a former leave.

No officer confirmed in an appointment in which he may have been acting, or who may have been appointed to an office of higher emoluments than the one he had previously held, shall be allowed to retain the appointment, if proceeding to England on private affairs leave under Section XIV. within the period of one year from the date of his confirmation or promotion. Any case in which the Government may consider that there are just grounds for relaxation of the above rules will be treated exceptionally.

An officer absent on leave under Section XIV., should he not return on the expiration of such leave, but resign the service, cannot be allowed to draw any portion of his absentee allowance.

The Secretary of State for India will not accept a resignation from any Civil Servant whilst on leave on private affairs without ascertaining that there are no demands against him.

CHAPTER IV.

Furloughs on Private Affairs.

Section XV.—In the place of the period of three years (in one term) for which Furlough has hitherto been granted, Civil Servants will be allowed the option of taking a Furlough of three years as at present, or of dividing the Furlough into three periods of one year each, to be taken after successive periods of seven years' service, or into two periods, which may either be of one and two years respectively, or of eighteen months each, provided that in every case the Civil Servant shall declare, on taking his Furlough, whether he intends it to be for twelve, eighteen, twenty-four, or thirty-six months, in order that the Government may make its arrange-

ments accordingly. In case of a division into two periods, the first Furlough must be taken after a residence of not less than ten years, and the second Furlough after a further residence in India of ten years from the date of return from the first Furlough; but Civil Servants returning on Furlough to Europe will continue, as at present, to vacate their offices.

1. The above terms "seven years' service" and "residence in India" mean *service*. (Notifications of 23rd May and 16th October 1860.)

2. Civil Servants, who have had sick leave beyond sea, cannot take Furlough to Europe on private affairs until six years from the date of return to their duty from such sick leave. This rule, however, does not apply to short leave to sea on medical certificate, (page 1544 of the Bombay *Government Gazette* of 1856), nor does it interfere with Civil Servants having special leave under Section XIV. of the Absentee Rules, (page 1987 of the Bombay *Government Gazette* of 1856), but applies only to Furlough on private affairs. (Notification of 23rd May 1860), vide also Government of India's Notification, 19th June 1861, *Calcutta Gazette* page 1643.

3. An officer of the Department of Account taking Furlough to England, retains a lien on the appointment he holds at the time, and will be entitled to return to it on coming back to India. During such absence he will be entitled only to the usual Furlough allowance, leaving the whole salary of his appointment available for his locum tenens.

4. The two years passed at Haileybury are not allowed to count as actual residence in calculating the period after which an officer is entitled to Furlough.

Officers intending to take Furlough or to retire from the service will in future be required to continue to serve unless disabled by sickness for a period of three months. After return to duty from privilege leave under the Civil Absentee rules failing which its advantages will be forfeited.

5. The period of preparatory leave prior to Furlough on private affairs during which the Absentee shall be allowed a moiety of his allowance without limitation shall be governed by the rules applicable to similar leave in case of medical certificate (Clause 4 Sec. VI.) extending to 4, 6, or 8 weeks, according to circumstances, and a separate application for this leave must be submitted.

6. Officers stationed at the Presidency Town will be allowed preparatory leave for a period not exceeding one month.

7. The rule laid down in the two preceding articles is applicable also to officers retiring from the service, provided it can be granted without detriment to the Government service.

Section XVI.—The Furlough Allowance granted during the periods mentioned in the last Section will be at the rate of £500 per annum, and the receipt of it will not, on any grounds whatever, be permitted for any longer period than three years.

Section XVII.—Civil Servants who may have been compelled by sickness to quit their duty under medical certificate, before completing seven years' residence in India, will be entitled to receive, during their Furlough on private affairs taken subsequently to their completion of that period of residence, the ordinary Furlough Allowance of £500 per annum for three years.

Section XVIII. Clause 1.—In applying the foregoing Rules in substitution of those before existing, periods of absence to the limit of three years will count as service in India in the twenty-five years entitling to the Annuity, the present qualification of twenty-two years' residence being retained.

Clause 2.—Absence on medical certificate to the extent of one year will reckon as service and residence in India, and be so computed, in addition to the three years of absence which, under the Clause next preceding, are allowed to be reckoned as Indian service. All periods of short leave of absence on private affairs, taken under Section XII. will also count as service and residence.

Clause 3.—Civil Servants ordered out from England before the expiration of their Furlough consequent on the Mutiny in India of 1857, the time occupied in the journey to and from London (In the event of their wishing to avail themselves of the remainder of their Furlough) will count as service. (Government of India, 25th March 1859, *Calcutta Gazette*, page 638.)

Military Officers.

Section XIX.—Military Officers employed in the Civil Department will be subject to the Rules laid down in General Order No. 1150, dated 17th November 1854, for the grant of leave of absence and furlough to Officers holding Military Staff Appointments.

Military Officers in Civil employ abide by the Civil Absentee rules in respect to *privilege leave* (vide Section XII.), and is allowed the cumulative leave for two or three months, but that his allowance during his absence is to be regulated by the Military rules under which any expense incurred in providing for the performance of the duties of the absentee is made good by him. Military Officers get leave in continuation of three months privilege either on sick certificate or on private affairs, and receive during first two months full allowance (the expense incurred for the performance of his duties of course paid by himself), and afterwards the deduction in cases of sickness or private affairs will commence. CHAPTER V.

Rules for Joining Stations.

Section XX.—There shall be allowed to Officers appointed to any new office the periods of one month, two months, or three months, for joining, according as the distance may not exceed 300 or 600 miles, or be in excess of the last mentioned distance. Officers not joining their station within the said periods, respectively, shall forfeit their salary and Dewance or subsistance allowance for the time delayed in excess of the above periods; and if such excess shall exceed one month, the office shall be vacated unless otherwise especially ordered by Government.

NOTE.—The time allowed for joining is computed from the date of the Order reaching the Officer appointed.

1. An Officer transferred from one station to another whilst absent on leave is entitled unless he receives instructions to the contrary to joining time in addition to the period of his leave, and such time as well as his travelling allowance (if he is entiled to any under the rules) will be regulated by the distance from the old to his new station or from the place where he receives the order appointing him to his new station which ever in the case of joining time is the nearest to his new station and in the case of travelling allowance is least expensive to Government.

2. The time allowed for joining an appointment is computed from the date of order reaching the Officer appointed.

3. For the portion of the journey traversable by railway one hundred miles a day are allowed, for the portion traversable by steamer one hundred miles a day or the time actually occupied in the voyage. (Notification 16th April 1861, Bombay *Government Gazette* page 678.)

of the Post Office, the bill for which allowance will be passed by the Civil Auditor after the Officer shall have joined the station; if required in advance, an order of the Government shall be necessary.

1. An Officer attending an examination in the Vernacular languages has in no case a claim to travelling allowances unless he can produce a certificate of extraordinary proficiency.

2. Travelling allowance at the usual rate of eight annas per mile to be drawn by all Covenanted Civil Servants when transferred from one substantive appointment to another on the public service, but not by those who are removed from one place to another on promotion or at their own request.

3. Officers proceeding by Railway on the public service are entitled for such distance to travelling allowance at 3 annas per mile.

Section XXII.—The salary of the office will be payable from the date only of the Officer joining, but in case of Junior Civil Servants, the salary of Assistants will be payable from the date of their being reported qualified for the public service, unless forfeited under the preceding Rule through delay in joining the Station to which they may be appointed.

The Rule of June 1841 is not superseded by this Section; *i. e.*, a Civilian on the Out-of-employ List is entitled to salary from date of appointment, if not coming under forfeiture for late joining. (Notification of 23rd May 1860, Bombay *Government Gazette* page 658.)

Section XXIII.—In case of a change of office, when an Officer is appointed to a higher situation, he shall not draw the higher salary until he joins. For the period occupied in travelling, the Rule No. XX., regulating the time and distance for joining station, shall be applicable; and the Officer will, for the periods allowed in that Rule, respectively, draw out of the salary of the office he is about to join a sum equal to that of the previous situation.

CHAPTER VI.

Rules for Deputation Allowances.

Section XXIV.—The sum of Company's Rupees 52,200 per annum having been fixed, under the orders of the Court of Directors, as the maximum salary of Civil office for the offices of Government under the situation of Member of Council, Civil Servants who may draw larger allowances than this annual sum, as a consolidated personal and sumptuary allowance, in consideration of the necessary expenses of their position, will, in all cases of absence, be treated in respect to deductions as drawing only the allowance thus limited; and the excess above the monthly salary yielded by that annual sum shall remain as a local addition to the usual Deputation Allowance to be drawn by the Officer performing the duties, to meet the necessary expenses of his position; provided, however, that in the cases of Civil Servants appointed to offices of the description referred to subsequent to the 2nd June 1854, the sum of Rupees 50,000 shall be held to be the maximum salary, under the Government Resolution No. 563 of that date.

NOTE.—This rule will equally apply in case of a Political Resident taking a leave of one, two, or three months, for which in other cases he would suffer no deduction. The excess about the maximum monthly salary will in that case be enjoyed by the person in charge.

Section XXV.—Deputation Allowances shall be granted to Civil Servants temporarily performing the duties of an office according to

the following rates, and subject to the limitations and conditions hereinafter laid down:—

1. To Civil Servants not holding any substantive appointment, at the rate of 50 per cent. on the monthly salary of the appointment officiated in, such Deputation Allowance being in addition to the Subsistence Allowance of their respective ranks.

2. To Civil Servants holding an office of inferior emolument, when officiating in an office of superior emolument, at the rate of 20 per cent. upon the monthly salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company's Rupees 2,000 per mensem; and in respect to all appointments of which the salary shall be more than Company's Rupees 2,000 per mensem, at the rate of 20 per cent. upon Company's Rupees 2,000 and of 10 per cent. on the amount in which the monthly salary may exceed Company's Rupees 2,000; provided, however, that no lower rate of Deputation Allowance shall be given than Rupees 200 per mensem.

3. The Deputation Allowance shall in all cases be in addition to the salary of the substantive appointment held by the Officer on Deputation.

4. The above rates are granted provisionally, subject to future revision.

5. In the Punjab, Nagpore, and other places where appointments are by classes, the amount of Deputation Allowances payable at the above rates will be calculated not upon the salary of the individual Officer holding the substantive appointment in which the Officer deputed may be temporarily officiating, but on the average rate of salary attached to the particular *class* to which the appointments may belong.

6. A Civil Servant acting for another shall have no claim to commission or fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the Officer to be relieved, subject to the prescribed deductions.

7. A Civil Servant acting in an appointment of the salary of which is to be reduced on the retirement of present incumbent, will draw Deputation Allowance on the reduced salary.

8. An Officer officiating in more than one appointment will be entitled to Deputation Allowance, regulated by the aggregate amount of the salary of the offices.

9. An Officer appointed permanently to a higher situation, but prevented from joining his appointment by an order of Government, and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation Allowance in addition to the higher salary to which he has been promoted.

10. Deputation Allowance is restricted to actual charge.

11. Officers in charge of the current duties of an office are to receive a moiety of the sum which is the regulated allowance for officiating in the appointment, provided it does not raise the total receipt of the officer beyond the salaries of his higher office.

12. An officer absent on privilege leave is clearly not entitled to acting allowances such being payable only for the period during which he is in the actual performance of duty.

Section XXVI.—No Civil Servant temporarily officiating for another shall draw an amount larger than the entire emoluments for the office

in which he is officiating; and if the amount of the Deputation Allowance, according to the prescribed scale, added to the permanent emoluments of the officiating Servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any Officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an Officer, holding two appointments, on being deputed to officiate for another, shall be relieved only from one, he shall receive no Deputation Allowance, unless the emoluments of the office in which he is deputed to act exceed the united emoluments of his permanent appointments, and in that case the Deputation Allowance shall be limited to the difference.

The deputation allowance of an Officer acting at one and the same time, in more than one appointment is calculated at the rate of 20 and 10 per cent on the aggregate amount of the salaries of the two appointments, provided the Deputation Allowance when added to the substantive salary of the acting Officer does not exceed the emoluments of the higher office in which he officiates.

Section XXVII.—No subordinate Officer acting for his principal or for any other person holding a superior appointment, in the same office or establishment, at the same Station, shall be entitled to any Deputation Allowance until after the expiration of one month, and then the allowance is not to be drawn in arrears. But a Servant previously out of employment, or who may be deputed to act from a different Station, shall be entitled to Deputation Allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

1. A subordinate officer, who has acted in any appointment on two occasions within a brief period say 12 months, is permitted to draw acting allowance from the beginning.
2. A subordinate officer, acting in a superior appointment taking privilege leave after first month, the next officer who is also a subordinate required to act for another month again without officiating allowance, as the provision of Section XXVII. of the rules refer not to a superior Officer, but to a superior office in the same station and therefore no subordinate is entitled to draw any acting allowance until he himself has acted for one month.
3. When a Covenanted Officer officiates for an Uncovenanted Officer, or Military and Medical Officers in Civil employ absent on sick leave, the Deputation Allowance shall be regulated on the same principle as if the absentee were a Civil Servant.

Section XXVIII.—Civil Servants, if deputed to act at a distance from the Stations where they are employed, or if ordered by Government on special duty, shall be permitted to draw Travelling Allowances at the rate sanctioned in the case of a first appointment.

An officer deputed to act in an appointment while on leave of absence is entitled to travelling allowance: distance to be computed from the Substantive Station of the person deputed or from the place where he receives the order whichever may be the least expensive to Government.

CHAPTER VII.

Rules for Limiting the Period of Service.

Section XXIX.—After thirty-five years' service no Civil Servant shall be appointed to any new office, nor be permitted to retain an

office which he has held for a period of five years and upwards, except in special cases, which are to be referred to the decision of the Home Government. This Rule will be applicable to every Civil Servant appointed to office after its promulgation, and to the case of every other Civil Servant to whom it relates at the close of five years from the 25th August 1854.

CHAPTER VIII.

Rules for the Grant of Leave of Absence to Law Officers.

Section XXX.—Law Officers may obtain sick leave, and short leave on private affairs, under the conditions prescribed in the case of Civil Servants, both as respects the periods of absence and the limitation of Allowances during such absence. Leave will, however, only be granted at the convenience of the Government, and no additional expense will on any consideration be incurred by the Government on account thereof.

If any Law Officer shall quit his duty, save on leave under medical certificate or on short leave on private affairs, he will be considered to have vacated his appointment.

The foregoing rules are made applicable to Administrator General.

CHAPTER IX.

Rules for Chaplains and Assistant Chaplains.

Section XXXI.—Chaplains and Assistant Chaplains may take furlough on private affairs and on medical certificate; also privilege leave and leave for short periods on private affairs and on medical certificate in or out of India, on the same terms and conditions, as Military Officers, with the following modifications :—

1*st.*—Chaplains being allowed to retire after twenty years' service, the period of Furlough on private affairs is in their case limited to the present term of three years. The Furlough may, however, either be taken in one period or be divided into two periods, whether of eighteen months each, or of two years and one year respectively, and if divided, the first Furlough may be taken, as at present, after seven years' residence, and the second Furlough after a further residence of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854, when the period of service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2*ndly.*—No Furlough or leave of absence, whether on private affairs or on sick certificate, taken in Europe or elsewhere out of India in excess of three years, will be allowed to count as service in India in the twenty years which qualifies Chaplains for their Retiring Pensions.

The new Rules not to have retrospective effect so as to deprive Chaplains of the privilege of counting as service leave already taken under the Old Rules. (Para. 3 of the Honorable Court's Despatch No. 21, of 5th March 1856.)

Section XXXII.—The Furlough Pay of Chaplains will remain as at present. With regard to their Allowance during sick leave to any place out of India, they shall receive salary (but at a rate not exceeding £600 per annum) for the first six months of* absence, and, for the remaining twelve months, an Allowance equal to the Furlough Pay of

their standing. If the leave be extended, an Allowance equal to Furlough Pay may be drawn for a further period of eighteen months.

Chaplains and Assistant Chaplains may be granted leave of absence in India on medical certificate to the extent of one year on their full salaries, subject to a deduction of one-third, but not to reduce the salary below Rs. 500. (Para 4 of the Honorable Court's Despatch No. 21, of 5th March 1856.)

Chaplains and Assistant Chaplains may have privilege leave once in every five months, and be allowed accumulated privilege leave to the extent of three months after fifteen months' continuous duty. (Notification of the Government of India, 18th September 1857.)

Chaplains and Assistant Chaplains granted sick leave to Europe or beyond sea, to receive salary at the rate of Rs. 500 for the first six months, and their Furlough Pay for the remainder of their leave. (Para. 4 of the Honorable Court's Despatch No. 78, of 5th September 1855.)

Leave under Section XII. cannot be granted preparatory to Furlough or retirement from the Service ; and to have the benefit of its advantages the party must continue to serve, unless disabled by sickness, for three months from the date of his return from privilege leave. (Notification of the Government of India, 19th September 1856.) Preparatory leave may, however, be granted on half salary under the same Notification. (Declared applicable to Chaplains and Assistant Chaplains by Government Letters No. 1, of 3rd January, and No. 87, of 5th March 1857.

Chaplains and Assistant Chaplains, during leave preparatory to proceeding on Medical leave out of India, are entitled to Rs. 416-10-8 per month.

Chaplains and Assistant Chaplains, on returning from Furlough to Europe, are entitled to the pay of their respective ranks from the date of their return.

Chaplains of the Church of Scotland are under the same rules as Ecclesiastical Officers on the Establishment of the Church of England in respect to Absenteeism and Absentee Allowance whether in or out of India.

Rule Regarding Deputation Allowance to Officers of General Department of Account.

Under the Financial Resolution of the 13th May 1862 Covenanted Officers who entered the General Department of Account before that date are allowed to retain their privileges, and therefore when such Covenanted Officers are appointed to act for other Covenanted Officers in the Department they are entitled to draw Deputation Allowances on the same term as those allowed to Covenanted Officers in other branches of the service. But this rule cannot be held to apply to Covenanted Officers entering the Financial Department after that date nor does it seem proper to preserve a separate rule for calculating the Acting allowances of Uncovenanted Officers in the Department as by the resolution above mentioned all distinction between the Covenanted and Uncovenanted Service was abolished.

1. No Officer will receive any Deputation Allowance for officiating for another Officer in the same class as himself.

2. An Officer appointed to officiate for another Officer in a higher class than his own will draw, irrespective of any saving from the salary of the appointment in which he officiates the full

salary of his own appointment with an additional allowance at the rate of 20 per cent. on the mean between the minimum and maximum salary of the class in which he officiates ; provided the total allowance to be so drawn shall not exceed the minimum salary of such higher class.

3. When the Officer thus appointed to act is in the receipt of the maximum salary of his own class, he will receive no additional allowance on his first appointment to act, inasmuch as the maximum salary of any class is always the same as minimum of that immediately above it, but he will be eligible, whilst officiating to the yearly increase of salary allowed to those permanently appointed to the higher class.

4. An Officer officiating at the same station for an officer of a higher class than his own, will not be entitled to any Deputation Allowance during the first month he may thus officiate according to the Covenanted Civil Service rules.

5. Any person, holding a substantive appointment in another Department of the Government service and officiating for an Officer of the Financial Department, will draw salary and acting allowances at the rates prescribed in rule 2.

6. Any person, not holding a substantive appointment in the Public service and officiating in the Financial Department, will receive at the rate of 50 per cent. on the mean between the maximum, and the minimum salary of the class to which he is appointed.

7. An Officer, officiating in the Financial Department of Account in an appointment of which the permanent incumbent has applied for Furlough, will be entitled to the full salary from the date of embarkation of the absentee. (Government of India, dated 9th January 1860.)

RULES REGARDING LEAVE OF ABSENCE TO THE CHIEF JUSTICE AND JUDGES OF THE HIGH COURT OF JUDICATURE FOR THE PRESIDENCY OF BOMBAY. *Bombay Government Gazette* 16th April 1863, page 741.

1. A Furlough for the period of one year with an allowance of £1,000 payable by quarterly payments shall be allowed to the Chief Justice and to each Puisne Judge of the High Court after seven years actual service as Chief Judge or Chief Justice and Judge or Judge of the said Court.

2. The Furlough granted under these rules to a Judge selected from the Covenanted Civil Service shall be exclusive of the Furlough to which such Judge is entitled under the rules applicable to Furloughs allowed to members of such service.

3. If a Judge of the High Court selected from the Covenanted Civil Service who has not taken his Furlough under the rules applicable to his branch of the service before his appointment to the High Court shall take such Furlough within one year after the expiration of his Furlough under these rules, the Furlough taken by him as Judge of the High Court shall be reckoned as so much time of his Furlough under the rules applicable to the Covenanted Service, and the amount drawn by him shall be adjusted with reference to such rules by deductions from the allowances payable to him as a Civil Servant on Furlough.

4. A Chief Justice or Puisne Judge during his absence on Furlough shall retain his Office but such Furlough shall not be reckoned as actual service in calculating the period of service entitling the Chief Justice or Puisne Judge to a pension.

5. Leave may be granted by the Governor General in Council to the Chief Justice or any Puisne Judge of the High Court who may not be a member of the Covenanted Civil Service, under Medical Certificate, once during the term of his service, either for a period of six months on half salary payable on return and resumption of his duties, or for a period of 15 months on an allowance of £1,000 per annum. Such Chief Justice or Puisne Judge during his absence shall retain his office, but if his absence shall under any circumstances exceed fifteen months, his office shall be vacated.

6. If any Judge of the High Court who has taken leave of absence under the foregoing rule for a period of six months shall desire to extend his absence beyond such period, he shall be permitted to do so under due Medical Certificate, his allowance for the entire period of absence being calculated at the rate of £1,000 per annum.

7. Leave of absence under Medical Certificate to Judges of the High Court, who are members of the Covenanted Civil Service, will be regulated by the rules for sick leave applicable to the Civil Service generally.

8. No more than six months of the leave granted under Medical Certificate shall be reckoned as actual service in calculating the period of service entitling the Chief Justice or Puisne Judge to a pension.

9. Short leave on private affairs may be granted to the Judges of the High Court under the rules applicable to Government Civil Servants.

UNCOVENANTED SERVICE ABSENTEE AND PENSION RULES.

Fort William, the 8th June 1863.

Extract from the Proceedings of the Government of India, in the Financial Department, under date the 8th June 1863.

Read the following papers regarding rules for Leave of Absence and Pensions, to Uncovenanted Servants :—

A Memorial on the subject from Uncovenanted Servants in the three Presidencies.

Letter from the Supreme Government to the Right Hon'ble the Secretary of State for India, No. 42 of 15th June 1861, forwarding the above Memorial, and one from Officers of the Educational Department in Bengal, with other correspondence, regarding Pension Rules for Educational officers.

Financial Letter from the Right Hon'ble the Secretary of State, No. 205 of 8th December 1862.

Ordered, that an extract, paragraphs 1 to 18 of the Despatch of the Secretary of State, be published in the *Calcutta Gazette* for general information, and for the guidance of the several Departments of the Supreme Government, of the Local Governments and Administrations, and of all Officers and Departments concerned.

Extract (Paragraphs 1 to 18) from a Financial Despatch from the Right Hon'ble the Secretary of State for India, to the Right Hon'ble the Governor General of India in Council, No. 205 of 1862, dated the 8th December.

I have considered in Council the Memorial from the Uncovenanted Servants of the several Governments in India, praying for modifications in the existing Rules which govern the grant to them of pensions and leave of absence, together with your public letters, dated the 8th and 15th June 1861, Nos. 37 and 42; 6th August 1861, No. 56, and your Financial letter, dated the 4th August 1862, No. 110, on the same subject.

2. The great body of the Uncovenanted Servants of India have always been Natives; and it has been the just and wise policy of the Government to employ, as largely as they could with advantage, the Natives of India in the administration of their own country. It is still the desire and intention of Her Majesty's Government that whilst, to a certain extent, European agency beyond the Covenanted Servants must always be employed, in various situations, Natives of India should constitute the great majority of the Uncovenanted Servants in India.

3. Your Government points out the impossibility of making any distinction between Europeans and Natives. In that opinion I entirely concur, and whilst, therefore, I cannot but admit that there are differences of various kinds in the circumstances of persons of the different races who are employed in the Uncovenanted Service of India, it appears to Her Majesty's Government to be indispensable that the Rules to be laid down should be such as are applicable to the whole of that body, of whom the great majority are, and must always be, of Native race and of Native habits.

4. I think there is, however, sufficient ground for an exception as regards Educational Officers, and Law Officers, and Native Judges. In those cases a previous course of study, and in many instances, practical experience is required, and there is consequently reason for making a distinction in regard to that class of servants whose claims will, therefore, be separately considered.

5. I now proceed to convey to you the decision of Her Majesty's Government as to the general body of Uncovenanted Servants.

6. It has been decided that no Uncovenanted Servant shall in future be allowed to count for pension any period of service antecedent to his having attained the age of 22 years, and in calculating the period of service required by this Despatch as a qualification for pension, the period must be reckoned from that age.

7. The allowances to be granted to Uncovenanted Servants on retirement are in future to be as follow, *viz.*—

On production of such Medical Certificates as shall satisfy the Government, under which the applicant may be serving, of his incapacity to serve longer in India :

1. Under fifteen years' service,—a gratuity not exceeding twelve months' salary.
2. After fifteen years' service,—one-third of his salary, (and of his personal allowance, if any,) provided that in no case shall a pension be granted exceeding the sum of Rupees 3,000 per annum, whatever the amount of salary, nor of Rupees 2,000 per annum, if the salary shall not exceed Rupees 12,000 per annum.
3. After twenty-five years' service,—one-half of his average salary, (and of his personal allowance, if any,) during the previous five years, provided, however, that in no case shall a pension be granted exceeding Rupees 5,000 per annum, whatever the amount of salary, nor exceeding Rupees 4,000 per annum, if the salary shall not exceed Rupees 12,000 per annum.

After thirty years' service, or upwards, a pension may be granted, without production of Medical Certificate, of the same amount and subject to the same limitation as that sanctioned for twenty-five years' service on Medical Certificate.

8. The period of service which is to be admitted in considering a claim to pension must be continuous ; but in case of the abolition of the office held by an Uncovenanted Servant, and his being subsequently employed by Government, his first period of service is to be taken into account.

9. Pensions of the full amount stated are to be granted only as the reward of approved service. In any case in which an Uncovenanted Servant, without having incurred the penalty of removal from Government employ, shall nevertheless, in the opinion of the Government under which he has been serving, not be entitled to the full amount of pension, the Local Government will make such a reduction in the amount of pension as it shall consider just.

10. These pensions have hitherto been payable only in India. As a rule, Europeans on being pensioned desire to return to this country, and they are consequently under the necessity of employing an agent in India to receive and remit their pensions. If the pensions are allowed to be paid in England, the delay, and inconvenience of agency will be saved, while the charge to Government would be very incon-

siderable. Her Majesty's Government have therefore decided that each Uncovenanted Servant shall, on retirement, have the option of drawing his pension either in India or from the Home Treasury. After exercising his option on retirement, he may, at a subsequent period, change the place of payment from England to India, or vice versa. This change can, however, be allowed but once.

11. The rate of exchange is an important consideration in regard to payment in England. Her Majesty's Government will not now fix any permanent rate for the purpose, but as a rate of exchange, based on the intrinsic value of the rupee, and the market price of bills, is annually fixed in communication with the Lords of the Treasury for the adjustment of transactions between the British and Indian Exchequers, which rate is applied to family remittances of officers serving in India, the same rate appears to be equitable for the payment in England of the pensions of Uncovenanted Servants and is therefore to be adopted.

12. I am desirous of being furnished with a list of the Uncovenanted Servants who are entitled to the benefit of the Pension Rules; and it must be understood that it is not now intended to grant the benefit of those Rules to any of the lower grades of servants who are not at present entitled to pension.

13. An Uncovenanted Servant may, under the existing Rules, be granted, on sufficient cause being shewn, leave on private affairs for six months in one period, retaining his office with half salary up to 600*l.* per annum, which is the maximum amount allowed to be drawn. This leave may be repeated after intervals of six years, and is allowed to count for pension. Leave of this description may still be granted, but the period of absence will not be allowed to count for pension, and the option may be given to Uncovenanted Servants of taking in lieu of the above leave a furlough for one year after ten years' residence, and a second furlough also for one year after eighteen years' residence in India, such absence being limited to two years during the whole period of service. For such periods an absentee, whose salary does not exceed Rupees 200 per mensem, may be allowed to draw one-half salary provided, however, that it shall not exceed Rupees 800 or 80*l.* per annum. If the absentee's salary shall be

Above Rupees 200, and not exceeding Rupees 400 per month, he may be granted an allowance of Rupees 1,300 or 130*l.* per annum.
Above Rupees 400, and not exceeding Rupees 700 per month, he may be granted an allowance of Rupees 2,000 or 200*l.* per annum.
Above Rupees 700, and not exceeding Rupees 1,200 per month, he may be granted an allowance of Rupees 3,000 or 300*l.* per annum.
Above Rupees 1,200, per month, he may be granted an allowance of Rupees 4,000 or 400*l.* per annum.

On taking leave on private affairs for the first time after the publication of the new Rules, an Uncovenanted Servant must decide whether he will apply for six months' leave on private affairs, or for one year's furlough, and having once exercised his option and obtained leave accordingly, he will not, during the remainder of his service, be eligible to the other description of leave.

14. In regard to absence on Medical Certificate, an Uncovenanted Servant, under the existing Rules, may be granted leave of absence for three years during the whole period of his service, of which two may be continuous, and two only can be counted as service qualifying for pension. For one year of the entire period, the absentee may draw

half, and during the remainder, one-third of his allowances, limited, however, to 600*l.* per annum.

15. Instead of the period of leave now allowed, Her Majesty's Government authorize the grant of leave of absence, on Medical Certificate, with allowances, to the extent of three years, in two periods, of which not more than two years may be taken at one time.

16. For the first fifteen months of each period, the absentee may be allowed one half-salary, provided that it shall in no case exceed 600*l.* per annum; and for the remainder of his absence, within the prescribed limit, he may be allowed one-fourth of his salary, limited to 300*l.* per annum.

17. If any further leave should be applied for on Medical Certificate, it may be granted as exceptional leave but without any allowance.

18. These periods of absence on Furlough and Medical Certificate are not to count for pension; but privilege leave in India may be allowed for one month in each year, which is not, however, to accumulate, and the grant of which must be always subject to the condition that no inconvenience or charge shall be caused to Government thereby; this privilege leave will count in the period of service qualifying for pension.

The following revised Rules for the grant of Leave of Absence to Uncovenanted Civil Servants are published by order of His Honor the President in Council for general information and guidance:—

LEAVE OF ABSENCE TO UNCOVENANTED SERVANTS.

These Rules are applicable to all Officers of the Uncovenanted Civil Service receiving salaries of not less than Rupees 100 a month, whether they receive their appointments direct from Government or from Heads of Offices and Departments.

The following are the kinds of leave allowed:—

I. Leave on Medical Certificate.
II. Leave on Private Affairs and Furlough.
III. Privilege Leave.
IV. Preparatory or Additional Leave.

The above rules for the grant of leave of absence to Uncovenanted Servants to be applied in their spirit to servants drawing less than 100 Rupees a month. It being understood that in regulating the absentee allowance to an amount not exceeding that authorized by the rules a sufficient sum will be reserved for the provision in each case of an efficient substitute for the absentee—*Calcutta Gazette* page 2275, dated 12th August 1863.

General Rules.

1. All applications for leave must be made publicly, through the regular channel, in the Department to which the applicant belongs.

2. Officers appointed by Government can obtain privilege leave from the Heads of their respective Departments when the latter are duly authorised to exercise this power. But in other cases leave must be granted by the Government.

3. Officers appointed by Heads of Offices and Departments can obtain any leave under these Rules without reference to Government;

but the Authorities granting such leave must furnish to the Civil or Military Audit Office which passes the Pay Bill of their Establishment a monthly Return of the leave granted by them according to the Form given in Appendix A.

4. Absence without leave will involve loss of salary and render the absentee liable to loss of appointment.

5. No leave of absence shall have retrospective effect, except in case of severe illness, to be attested by a Medical Certificate in the prescribed Form.

6. *Applications for Leave on Medical Certificate.*—Applications for Leave on Medical Certificate must be accompanied by a statement from the Medical man by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the disease, its symptoms, causes, and duration, so far as the knowledge of the Medical Officer extends, and by a Certificate from the chief Medical Officer of the Station or District, or, if at a Presidency Town, from a Presidency or other Official Surgeon, certifying, after careful personal investigation, the necessity for temporary removal, and the period for which absence is to the best of his judgment absolutely requisite for restoration to health. If the requisite leave be for a longer period than six months, the Certificate must be countersigned by the Superintending Surgeon of the Division in which the applicant may be employed. In cases of leave beyond sea, the Certificate must be also submitted, with the statement of the case, for the countersignature of the Principal Inspector-General of the Medical Department.

7. *Extension of Leave on Medical Certificate.*—An application for extension of leave must, if the applicant be in India, be accompanied by a Certificate to a like effect from the Medical Officer by whom the applicant is attended, together with a statement shewing sufficient reason for the extension solicited, and such Certificate must be countersigned by the Principal Inspector-General of the Medical Department, or by the Superintending Surgeon of the Division in which the applicant may be residing. If the applicant shall have proceeded beyond the territories under the Government of India, he must furnish a Certificate and Statement to the required effect from a Surgeon or Physician at the place of his temporary residence by whom he has been attended; such attendance, and the period of it, to be stated, and the Certificate to be countersigned, after *personal* examination, by the examining Physician of the India Office, if the absentee is in England,—or by the Principal Medical Authority of the Colony or country to which the absentee may have proceeded.

8. If any of the above particulars be neglected, or the omission of any one of them unsatisfactorily explained, the leave will be refused.

9. *Application for leave on Private Affairs.*—Leave on Private Affairs and Furlough will be granted by Government, or by authorised Officers, on sufficient cause being shewn, and when the concession of the indulgence may in no way interfere with the interest of the Public Service.

10. *Extension of Leave to date of arrival of vessel.*—When an Officer on leave in England is permitted by the Home Government to return to duty by a particular vessel, this permission, if necessary, will be held equivalent to an extension of leave until the arrival in India of the vessel on which the Officer is permitted to return.

11. *Leave on Medical Certificate.*—Leave on Medical Certificate, with allowances, is limited to the extent of three years in two periods, of which not more than two years may be taken at one time. Should any further leave be applied for on Medical Certificate, it may be granted, but without any allowance.

1st.—The leave of absence on Medical Certificate taken for short periods by Uncovenanted Officers within Indian limits, shall not bar a further leave of absence either in India or elsewhere; provided that the whole of the periods of absence shall not exceed three years during their entire service under Government. The allowances to be given during such medical leaves shall be regulated by the existing rules for sick leave, that is to say, half salary not exceeding £600 a year shall be given during the first 15 months taken from time to time and after the completion of 15 months one fourth of salary not exceeding £300 per annum for all other periods up to the limit of three years. Government of India, No. 3200 of 16th July 1863.—*Calcutta Gazette* page 2072.

12. *Leave on Private Affairs and Furlough.*—Leave on Private Affairs and Furlough, with retention of office, may be granted as follows :—

1*st.*—*Leave on Private Affairs ;*—for six months in one period, which leave may be repeated after intervals of six years.

2*nd.*—*Or* a FURLOUGH—for one year after ten years' service, and a second Furlough, also for one year, after eighteen years' service in India, such absence being limited to two years during the whole period of service.

13. On taking leave under the preceding Rule, for the first time, an Officer must decide whether he will apply for leave on Private Affairs, or for Furlough, and having once exercised his option and obtained leave accordingly, he will not, during the remainder of his service, be eligible to the other description of leave.

14. Furlough, and Leave on Private Affairs taken in India, will reckon from the date of leaving office to the date of return thereto. Furlough and Leave on Private Affairs, taken beyond India will reckon from the sailing of the vessel on which the Officer embarks to the date of his return to India.

15. Furlough or Leave on Private Affairs cannot be taken in continuation of privilege leave.

16. *Privilege Leave.*—Privilege leave when it can be granted without injury to the Public Service, and without additional expense to the State, may be allowed for not more than one month in each Calendar year, to be taken either in one period or in not more than two instalments. This leave is not allowed to accumulate, and will, therefore, lapse if not taken within the year.

17. Privilege leave for one month in each Calendar year may be allowed to Officers who have not been absent on leave for eleven months immediately preceding ; unless they took their last privilege leave in two instalments, in which case the indulgence will not be available until eleven months after the expiration of the first instalment, and six months after expiration of the second instalment of the previous year's privilege leave.

Officers who were entitled to cumulated privilege leave under the old rules when the new rules were issued, will be allowed two or three months leave in the same manner as if the old rules still remained in force, Government of India, No. 3478, dated 31st July 1863, *Calcutta Gazette* page 2191.

18. *Preparatory Leave.*—Preparatory or additional leave is allowed to Officers proceeding to or from a sanatarium on Medical Certificate, or to or from the port of embarkation from India to Europe on Private Affairs, Furlough, or Medical Certificate, and is limited to such period as the authority granting leave may think sufficient. Officers proceeding from Presidency Towns on sick leave beyond Sea will be allowed fourteen days for preparation.

19. Officers retiring from the Service on pension will be allowed fourteen days' leave on half pay, provided the indulgence can be given without detriment or extra expense to the Public Service.

Absentee Pay.

20. Absentee pay, if at half salary, shall in no case exceed Rupees 6,000 or £600 per annum,—or if at one-fourth salary, shall not exceed £300 per annum. Within these limitations absentee Pay will be given as follows :—

I. To an Officer absent on sick leave in or out of India—half salary for the first fifteen months of each period of absence, and one-fourth salary during the remainder of his absence on allowances.

II. To an Officer on leave on private affairs—one-half of his salary for a period not exceeding six months of continuous absence, and for any further period of preparatory leave which may be granted to him. But if an Officer absent on private affairs obtain an extension of leave on Medical Certificate, he will be subject for the whole period of his absence to the rules for sick leave.

III. To an Officer proceeding on furlough whose salary does not exceed Rupees 200 per month—one-half of his salary, provided, however, that it shall not exceed Rupees 800 or £80 per annum. If the absentee's salary shall be—

Above Rs. 200, and not exceeding Rs. 400 per month, he may be granted an annual allowance of Rs. 1,300 or £130.

Above Rs. 400, and not exceeding Rs. 700 per month, he may be granted an annual allowance of Rs. 2,000 or £200.

Above Rs. 700 and not exceeding Rs. 1,200 per month, he may be granted an annual allowance of Rs. 3,000 or £300.

Above Rs. 1,200 per month he may be granted an annual allowance of Rs. 4,000 or £400.

IV. To an Officer on preparatory leave—one-half salary before commencement of other leave, and—on return from leave—one-half or one-fourth salary, or furlough pay, according to the rate of salary he may be then drawing.

V. To an Officer on privilege leave—full pay.

21. An Officer who overstays privilege leave by not more than one month will forfeit pay for the period in excess, but if he exceed his leave by more than one month his office will become vacant. An Officer on privilege leave who may resign the service, or who may obtain sick leave without first rejoining, will in the former case, forfeit his salary for the period of privilege leave, and in the latter case be subject to the Rules for sick leave for the whole period of his absence.

Rules for joining Office.

Time allowed for joining an appointment will be fixed by the Authority conferring the appointment.

An Officer entering the service of the Government is not entitled to any salary before joining his appointment, but when transferred from one appointment to another of equal or higher value, he will draw so much of the salary of his new office as may be equal to that of his former appointment.

Payments of Absentee Allowances.

22. Officers absent on privilege leave cannot draw pay until their return to duty.

23. Officers proceeding to England on Furlough, or on Private Affairs, or on Medical Certificate, must obtain Certificates from the Civil Pay-Master, in the Form given below, for submission to the India Office on their arrival in London :—

Name, service, and designation of the party obtaining leave.	Salary of substantive office.	Nature and period of the leave.	Date of intended departure of vessel from Calcutta or other Port.	Rate of allowance to be drawn in England or not.	Date from which the first payment is to commence.
				In England. In Calcutta.	

24. But if they desire to draw their allowances through their Agents in India, the latter must execute a guarantee to refund over payments. When Officers remain in India and draw their allowances themselves, and attach to their Bills life Certificates attested by a Deputy Magistrate or a Covenanted District Officer, they will not be required to furnish any security.

Applications for pension must be submitted in a letter to Government by the Head of the Office or Department in which the applicant may be employed, who shall certify that the character, conduct, and past service of the applicant are such as to entitle him to the favorable consideration of Government.

2. Every application shall be accompanied by a Register prepared according to Form A. in the Appendix. In cases of other than a Good Service Pension every application shall be accompanied by a Medical Certificate, stating the applicant's incapacity for further service, with the cause thereof, and that it has not been induced by irregular or intemperate habits. An accurate statement of all the leaves other than privilege and preparatory leave obtained by the applicant during the entire period of service should also accompany the application for pension. Government of India, 25th August 1863. No. 4068.

3. Applicants for a Superannuation Allowance must be examined by the Principal Inspector-General of the Medical Department, if serving at the Presidency, or by a Military Invaliding Committee, if serving elsewhere within a moderate distance of a Station at which a Military Invaliding Committee is periodically assembled. It is optional, however, with the Local Government to accept the Certificate of a single Medical Officer, or to convene a Special Invaliding Committee at a convenient Civil Station, if the applicant be serving at an inconvenient distance from a Station where a Military Invaliding Committee can be assembled.

4. Good Service and Superannuation Allowances on retirement, sanctioned under these Rules by the Local Governments, will be reported to the Government of India in Quarterly Returns in the Form given in Appendix B.

Allowances on Retirement.

5. On production by an applicant of such Medical Certificates as shall satisfy the Government, under which he may be serving, of his incapacity to serve longer in India, he will be allowed—

I. Under fifteen years' service, a gratuity not exceeding twelve months' salary.

This rule is applicable only to servants in grades eligible to pensions at the rate of one month's pay for each entire or complete year of service up to the maximum of 12 months' pay without any allowance for fractions of a year. To persons belonging to the grades which do not qualify for pension the old rules dated 6th June 1862.—*Bombay Government Gazette*, page 46, for awarding gratuities are still applicable.

II. After fifteen years' service, one-third of his average salary, (and of his personal allowance, if any,) during the previous five years, provided that in no case shall a pension be granted exceeding the sum of Rupees 3,000 per annum, whatever the amount of salary, nor of Rupees 2,000 per annum, if the salary shall not exceed Rupees 12,000 per annum.

III. After twenty-five years' service, one-half of his average salary, (and of his personal allowance, if any,) during the previous five years, provided, however, that in no case shall a pension be granted exceeding Rupees 5,000 per annum, whatever the amount of salary, nor exceeding Rupees 4,000 per annum, if the salary shall not exceed Rupees 12,000 per annum.

6. After thirty years' service or upwards a pension may be granted without production of Medical Certificate, of the same amount and subject to the same limitation as that sanctioned for twenty-five years' service on Medical Certificate. This pension, as the reward of faithful, efficient discharge of duty for thirty years, is termed a Good Service Pension.

7. Pensions of the full amount authorized in paragraphs 5 and 6 are to be granted only as the reward of approved service. In any case in which an Uncovenanted Servant, without having incurred the penalty of removal from Government employ, shall, nevertheless, in the opinion of the Government under which he has been serving not be entitled to the full amount of pension, the Local Government will make such a reduction in the amount of pension as it shall consider just.

8. The foregoing rates of pension and gratuity are applicable also, without the production of a Medical Certificate of unfitness for service, to Officers discharged on reduction of Establishment.

Service towards Pension.

9. Dismissal for misconduct entails forfeiture of the benefit of past service.

10. Service as a substitute does not count towards pension.

European non-commissioned officers or soldiers who take their discharge for the purpose of entering the Police are not allowed to count even half of their military service towards pension under the Uncovenanted Service Rules. Government of India, No. 898 of 31st August 1863.

11. Periods of service before the age of 22, or of absence on other than privilege leave and preparatory leave, shall not count towards pension.

The rule, disallowing from the calculation the service rendered before the age of 22, need not be enforced as regards gratuities but period of absence on leave other than privilege and preparatory leaves should be thrown out of the calculation of service equally as in the case of pension.

12. The whole of the service, in virtue of which pension is claimed, must have been passed in an eligible grade and on a permanent Establishment; but claims barred by this Rule will be specially considered if the promotion from an ineligible grade was bestowed as a reward for meritorious service or for good conduct.

13. The period of service must be continuous, but in case of abolition of the office held by an Officer, and his being subsequently employed by Government, his first period of service is to be taken into account.

Gratuities.

14. When an Officer is discharged with a gratuity under these Rules on reduction of Establishment, the gratuity will not be given to him in one sum, but in monthly instalments of a month's pay until the full amount is exhausted. Should he be re-employed before or after the period for which gratuity is allowed, he will have the option of refunding the gratuity and recovering his former service, or of forfeiting that service by retaining the gratuity. In the latter case, any balance of gratuity remaining undrawn at the date of his re-employment may be paid to him.

Payment of Pensions.

15. Payment of pension will commence from the date on which the applicant ceases to be borne on the Establishment, or from that of his application, whichever may be the later date.

16. No pension shall be payable in arrear, for a period exceeding six months, without the express sanction of the Government obtained through the Civil Pay-Master unless the cause of the suspension of payment shall have been the neglect, order, or act of some public Officer and beyond the control of the Pensioner, when the Civil-Paymaster, on a reference being made to him, shall exercise his discretion in passing arrears for payment, or submit a representation of the case for the information and orders of Government, as he shall consider proper.

18. An Officer shall, on retirement, have the option of drawing his pension either in India or from the Home Treasury. After exercising his option on retirement, he may at a subsequent period, change the place of payment from England to India, or *vice versa*. This change can, however, be allowed but once. The payments in England will be made at the rate of exchange which is annually fixed in communication with the Lords of the Treasury for the adjustment of transactions between the British and Indian Exchequers.

Extract from the Proceedings of the Government of India, in the Financial Department, under date the 8th June 1863.

READ letter No. 111 of 6th August 1862, to the Right Hon'ble the Secretary of State, regarding the limitation to 500*l.* per annum of the maximum pension to Uncovenanted Officers.

Read reply thereto in paragraphs 19 to 24 of the Despatch from the Secretary of State, No. 205, dated 8th December 1862.

ORDERED, that the foregoing correspondence be published for general information :—

FINANCIAL DEPARTMENT.

TO THE RIGHT HON'BLE SIR C. WOOD, BART., M.P.,
Secretary of State for India.
Fort William, the 6th August 1862.

SIR,—The Rules of the 4th January 1831, regarding the grant of pensions to Uncovenanted Servants, restrict the amount of pension to half salary for those who have served for thirty years or more (except as regards Law Officers and Native Judges, in whose case twenty-two years' service is sufficient) and to one-third for those who have served for a shorter period not less than twenty years (fifteen years being substituted for twenty in the case of Law Officers and Native Judges).

2. Referring, however, to the extension of the service and the alteration in the prospects of its members since the Rules were passed, the late Court of Directors decided, in their Despatch No. 21, dated

the 28th February 1855, that 500*l.* per annum should be the maximum pension to be granted to Uncovenanted Officers "hereafter appointed to the Service." Accordingly, as respects all Unconvenanted Officers who entered the Service prior to that date, the Rules of 4th January 1831 continue to be applied, and with reference to the continually increasing number of highly paid appointments which are now thrown open to Uncovenanted Servants, the Government of Bombay, anticipating that the State will become saddled with large pensions payable on their retirement from the Service, have addressed us proposing that "before any Uncovenanted Servant who shall have entered the Service before the 19th May* 1855 is promoted to an appointment the salary of which is Rupees 10,000 per annum and upwards, he shall be called upon to renounce formally any claim to pension beyond the sum of 500*l.* per annum."

3. The restriction proposed by the Bombay Government is in itself quite reasonable, and the only doubt we find regarding it is, whether it is the proper way of attaining the object in view.

4. The Uncovenanted Service, it seems to us, cannot claim to have any rights under the Rules of 1831 beyond what may be considered to arise out of the general pledge which those Rules may be taken to give, that a member of that service when rendered incapable of further duty shall not be discharged without *some* pensionary support. As regards the *amount* of pension to be given, the Rules merely fix a limit which is not to be exceeded; and although it has, with rare exceptions been the practice to allow the highest pension of which the Rules allow, this practice cannot be admitted to confer on the Uncovenanted Service any right to claim that maximum in all cases without any regard whatever to the original design and scope of the Rule.

5. The Rules of 1831 were obviously not framed with a view to the duties and emoluments of the high offices which are now bestowed on the Uncovenanted Service.

6. Apart from any question of construction of the Rules as they stand, we see no ground for holding that the Government in passing the Rules of 1831 pledged the State to allow pensions on the scale, and according to the conditions therein prescribed, to all Uncovenanted Servants who were at that time in the Public Service, or who might enter the Service while the Rules yet remained in force.

7. It appears to us that it was always open to the Government to modify these Rules whenever it might in good faith consider that the public interests called for their modification; and when it appeared that the circumstance of the Uncovenanted Service were becoming rapidly changed, and that the Rules which were framed chiefly in reference to Natives of India, among whom at that time it is probable that no salary higher than 500 or 600 Rupees a month would have been found, were claimed as applicable to a class of appointments for which they never were meant to provide, we consider that the Government would have been perfectly justified in framing new Rules and making them applicable to all classes of appointments which were plainly not included within the original intention of the Rules of 1831.

---

* The date of the orders of the Government of India, notifying the decision of the Court of Directors in their Despatch No. 21 of 1855.

This would have been a direct, and, in our judgment, a very legitimate way of attaining the object, which it is now proposed to attain by the somewhat doubtful proceeding of refusing promotion to a deserving Officer, unless he will consent to abandon that to which, it is assumed, he has a right under the existing Rules.

8. We incline to think, notwithstanding the difficulty which is undoubtedly caused by the Proceedings of 1855, referred to in the second paragraph of this letter, that even now it will be better that the Government should assert its right to alter the Rules of 1831, as regards all appointments clearly not embraced by the original intention of those Rules, and to declare such alteration applicable to all Uncovenanted Servants whether they entered the Public Service before 1855 or since.

9. But if this be done it may be right, perhaps, having regard to the expectations which must naturally have been created by the order of 1855, to allow the full advantages of the Rules of 1831, with respect to all appointments *made up to the present time* and held by Officers who entered the Public Service before 1855. Thus, such an Officer already holding an appointment of Rupees 1,500 a month will, on superannuation after twenty-two or thirty years' service, according to the class of appointment, be able to claim a pension up to 900*l.* a year; but he will not, if hereafter promoted to higher emoluments, be able to claim a still larger pension calculated on those higher emoluments.

10. The distinction which will thus be made between persons (all having entered the Public Service before 1855) who have already obtained promotion to high and lucrative employment, and those who are yet looking for such promotion, may possibly appear unreasonable and invidious, but it will not really affect the latter class more injuriously than will the proposal submitted by the Government of Bombay, and it is a course which, on the whole, seems to us less open to objection than the Bombay plan.

11. We request the favor of an early decision upon this reference. —We have, &c.,

Fort William, 6th August 1862.

Extract (Paragraphs 19 to 24) from a Financial Despatch from the Right Hon'ble the Secretary of State for India, to the Right Hon'ble the Governor General of India in Council, No. 205 of 1862, dated the 8th December.

PARA. 19.—I have also had under consideration your Financial Letter, dated the 6th August 1862, No. 111, in which you refer to a proposition made by the Government of Bombay in reference to the restriction on the maximum amount of pension prescribed in the Financial Despatch of the Court of Directors to the Government of India, dated the 28th February 1855, No. 21.

20. That Despatch fixed the sum of 500*l.* as the maximum pension to be granted to "Uncovenanted Servants hereafter appointed to the Service." The Government of Bombay consider that it would be

expedient to require any Uncovenanted Servant, who entered the service before the date of the orders of your Government on the Despatch of the Court of Directors, and who shall hereafter be promoted to an appointment, the salary of which is Rupees 10,000 per annum and upwards, to renounce formally any claim to pension beyond the sum of 500*l.* per annum.

21. In reference to that opinion of the Government of Bombay, you observe that the Uncovenanted Service "cannot claim to have any rights under the Rules of 1831, beyond what may be considered to arise out of the general pledge which those Rules may be taken to give that a member of that service, when rendered incapable of further duty, shall not be discharged without some pensionary support. As regards the amount of pension to be given, the Rules merely fix a limit which is not to be exceeded, and although it has, with rare exceptions, been the practice to allow the highest pension of which the Rules allow, this practice cannot be admitted to confer on the Uncovenanted Service any right to claim that maximum in all cases without any regard whatever to the original design and scope of the Rules."

22. You nevertheless consider that, with reference to the Order of 1855, it may be right "to allow the full advantages of the Rules of 1831, with respect to all appointments made up to the present time and held by Officers who entered the Public Service before 1855. Thus, such an Officer already holding an appointment of Rupees 1,500 a month will, on superannuation after twenty-two or thirty years' service according to the class of appointment, be able to claim a pension up to 900*l.* a year, but he will not, if hereafter promoted to higher emoluments, be able to claim a still larger pension calculated on those higher emoluments."

23. I must observe that, under the existing Pension Rules, an Uncovenanted Servant is not entitled to claim a pension of the full amount, which is only authorized as the reward of approved service, and when the Rules were framed it could not have been contemplated that a larger pension than 500*l.* per annum could ever be granted.

24. Under any circumstances, therefore, the full pension should only be awarded in cases of extraordinary merit.

E. H. LUSHINGTON,
Secy. to the Govt. of India.

MILITARY FURLOUGH REGULATIONS.

G. G. O. No. 775 of 6th December 1854.—The Right Honorable the Governor in Council is pleased to republish the following General Order by the Most Noble the Governor General of India in Council, No. 1150, dated Fort William, 17th November 1854 :—

"The Honorable the Court of Directors having transmitted to the Government of India further explanatory instructions regarding the Furlough Regulations, published in Government General Order No. 110, of the 1st of February 1854, the Most Noble the Governor General in Council is pleased to cancel that General Order, and to promulgate in a connected form the Rules which have been laid down by the Honorable Court for regulating Furloughs and Leaves of Absence.

"With the view of adapting the Regulations to the present increased facilities of communication, and to correct, as far as possible, any tendency in them to deter Officers from resorting to the places which may be most conducive to the restoration of their health, when a change of climate is required for that purpose, the following Rules are established, and are to have effect from the 1st February 1854 :—

"**1.** All Regimental Officers in the Service on the 1st February 1854, who prefer retaining what may be considered the advantages of the Old Regulations, may do so, provided they signify their wish to that effect when they next apply for furlough or leave of absence, without any limitation whether such leave be in India or elsewhere ; and Officers who once make their election will not be entitled to any other choice, but will be afterwards subject to the New or Old Regulations, according to their decisions.

G. O. C. 10th April 1855.—With reference to G. O. C. No. 1 of the 15th March 1854, and to Rule 1 of the revised New Furlough Regulations, the Commander-in-Chief is pleased to notify, under instructions from Government, that Officers who entered the Service previously to the 1st February 1854 are required to make their election between the New and Old Furlough Regulations on the first occasion of their applying for any leave of absence which has to be announced in General Orders whether such leave may be to places in or beyond India, and whether on private affairs or sick certificate.

Officers commanding Divisions and Forces will accordingly be careful, before transmitting to Army Head Quarters applications for leave from Officers to whom the above decision applies, to see that each applicant's election between the New and Old Rules is therein duly declared.

G. G. O. No. 370, of 2nd May 1855.—The following extract, paragraph 6 of a Despatch from the Honorable the Court of Directors, dated 20th March last, No. 22, is published for general information :—

"6. With reference to the modification made in the New Furlough Regulations, we have determined that all Officers who quitted India on leave of absence previous to the announcement of such modification, and subsequent to the promulgation of the New Rules, shall be allowed to reconsider their decision."

"**2.** Staff Officers, as such, have not the above option allowed them, but they may retain the advantages of the Old Regulations by giving

up their appointments, which in such cases will be considered vacated from the date of embarkation.

G. G. O. No. 801, of 25th October 1855.—The Right Honorable the Governor in Council is pleased to republish the following General Order by the Honorable the President of the Council of India in Council, dated Fort William 4th September 1855, No. 904:—

"The following paragraph of a Military letter from the Honorable the Court of Directors to the Government of India, No. 84, dated 27th June 1855, is published for general information—

"'Staff Officers applying for leave in India are not required, by the New Furlough Rules, to vacate their Staff appointments, we therefore approve and confirm the view you have taken of this question.'"

"'*Letter dated 5th April* 1855, *No.* 82.

"'Submit the question whether, as Officers are on their first application for leave of absence on Furlough to declare whether they will abide by the Old or accept the New Furlough Rules, Staff Officers who apply for leave to the Hills, or elsewhere in India, are to vacate their offices like those who take leave to the Cape or elsewhere beyond sea. Government observe that if this were so the rule would have the effect of debarring such Officers from all leave, however short, in excess of the privileged leave of one month in six.'"

"3. To those Officers who adopt them, the New Regulations will apply retrospectively in respect of Furlough and leave of absence beyond sea, and in computing their time of service for retirement; so that their Furlough or leave of absence, whether under the Old or the New Rules, and whether on private affairs or sick certificate, within or beyond India, will count for service to the authorized extent only in computing the time for retirement on full pay.

G. G. O. No. 415, of 5th May 1856.—Extract from a Military letter from the Honorable the Court of Directors to the Government of India, No 177, dated the 19th December 1855:—

"Para. 2. Under the New Rules, Officers absent from duty are allowed to count, to a prescribed extent, time of absence as service for the pension on full pay, whether the time has been passed in Europe, or at the Cape, or at the Sanatorial Hills or elsewhere; and in order that Officers then in the service might have the *immediate* advantage of this Rule, they are by Rule No. 3 allowed its benefits retrospectively as well as prospectively. Thus, Officers who previously could not count any portion of the time spent in Europe as service for the Pension, are enabled to do so, and they claim, in consequence, a rate of Pension which could not otherwise have been claimed in some instances until after two, three, or four years of additional service. Of those who have retired on full pay since the Rules were established a considerable proportion have claimed and received this advantage.

Letter from the Governor General dated 28th September 1855.

A memorial transmitted from Lieutenant William Williamson, 41st N. I., praying—1st, That Rule 3 of the New Furlough Regulations may be cancelled; and 2nd, that leave in India on medical certificate, or on any urgent private affairs, may be allowed to reckon as Service, as was and is still the case under the Old Rules.

3. On the other hand, Officers who had spent such lengthened periods at the Cape of Good Hope, or elsewhere within Indian

limits, as exceed the privileged time allowed by the New Rules, have to consider whether it will be for their advantage to adhere to the Old Rules, and in many instances have determined to do so in virtue of the option allowed to them.

4. If Rule 3 were to be abolished, as now proposed by your Government, the effect would be that Officers adopting the New Rules, who had taken their leaves of absence at the Cape and elsewhere within Indian limits, with the enjoyment of Indian Allowances would count all that time for the Pension; whilst those who had taken their Furlough to Europe with Regimental pay only would be deprived of any such advantage.

5. We cannot admit that this change would be satisfactory, neither can we approve of still further increasing the privileged time of absence by adding to it all leaves of absence in India. We must therefore decline to comply with the prayer of Lieutenant Williamson's memorial.

"**4.** Officers who have availed themselves of the option of the Old Rules are allowed to reconsider the question under the modifications now sanctioned.

"**5.** Officers who have not taken leave subsequent to the publication of the New Rules on the 1st February 1854, and who consequently may not have been called upon to declare whether they would abide by the Old or the New Regulations, will, on retirement from the Service, be entitled to take full advantage of the privileges given by the New Regulations.

G. G. O. No. 662, of 28th August 1856.—All unattached Officers are entitled to the benefit of the New Furlough Regulations from the date of their first Commissions.

FURLOUGHS ON PRIVATE AFFAIRS.

"**6.** Every Officer will be allowed a Furlough to Europe, or elsewhere beyond sea, for a period of two years at the expiration of ten years' service, and for a second period of two years after twenty years' service in India. (See various Orders following Rules 7, 10, and 20.)

G. G. O. No. 361, of 9th June 1860.—The following Extract (paragraph 6th) of a letter from the Secretary of State for India, No. 68, dated 28th April last, is published for information:—

"I have to inform you that it has been decided that those Officers who have come to this country on duty with discharged Troops, and have been granted extensions (not exceeding six months) of their privilege leave, on Medical Certificate on private affairs shall not be considered to have vitiated their claim to Furlough at the end of ten years' service, though they may not have been six years in India since their return from this country."

G. G. O. No. 434, 9th July 1860.—The following extract of a Despatch, No. 82, of 25th May, from Her Majesty's Principal Secretary of State for India, is published for general information:—

"Paragraph 4.—I have to inform you that it has been decided that those Officers who have been allowed to count their leave on sick certificate as service for Pension, will be ineligible to a

Furlough, on private affairs, until they have served six years in India from the date of their return to duty."

G. O. C. No. 878, 17th August 1860.—Under instructions from Government, the Commander-in-Chief directs that application from Officers of the Bombay Army, for Furlough to Europe on private affairs, shall be accompanied by a statement, in duplicate, in the following form, the columns Length of Service, and periods of absence on Furlough or Medical Certificate only, will be filled in at the Office of the Adjutant General of the Army. All other details must be entered at the Head Quarters of Regiments.

In the instances of Officers proceeding to Europe on medical certificate, Officers Commanding Regiments on the receipt of the General Order granting the leave, will prepare and immediately transmit to the Deputy Adjutant General, similar statements relating to the Officers concerned.

Officers Commanding Regiments are required to prepare and keep a Record Book of the service of the Officers under their respective commands, in order that they may at all times be prepared to transmit the statements in question, which the Secretary of State for India requires on an Officer proceeding to Europe.

Blank Forms of these Statements will be furnished from the Adjutant General's Office, and renewed, from time to time, on the applications of Commanding Officers.

the Government of India, on points connected with the revised New Furlough Rules, are published to the Army :—

Question.	*Decision.*
"Are the periods of ten and twenty years' 'service in India,' which will entitle Officers, under the New Furlough Rules, to Furloughs on private affairs to Europe, or elsewhere beyond sea, with pay, to be understood to include all leaves of absence *in India*; or are all such leaves (excepting only the privileged leave of one month in six) to be reckoned against service towards Furloughs on private affairs with pay?"	"The ten years' service in India, after which an Officer is entitled to a Furlough is understood to include all leaves *in* India. The second Furlough of two years is only granted after ten years' service in India from the date of return to duty after the first Furlough of two years. "All leaves *in* India are counted as service, except for Retiring Pension, for which only a portion of an Officer's total leave in and out of India can be so reckoned."

G. G. O. No. 560, of 10th July 1856.—The Honorable the Court of Directors, in their letter No. 56, of the 25th April 1856, have communicated the following decision regarding Nos. 6 and 7 of the New Furlough Rules published in Government General Order No. 1150, dated the 17th November 1854 :—

"Officers who take their first Furlough after twenty years service in India, may take their second Furlough after an additional service of five years from the date of their last return to duty."

G. G. O. 221 of 1863.—An officer must have served ten years in India to entitle him to return to England on private affairs for six months, retaining his appointment, and drawing Furlough pay.

An Officer having taken two years' furlough after ten years' service must serve ten years in India subsequently, to entitle him to the same benefits as those above mentioned :—

An Officer having taken shorter leaves as a Staff Officer (six months on private affairs, fifteen or twenty months on sick certificate) retaining appointment, may take a second leave retaining appointment, on sick certificate after he has been three years, or on private affairs after he has been six years in the discharge of the duties of his appointment from the date of last return to it.

These rules do not affect Staff Corps Officers permitted on emergency to return to England on private affairs for short periods without pay, who should be permitted to hold their appointments for six months.

Staff Officers not members of the Staff Corps allowed a similar indulgence under like circumstances.

G. G. O. 441 of 1863.—An Officer of the Staff Corps formerly under the Old Furlough Regulations is, as regards future Furloughs, under the operation of clause 7 of the Furlough rules of 1854.

"**8.** All grants of Furlough on private affairs are subject to the exigencies of the public service, and to the Regulations framed for the preservation of the efficiency of each Regiment, by limiting the number of absentees.

G. G. O. No. 364, of 15th April 1857.—Under the authority of the Honorable the Court of Directors, the Right Honorable the Governor General in Council is pleased to extend to Officers generally, at the three Presidencies, the privilege granted to Officers at Mooltan and Peshawur, of being allowed, when the demands of the Service will permit, temporary leave, without pecuniary loss, or loss of service, for sixty days consecutively in the course of each year, or of thirty-days consecutively in each half year, as may be preferred by them.

G. O. C. 13th August 1858—Although privilege leave for sixty days consecutively is granted, it does not authorise Officers commanding Divisions or Forces to grant leave in excess of the periods laid down in Section XXVI. para. 327 of 3rd Appendix Jameson's Code. Applications for leave exceeding thirty days must be submitted for the sanction of His Excellency.

G. G. O. No. 46 of 1862.—Officers employed in the Military Department are not allowed to go to Europe or elsewhere out of India on privilege leave without the sanction of Government.

G. G. O. No. 555 of 1862.—The practice of announcing in General Orders the grant of privilege leave is discontinued, and restricted to announcement in Division or Separate Brigade Orders. Applications for this leave in excess of 30 days to be forwarded as heretofore to the Adjutant General of the Army, who will enface thereon the Commander-in-Chief's decision, returning them to the submitting Officer.

"9. Officers holding Staff or other detached appointments may be allowed Furlough for a period of six months, without losing their appointments; but during that period they will not be entitled to any portion of their Staff salary, which will be drawn in full by the Officers officiating for them.

Modified; See G. G. O. 432 of 1863, following.

G. O. C. 23rd January 1855.—The Honorable the Court of Directors have been pleased to decide that Rule 9 of the revised New Furlough Regulations is not applicable to Officers proceeding on Furlough to Europe, or elsewhere beyond sea, whose service in India may fall short of the period specified in Rules 6 and 7 and that Furloughs can be granted to such Officers only under the special provisions of Article 75, Section XXVI., page 377, of Jameson's Code, which is to be considered as still in force.

G. G. O. No. 342, of 11th April 1856.—Letter from the Honorable the Court of Directors to the Government of India, No. 8, dated 23rd January 1856:—

Letter No. 213 dated 29th Sept. 1855.
Government forward correspondence relative to certain questions connected with the New Furlough Regulations, and request to be informed as to claims of an Officer to the residue of his Furlough on private affairs when he has been already absent on leave to England on private affairs for six months.

Para. 8. "We have to state, in reply to your enquiry, that an Officer proceeding on leave to England for six months, retaining his appointment or otherwise, is not to be considered as having taken his authorised Furlough after ten or twenty years as the case may be, but may, with your permission, be allowed at any time to take the remainder of the two years' authorised Furlough on private affairs.

G. G. O. No. 560, of 10th July 1856.—The Honorable the Court of Directors, in their letter No. 56, of the 25th April 1856, have communicated the following decision regarding No. 9 of the New Furlough Rules published in Government General Order No. 1150, dated the 17th November 1854:—

"Absence for six months, under this Rule, does not preclude an Officer from taking his Furlough to Europe after ten years' service."

G. G. O. 432 of 1863.—Officiating Officers to draw only moiety of salary for the first six months of the fixed incumbent's absence.

10. All Officers, whether Staff or Regimental, while on Furlough on private affairs, will be entitled to Furlough pay only.

G. O. C. 25th May 1859.—Applications from Military Officers for Furlough on private affairs beyond Presidency limits, to be embodied in the following form, and forwarded without accompaniment through Station and Divisional Authorities for countersignature to the Officer in charge Adjutant General's Office, Presidency, for the orders of His Excellency:—

I have the honour to be, Sir,
Your most obedient Servant,

Commanding

Commanding

No. Commanding Divison.

Submitted for the favorable consideration of the Right Honorable the Governor in Council, with the Commander-in-Chief's recommendation that the Furlough applied for be granted.

By order of His Excellency the Commander-in-Chief,

, Adjutant General.

Adjutant General's Office, Head Quarters.

G. G. O. No. 434 of 1860.—Officers allowed to count their leave on sick certificate as service for Pension, ineligible to Furlough on private affairs until they have served six years in India from date of return to duty.

G. G. O. No. 493 of 1860.—Officers proceeding on medical certificate not required to furnish No Demand Certificates.

Officer in charge of Cash or Stores to furnish Certificate from Officer taking charge of his duties that as far as can be ascertained nothing irregular, nor any known demands against him remain unadjusted.

Officers leaving on private affairs to furnish No Demand Certificates.

Officers on medical certificate intending to retire to give earliest intimation to the Accountant General through the Paymaster, so that the requisite No Demand Certificate may be prepared, as retirement is not permitted without such Certificate.

LEAVE OF ABSENCE ON SICK CERTIFICATE.

"**11.** Leave of absence on sick certificate will be granted for a term not exceeding eighteen months, whether it be to any place in Europe, or elsewhere out of India.

G. G. O. No. 389, 23rd July 1861.—It appears to be commonly supposed that if an Officer obtain a medical certificate for a Furlough to Europe, he is entitled to the maximum period.

The practice of Medical Boards has tended to confirm this erroneous supposition.

The period of eighteen months is a maximum (under the New Furlough Regulations) and fifteen months is a maximum within which an Officer may retain a Staff Appointment during such absence.

See Note following Rule 13, or G. G. O. 240 of 1861.

The prospective extension of these periods announced in paragraph 86 of the G. O. by the Government of India, No. 332, of 10th April, renders it peculiarly necessary to remind Medical Officers that it is their duty to limit the period named in the medical certificate to the necessities of the applicant in respect of recovery of health alone.

"**12.** Extensions of such leave may be granted, as at present, on production of medical certificates, for further periods not exceeding eighteen months in the whole.

"**13.** An Officer holding a staff or other detached appointment will be allowed to be absent on sick certificate in England, or elsewhere beyond sea, for a period of fifteen months, without losing his appointment, and during the first six months only of such absence he will be entitled to draw half the Staff salary of his appointment, the Officer officiating for him drawing the remaining half salary during the first six months, and the whole salary during the remainder of the time.

G. G. O. 240 of 1861 para 93.—Officers of the Staff Corps retain appointments for 20 months.

"**14.** An Officer's claim to half Staff salary for six months, as sanctioned in the preceding Rule, will not be affected by his subsequently retiring from the Service, in Europe or elsewhere.

G. G. O. No. 429, 20th August 1861.—The following General Order by the Government of India, dated 25th June 1861, No. 565, is republished :—

"His Excellency the Governor General in Council is pleased to resolve that absence from India on authorised leave within the periods allowed by the New Furlough Regulations shall not debar an Officer whose efficiency has been proved and certified to the full satisfaction of the Governor General in Council, from Departmental promotion, temporary or permanent.

In such cases the absent Officer will not, till he resumes charge of his duties, have any claim to the salary of the higher Office, which will be drawn by the Acting Officer."

G. G. O. No. 395, of 28th April 1856.—Under instructions from the Honorable the Court of Directors, the Right Honorable the Governor General in Council is pleased to publish the following Notification :—

"The grant of leave of absence to Staff Officers on medical certificate, with half Staff Allowances for six months, and with the privilege of returning to their offices if their absence from India be not prolonged beyond fifteen months, is bestowed by the Honorable Court in order to enable such officers to regain their health, and in the expectation that they will be thereby qualified to render additional service to the Government. But if leave of absence be taken merely to run out a prescribed period of service, and without any intention of returning to duty, the principle on which the rule is founded is infringed, and the indulgence of the Honorable Court is abused. Wherefore the Right Honorable the Governor General in Council hereby notifies for general information, that if there be an avowed intention on the part of an Officer not to return to duty, or if the Government have valid grounds for concluding that the Officer has no intention to return to duty, the indulgence of leave on sick certificate, retaining office, will not be granted in future."

See G. G. O. 240 of 1861 following Rule 13.

"**15.** No portion of Command Allowance, Medical Staff Salary, or other similar allowance, which under the Old Rules was inadmissible to Officers absent from their Corps or Stations at the Cape or elsewhere, will be allowed to absent Officers under these Regulations.

"**16.** All Officers whether Staff or Regimental, while on leave of absence on sick certificate, will be entitled for a period of six months to the same rate of Indian pay and allowances as was allowed under the Old Regulations to Officers proceeding to the Cape on medical certificate, and for the remaining period of their leave they will receive Furlough pay only.

"**17.** If the leave on sick certificate be extended, Furlough pay will be continued, but under no circumstances for a longer period than three years altogether from the commencement of the absence.

G. O. C. 30th October 1858.—Officers who have had an undue proportion of leave, and may be proceeding to Europe on sick certificate, will, if requisite, be subject to examination as to their fitness for further service.

G. O. C. 30th August 1859.—An Officer proceeding sick to England, to show the statement of his case to the Surgeon of the ship in which he is a passenger, for the Surgeon's guidance. Sick Officers allowed, if necessary, a soldier to accompany them to Bombay.

STAFF OFFICERS.

"**18.** The term 'Staff Officers applies to all Officers holding Staff or detached appointments, Military (General or Regimental), Political, or Civil; also to General Officers commanding Divisions, Members of the Medical Board, Superintending Surgeons, and others who under the Old Rules were entitled to draw half Staff Allowance when absent at the Cape. (See G. G. O. No. 111, of 30th January 1856, following Rule 31.)

"**19.** Staff Officers absent on leave beyond the period stated in Rules 9 and 13, respectively, cannot retain their appointments and allowances, except on special grounds to be sanctioned by the Government of the Presidency. Any such special grant of leave is to be re-

ported at once to the Honorable the Court of Directors, with the reasons for it, and to be subject to their approbation.

"**20.** The privilege of retaining Staff appointments during leave of absence on sick certificate, or on Furlough on private affairs, will not be available a second time, if the fresh leave is on sick certificate, until an Officer has been three years, or if on private affairs until he has been six years in the discharge of the duties of his appointment from the date of last return to it.

G. O. C. 27th August 1855.—With the sanction of Government, the following decision of the Government of India is published to the Army:—

"Under the New Furlough Rules, Furlough granted without pay or other privileges, does not bar privileged leave hereafter."

"**21.** This Rule, however (No. 20), does not apply to leaves of absence whether on sick certificate or on private affairs, in India, or for brief periods to Ceylon, the Mauritius, or other places out of India.

G. O. C. 12th July 1856.—The Government of India has fixed three months as the maximum period which is to be understood by the terms "short leaves" and "leaves for brief periods" used in Rules 7 and 21 of the New Furlough Regulations.

"**22.** Officers commanding Troops of Horse Artillery and Light Field Batteries, and Officers generally in employment, will be allowed leave out of India, under the same Rules with respect to allowances and tenure of command or office as regulated the grant of leave to the Cape to such officers under the Old Regulations, except as to the duration of those advantages, the time for their continuance being subject to the provisions of the New Regulations.

DATE OF FURLOUGH AND ADVANCES OF PAY.

"**23** The period of Furlough on private affairs, or leave of absence on sick certificate, is to be calculated from the date of the departure from India of the ship in which the Officer proceeds.

G. O. C. No. 363, 21st March 1861.—The Secretary of State for India has intimated that henceforth, the permission to return to duty granted to officers will hold good for three months from the date of such permission, provided they embark for India within that period.

G. G. O. 457 of 6th August 1862.—When an Officer is granted permission to return to his duty by a particular ship it is equivalent to an extension of leave until arrival of that ship in India.

"**24.** Advances of pay and allowances, Staff and Regimental, to Officers proceeding on leave of absence on sick certifiate, who may be entitled to them, will be made in India for three months from date of embarkation. Payments in continuation will be made in England at the rates of exchange fixed annually for repayment of advances made on account of Her Majesty's Government. Furlough pay will continue to be issued in advance for six months when required by Officers obtaining Furlough on private affairs.

G. G. O. No. 193, of 27th February 1856.—The Right Honorable the Governor in Council is pleased to notify to the Army, that it has been decided by the Government of India that every Officer proceeding to a British Colony within Indian limits, is entitled to the advance of pay authorised in the first Clause of Rule 24 of the New Furlough Regulations, but that such Officer shall be required to appoint an agent in India to draw the arrears which may accrue to him during Furlough on either sick certificate or private affairs; if such an agent be not appointed, payment of the arrears shall be postponed till the return of the Officer to India; and every agent shall be required to give a sufficient guarantee for the refund of any payment that may fail to be recovered.

G. G. O. 535 of 1863.—Artillery and Medical Officers proceeding to Europe under the New Furlough Rules from full batta stations will receive full batta for the first sixth months of their Furlough.

Government Resolution 2266 22nd July 1863.—Insane Officers proceeding home on Medical Certificate granted the usual three months advance of pay and allowances.

"**25.** The existing Regulations regarding Passage-money to Officers are not affected by these Rules.

"**26.** The Certificates issued to Officers who are granted Furloughs on private affairs or leave of absence on sick certificate, are to specify the time each Officer has been absent on leave within Indian limits, as well as the time of his previous absence in Europe, but will not include the periods allowed for proceeding to the Presidency or port of embarkation, and to enable Officers to rejoin their Regiments or Stations after their return to India, nor the leave of one month's absence in six months as authorised by the Regulations. The last Pay Certificate of all Officers proceeding to England on sick certificate is to specify the rate of Regimental pay and allowances and Staff salary to which they would have been entitled under the Old Regulations if proceeding to sea on medical certificate. This information is necessary, in order that no difficulty may arise in the Pay Department of the India House in adjusting the several payments which may be due. (See various Orders following Rule 31.)

G. G. O. No. 1196 of 1858.—Military Officers, Staff, Regimental, or on Civil employ applying for leave beyond sea, to submit reports from Officers noted in the margin, whether special security is necessary for doubtful items outstanding against the applicant, or for a suspicious or extraordinary state of his accounts. Reporting Officers not to delay reports. Officers affected by these Rules to use means to settle their accounts to obviate inconvenience to themselves.

Military Officers in Civil employ—from Accountants of Government.
Officers of Public Works—from Chief Engineer of Division.
Officers of Stud and Commissariat—from Auditor of Commissariat Accounts.
Officers of Ordnance—from Inspector General of Ordnance and Magazines.

G. O. C. 27th April 1855.—With the sanction of the Right Honorable the Governor in Council, the following decisions of the

Government of India, on points connected with the revised New Furlough Rules, are published to the Army :—

Question.

"Is it only such leave not exceeding thirty days in six months as may be granted under the *special* Regulation contained in G. O. G. G. I. No. 341, dated the 20th March 1851, that is to be allowed to count as service; or will Officers who may be absent from their Stations, on leave granted to them under the *ordinary* Regulations, 'for short periods to sea,' or for from one day to six months, between the 1st January and 1st July, and *vice versâ*, whether on private affairs or sick certificate, be entitled to have a period not exceeding thirty days of such leave counted as service?"

Decision.

"Any short leaves are not to reckon against an Officer's length of service, but all leaves announced in General Orders, which in the aggregate exceed the periods laid down in paragraphs 32 to 36 of the Government General Order* No. 1150, of the 17th Nov. last count against service, and no deduction can be made from such leave, except for the period allowed an Officer preparatory to embarkation, and to enable him to rejoin his Corps or Station on his return to India.

"An Officer who has obtained leave for six months, or any other period *in General Orders*, is not allowed to deduct the thirty days' privilege leave which he might have taken without its being announced in General Orders. In such a case, the whole period announced in General Orders reckons against his service."

* Bombay G. G. O. No. 775 6th Dec. 1854.

G. O. C. 17th September 1855.—With the sanction of Government, the following decision of the Government of India, having reference to Rule 26 of the New Furlough Regulations, is published to the Army :—

"Short leaves on private affairs for periods not exceeding thirty days which have been granted to officers in General Orders previously to 6th December 1854, are to be counted as privileged, provided they do not exceed an aggregate of thirty days in each half year."

G. G. O. No. 857, of 12th November 1855.—With reference to the Regulations noted in the margin, the Right Honorable the Governor in Council is pleased to declare the following rule, obtaining under the Bengal Presidency, to be applicable to this Presidency also from this date :—

Art 16, Clauses 1 to 4, Sect. XIV. Jameson's Code.
Arts. 216 to 219, Sect. XXVI. 1st Appendix Jameson's Code.
Arts. 124 to 125, Sect. XXXIII. Jameson's Code, page 938.

"The thirty days' privilege leave is to be calculated so as to include the day of return as one of leave, *i. e.*, if leave be granted on the 15th July, the Officer must rejoin on the 13th of August."

OFFICERS OF HER MAJESTY'S SERVICE.

"**27.** Officers of Her Majesty's Service in India, whether employed Regimentally or in Staff or detached situations, are entitled to the advantages above laid down in respect to allowances and tenure of office when on Furlough or leave of absence.

"**28.** In the case of Officers of Her Majesty's Service on Furlough on sick certificate, in England or elsewhere, who may retire or exchange into Regiments not on the Indian Establishment, the grant to these Officers of Indian Allowances will cease from the date of their retirement or exchange, if it take place before the expiration of six months from the date of quitting India.

G. G. O. No. 169, of 1862.—Staff Surgeons proceeding on furlough, cease to belong to the Indian Establishment, and have no claim to Indian allowances after date of quitting India.

PERIODS OF ABSENCE ALLOWED TO BE COUNTED AS SERVICE FOR RETIRING PENSIONS.

"**29.** In order that all Officers quitting India, on Furlough or sick certificate, may be placed on an exact equality as regards loss of time, the period allowed by Regulation for proceeding to the Presidency or to the nearest port of embarkation, as well as the time to enable Officers to rejoin their Corps or Stations after their return to India, will be considered as time counting for service for the Retiring Pension. (See various Orders following Rule 13.)

G. O. C. 31st May 1855.—Under instructions from Government, the following table, showing the number of travelling days allowed to Officers proceeding unaccompanied by Troops, between Bombay and the different Outstations, is published for general information and guidance, in supersession of that contained in Arts. 160 and 161. Section VI. 2nd Appendix to Jameson's Code.

The distances in the "fair season" are entirely by land, or partly by land or partly by water, whichever is the most expeditious. Both by sea and river the passage is estimated by "country boat," and the month in which the longest passage occurs has been taken as the standard for the average length of passage.

The "fair season" as regards sea or river passage from, to, and in Scind, is estimated to commence on the 15th October and end on the 15th April.

The "fair season" as regards all other water passages, lasts from the 15th of October to the 15th of May.

When the distance is entirely by land, ten miles per diem is allowed, without halts, by the nearest marching route.

G. O. C. 1149 of 1861.—Officers proceeding by rail allowed one day for 100 miles; by sea or bullock train, the actual time of the voyage or transit.

G. O. C. 23rd June 1855.—With reference to the new Furlough Regulations, the Commander-in-Chief is pleased to direct that in future Officers not above the Regimental rank of Captain, who may return from furlough or leave of absence *beyond Presidency limits* during the monsoon, or who, being on sick leave within Presidency limits, may be reported fit for duty during that season, viz. between the 1st June and 1st October, shall be permitted, in the event of their own Corps being too distant to admit of their at once rejoining, to do duty until the latter date with Regiments at the Presidency or other Stations at or near which they may be at the time, unless they should obtain leave of absence in extension on private affairs.

Officers belonging to Regiments at Neemuch, who may be circumstanced as above, will remain attached to other Corps until the 15th December.

G. G. O. No. 235, of 8th March 1856.—The Right Honorable the Governor in Council is pleased to announce that the following Rules will be observed in calculating the periods of Officers' absence on furlough in or beyond India:—

As respects Furlough in India, the day of departure from a Regiment or appointment is one of leave and the day of return thereto is one of duty.

As respects Furlough beyond India, the date of final departure from India, viz. that on which the vessel conveying the Officer from India puts out to sea, is reckoned as one of Furlough, and the day on which he returns to his Presidency as one of duty.

G. G. O. No. 120, of 8th January 1857.—Under instructions from the Government of India, the Right Honorable the Governor in Council is pleased to direct that the rule promulgated in G. G. O. No. 235, dated 8th March 1856, regarding absence on Furlough, shall be held applicable to privilege leave.

"**30.** No Furlough or leave of absence, as announced in General Orders, exceeding two years in twenty years' aggregate service, three years in twenty-five years' service, and four years in thirty years' service, shall be allowed to count as service for the Retiring Pension; and no difference will be made in this respect between leave of absence taken in Europe or elsewhere, in or out of India, or whether the leave be on sick certificate or on private affairs. (See various Orders following Rule 31.)

G. G. O. No. 183, of 25th February 1856.—The Right Honorable the Governor in Council is pleased, with the sanction of the Government of India, to declare that the period during which Officers may have been, or may hereafter, be absent on leave for the purpose of accompanying insane or sick Officers, is allowed to reckon as service for Pension under the New Furlough Rules, to the extent of the regulated travelling days.

G. G. O. No. 273, of 18th March 1856.—The Right Honorable the Governor in Council is pleased, with the sanction of the Government of India, to declare that Officers returning from Furlough to Europe, and intending to adopt the overland route, who may be ordered to do duty with Recruits proceeding to India viâ the Cape of Good Hope, shall reckon service for Pension under the New Furlough Regulations from the date of arrival at their respective Presidencies of the overland mail steamers on which they would otherwise have proceeded.

Government Resolution 1207 of 27th April 1863.—Rules 30 and 36 New Furlough Regulations for Military and Medical Officers respectively, are in principle the same and differ in no particular excepting that the latter provides for the peculiar privilege of the Medical Officer in acquiring a title to pension after 17 years service. Any explanation of the intention of the Rule 30 applies *mutatis mutandis* to Rule 36.

"**31.** In the term 'leave of absence as announced by General Orders' is to be included all leave of absence except the period allowed in Rule 29, and the ordinary indulgence of one month's leave in six months, as authorised by the existing Regulations, and which are in all cases, whether of Regimental or Staff Officers, to be allowed to count as service for Pension. All leave to a greater extent, granted by Political and other Authorities, which may not hitherto have been published in General Orders, must be so announced hereafter.

G. O. C. 29th May 1855.—With reference to Rules 26 and 31 of the New Furlough Regulations, and to G. O. C. No. 1, dated 26th ultimo, the Commander-in-Chief is pleased to establish the following Rules in supersession of existing Orders, with respect to the grant by Officers commanding Regiments, Stations, and Divisions or Forces of leave of absence on *private affairs* to Officers (Staff and Regimental) serving under their respective commands.

1. The periods for which leave may be granted are limited as follows:—

By Officers commanding Regiments, subject to the control of Officers commanding Stations:

By Officers commanding Stations, subject to the control of Officers commanding Divisions or Forces:

For periods not exceeding ten days in the calendar month (between musters) *within the Division or District*, and limited to an aggregate of twenty days in six months, between the 1st January and 1st July, and *vice versâ*, exclusive of leave granted by Officers commanding Regiments.

By Officers commanding Divisions or Forces :

To the extent of thirty days in six months, between the 1st January and 1st July and *vice versâ* (irrespective of musters), *within or beyond the limits of the Division or District*, and *exclusive* of leaves granted by Officers commanding Regiments and Stations.

II. All leave which may involve absence from the Station for one or more nights, must be sanctioned in public Orders.

III. The period of leave specified in public Orders is to be understood as including the whole period of an Officer's absence from his Corps or Station, except when expressly sanctioned in extension of leave previously granted.

IV. Commanding Officers are strictly prohibited from granting leave of absence in extension of the periods for which leave may have been sanctioned by any authority superior to their own.

V. In every application for leave of absence, the total period of leave previously enjoyed since the 1st January or 1st July is to be specified.

VI. When leave beyond the limits of the Division or District may be granted by Officers commanding Divisions or Forces, the place to which it is granted must be specified in the Order, except when sanctioned under the special provisions of G. G. O. No. 211, dated 14th April 1851 (Jameson's Code, Arts. 216 to 219, Section XXVI.)

VII. Leave of absence ,under the provisions of the G. G. O. quoted in the preceding paragraph, can be sanctioned in those cases only in which Officers shall declare their *bonâ fide* intention to rejoin their stations at the expiration of the leave applied for.

VIII. Officers commanding Stations may grant permission to Officers to proceed to places beyond the limits of the Division or District, in anticipation of the sanction of Officers commanding Divisions or Forces, in cases of pressing emergency to be specially reported.

IX. Officers commanding Regiments, Stations, and Divisions or Forces, who may desire leave of absence, must await the sanction of the next superior authority before quitting their commands, except in cases of pressing emergency, which must be specially reported.

X. Medical Officers must obtain the sanction of the Superintending Surgeon before submitting applications for leave of absence from their Stations for any period exceeding three days.

XI. All Officers are required to provide themselves with copies of the Orders granting them leave of absence, and in reporting their arrival at any Military Station they are to specifiy the periods for which they may have obtained leave.

XII. It is to be distinctly understood, that with the exception of the short leaves within Divisions or Districts, which Officers commanding Regiments and Stations are above empowered to grant, no leave of absence on private affairs in excess of thirty days in six months can be sanctioned under any authority but that of the Commander-in-Chief or Government, duly announced in General Orders.

G. O. C. 22nd June 1855.—It being required by the New Furlough Regulations that all leaves of absence on *medical certificate*, whether within or beyond India, and for whatever period, shall be announced in General Orders, the Commander-in-Chief

calls the attention of Officers commanding Divisions or Forces and Stations, to those Regulations, and directs that Extracts of all Orders granting Officers leave of absence from their respective Stations, *on medical certificate*, be duly transmitted on the day of issue to Army Head Quarters, for publication in General Orders. When the medical certificate sets forth that the leave applied for by any Officer is necessary for the purpose of obtaining a final certificate to proceed to any place *out of India*, the purpose is to be specified in the Order, in view to the regulated travelling days being credited to the Officer in the Register of Furloughs.

G. G. O. No. 643, of 20th August 1855.—The Right Honorable the Governor in Council is pleased to direct that every Officer proceeding on leave be required to certify the dates of his departure from and return to his Station, and that in every application preferred for leave *on private affairs* within Presidency limits, the applicant be required to specify the total period of such leave previously enjoyed since 1st January or 1st July immediately preceding.

G. O. C. 5th September 1855.—Consequent on the New Furlough Regulations, a Register of all Furloughs and leaves of absence *in* and *beyond* India, granted to Officers in General Orders, between the 1st January 1818 and the present time, has been prepared at the Adjutant General's Office at the Presidency, where every Officer will be at liberty in future to see and take a copy of his own registered leaves of absence, or to depute any other person, by a letter to the Assistant Adjutant General in charge of the Bombay Office, to do so for him. As there are probably many cases in which Officers may not have availed themselves of the full periods of the leaves in India sanctioned in General Orders in past years, the unexpired portions (not already cancelled) of all such leaves will be credited to them, and the Register corrected accordingly upon Officers furnishing certificates from Regimental or Station Staff Officers, or (should the existing official records not afford the information) certificates upon honour, under their own signatures, of the dates on which they actually quitted and rejoined their respective Corps or Stations; provided the certificates be received at the Adjutant General's Office at Bombay within six months from this date, if the Officer be now *in India*, and if absent *beyond India*, within six months from the date of his return.

As every Officer will be able, under the provisions of this Order, at all times to inform himself regarding the total period of his service in India counting for Pension, the Adjutant General's Department is entirely exempted from hereafter furnishing certificates of service to individual Officers.

Officers will address their communications on the subject of this Order to the Assistant Adjutant General at the Presidency, postage paid.

G. O. C. 22nd September 1855.—With a view to obviate the necessity for cancelling in General Orders the portions of leaves of absence *within Presidency limits*, granted in General Orders to Officers under the New Furlough Regulations, of which they may not have availed themselves, the Commander-in-Chief is pleased to notify, under the authority of Government, that all Officers will have such portions of their leaves credited to them in the

Furlough Register in the Adjutant General's Office, provided they report by letter to the Assistant Adjutant General at the Presidency, within one month from the expiry of the leave, the precise dates of their quitting and rejoining their respective Corps and Stations; and that failing such reports, the whole period of leave published in General Orders will be debited against their service for Pension.

All Officers (however employed) will transmit the above reports *direct* to the address of the Officer in charge of the Adjutant General's Department at the Presidency, postage paid. The reports of Officers serving Regimentally must bear the countersignatures of the Officers commanding their respective Corps.

G. O. C. 16th October 1855.—Under the authority of Government, the following Rules, sanctioned by the Government of India, are published to the Army, with reference to the New Furlough Regulations:—

"I. All Officers proceeding on or returning from Furlough, or leave of absence 'beyond sea,' will be entitled to one month's preparatory leave at the ports of embarkation and debarkation, in addition to the regulated travelling days, and to count the same as service for Pension, provided they quit their respective Corps or Stations with the avowed intention of applying for leave to sea, or beyond the limits of the Presidency, and provided they proceed direct to the ports of embarkation.

"II. Officers who may be placed on Court Martial or other duty by order of the Commander-in-Chief or Government, while on leave of absence on private affairs, will be allowed to count as service for Pension the periods during which they may be so employed.

"III. Leave to the following extent may be granted to Officers to proceed to the Presidency on duty, for the purpose of being examined in the Native languages before the General Examination Committee, and will reckon as service for Pension, viz:—

"The regulated travelling days; one month for preparatory study at Bombay; and the actual period of detention in attendance on the Committee.

"IV. Officers permitted to attend the Central School at Poona for instruction in Military attainments, will be considered 'on duty,' and will be entitled to count as service for Pension the regulated travelling days, and six months in addition for residence at Poona.

"V. Officers permitted to proceed to Stations at which Mounted Corps are located, for the purpose of going through the prescribed 'Infantry Course' of Equitation Drill, will be considered 'on duty,' and will be entitled to count as service for Pension the regulated travelling days, and two months in addition for residence at the Station."

G. O. C. 5th December 1855—With reference to G. G. O. No. 857, dated the 12th ultimo, the Right Honorable the Governor in Council has been pleased to decide that in all cases of leaves of absence on private affairs, which have been granted in General Orders previously to the date of the Order above quoted, for "one month" (whether taken between or irrespective of musters), and in which the leaves may be shown to have been granted as "privileged," the Officers shall be held entitled to reckon thirty

days of such leaves for Pension, notwithstanding that they may have been actually absent from their Stations for thirty-one or thirty-two days, the day of return included.

The Right Honorable the Governor in Council has been pleased to decide that all leaves of absence on private affairs, within Presidency limits, which have been or may hereafter be granted to Officers on their return from Furlough or leave beyond sea, or on being relieved from Staff or other detached duty, in consideration of their being prevented by the Rules contained in Articles 31, 86, and 87, Section XXXII. Jameson's Code, from at once proceeding to join their Stations in Sind or Rajpootana, shall reckon as service for Pension under the New Furlough Regulations.

When practicable, Officers so circumstanced will in future be employed on duty, or attached to some Corps, until the season shall admit of their joining their respective Stations.

G. G. O. No. 111, of 30th January 1856.—Referring to that part of the General Order by the Governor General of India of the 17th November 1854, which regulates the period of absence to be counted as service for the Retiring Pension of Officers of the Army, the Right Honorable the Governor in Council is pleased to prescribe the following Rules regarding the notification of leave of absence granted to Officers of the Staff, with a view to the maintenance of an accurate Register in the Office of the Adjutant General, and in order that all Officers quitting India may be placed on an exact equality as regards loss of time counting as service.

The term "Staff," as declared in the 18th paragraph of the above General Order, applies, for the purposes of these Regulations, to all Officers holding Staff or detached appointments, Military, Political, or Civil.

The following Rules are intended to apply only to Officers serving immediately under Government, or in Offices or Departments not immediately subordinate to Army Head Quarters. For Regimental and other Officers, serving directly under the orders of the Commander-in-Chief, His Excellency will be pleased to lay down such rules as may appear to be most appropriate and convenient for the required object:—

1*st*.—All leave of every description, privileged or unprivileged, which is granted by Government, is to be notified in the Military General Orders.

2*nd*.—Every Order granting leave of absence is to express the date from which it is to commence, and the date to which it is to extend.

3*rd*.—Officers who have not availed themselves of the full period of leave granted to them, are authorised to notify the circumstance with full particulars to the Adjutant General's Office at the Presidency by letter (postage paid), within one month from the expiration of the leave, and such correction as is proper will then be made in the Furlough Register; failing such Notification, the entire period of leave published in General Orders will be debited against their service for Pension.

4*th*.—In order to ensure still further the correctness of the Register, returns will be made by the Military Auditor General, and by the Civil Auditor, half yearly, showing the leave, privileged and unprivileged, which has been taken by Officers serving immediately under the orders of Government.

5th.—No Officer is to quit his Station until leave is regularly granted him by the proper authority; and all Officers are to return to their Stations within the term of leave granted to them, failing which they will be considered as absent without leave, and be subjected to the penalties of that condition.

G. G. O. No. 230, of 8th March 1856.—The Right Honorable the Governor in Council is pleased to announce that the maximum period for which an Officer can be absent from his Regiment or appointment on privilege leave, whether between musters or irrespective of Muster, is thirty days in each half year.

G. G. O. 364 of 1857.—Sixty days consecutively in each year or 30 days consecutively in each half year.

G. G. O. No. 956, of 22nd December 1856.—If an Officer obtain privilege leave for one month, and in extension thereof obtain one month's leave on private affairs in the following month, he is entitled to count the first month as privilege leave; but in the case of an Officer obtaining leave to proceed to the Presidency preparatory to embarking for Europe on Furlough under the New Furlough Regulations, no portion of such preparatory leave can be treated as privilege leave.

Should an Officer who is on privilege leave not rejoin his Corps, but be absent in continuation, on not more than five months' leave on private affairs, or one year and eleven months' leave on medical certificate, he will retain his full salary or allowances for the thirty days of privileged leave, which will also count as service; but he will nevertheless forfeit all military allowances on completing six months' or two years' absence as the case may be, reckoned from the date that he quitted his Corps or Station.

"**32.** Officers to be entitled to retire on the full pay of their Regimental rank (under the Regulation of 1796), must have served twenty-two years in India, out of which leaves of absence for two years in the aggregate, and not more, will be allowed to count as service for the Retiring Pension.

"**33.** Officers to be entitled to retire on the full pay of Captains and Majors (under the Regulations of 1835-37), must have served twenty and twenty-four years respectively, out of which time leaves of absence for two years in the aggregate, and not more, will be allowed to count as service.

"**34.** Officers, to be entitled to retire as Lieutenant-Colonels, must have served twenty-eight years, out of which leaves of absence for three years in the aggregate, and not more, will be allowed to count as service.

"**35.** Officers, to be entitled to retire as Colonels, must have served thirty-two years out of which leaves of absence for four years in the aggregate, and not more, will be allowed to count as service.

G. G. O. No. 404 of 1860.—Officers of twenty-two years' Indian service are entitled to retire on the pay of their Regimental rank. This privilege granted under the Regulations of 1796 and 1854, may, in some cases, be rendered imperative by the Regulations of 1801 precluding them from claiming for retirement the benefit of the rank attained after twelve months from date of landing in England. The restrictive rule is rescinded

in the case of Officers who, after twenty years' Indian service counting for Retiring Pension, may return to Europe on leave, and they are allowed to claim for retirement the benefits of any rank allowed prior to the expiration of twenty-two years' service.

"**36.** The scale for Medical Officers and Veterinary Surgeons, of privileged Furlough and leave of absence, as counting for the Retiring Pension, will be as follows:—

Years.	Months.	
1	8	in 17, and under 20 years' service.
2	0	in 20, ,, 25 ,,
3	0	in 25, ,, 30 ,,
4	0	in 30, and upwards.

Note.—See Government Resolution 1207 of 27th April 1863 following Rule 30.

"**37.** It is to be distinctly understood, that under no circumstances whatever will an Officer be permitted to retire on full pay until he has completed the *full time of service* above specified, whether he be in England at the close of his service or elsewhere.

G. G. O. No. 878, of 23rd September 1857.—The following extract, paras. 18 and 19, of a Military letter from the Honorable the Court of Directors to the Government of India, No. 126, dated 22nd July 1857, is published for general information:—

Letter dated 6th March 1857, No. 28.
Request Court's decision on the question whether leave of absence in or beyond India, taken in consequence of wounds received in action, shall be allowed to reckon as service for Pension both under the Old and New Regulations.

18. By the Regulations established for the promotion of Lieutenant Colonels to the rank of Colonel after three years' service, it is provided that no longer period than one month in each year, or a total of three months in three years, or six months in six years, shall be allowed to reckon, whether the leave shall have been spent in India or out of the country, except in cases of wounds or illness contracted by service in the field, duly certified by a Medical Board, when each case will be separately considered with reference to the time to be allowed.

19. In reply to the question now put to us, we have much satisfaction in stating that we are prepared to extend the benefit of the exception above specified to the time required for retirement on full pay. Every claim to the benefit of this exception must be duly certified by a Medical Board, and be forwarded to us for our decision, accompanied by the opinion thereon of the Government and Commander-in-Chief of the Presidency to which the Officer belongs.

"**38.** The privileged time of absence may, with the permission of the local Government, be taken at any time, subject to these Regulations. If, therefore, at the end of twenty years' service, of which eighteen had been passed on actual duty in India, an Officer should be on Furlough or sick certificate in Europe or elsewhere, he will be entitled to retire on the full pay of a Captain without returning to India, and so in the other terms of service for the higher Pensions. In like manner, a Medical Officer on Furlough or sick certificate, in

Europe or elsewhere, at the end of seventeen years' service, fifteen years and four months of which had been passed on actual duty in India, will be entitled to retire on the lowest rate of Pension without returning to India; and so in the other terms of service for the higher Pension.

G. G. O. No. 679 of 1859.—The following G. O. by the Governor-General in Council dated 8th July 1859. No. 995, is republished :—

"Under instructions from the Right Honorable the Secetary of State for India, the following is substituted for G. G. O. No. 106, of 30th May 1836 :—

"Officers retiring in England from the service shall be considered to have retired from the date of their application for leave to retire, or from the expiration of two years and a half from the date of the commencement of their furlough, whichever shall first happen.

"Promotions in succession to casualties by death in England shall have effect from the date of decease, or from the expiration of three years' absence from India, whichever shall happen first."

"**39** These Rules do not in any way affect the existing Regulations regarding the grant of leave in India, or for short periods to sea, whether on private affairs or on sick certificate, except as to the periods of such absence being taken into calculation in the time allowed to count as service for retirement on full pay."

G. O. C. 27th April 1855.—With the sanction of the Right Honorable the Governor in Council, the following decisions of the Government of India on points connected with the revised New Furlough Rules, are published to the Army :—

Questions.	*Decisions.*
"Will all Officers (Staff and Regimental) who may proceed on leave to places 'in India,' whether within or beyond the limits of their own Presidencies, be entitled to receive their Indian Allowances for a period not exceeding six months, if on private affairs, and two years, if on medical certificate, from the dates of their quitting their respective Corps or Stations, as allowed to them under the Furlough Rules?"	"It has been expressly declared in Rule 39 that the former Rules regarding the absence of Officers *in India* are not in any way affected by the New Regulations."
"Will Officers holding Staff or other detached appointments, who may so proceed on medical certificate, be entitled to retain their appointments, and to receive half their Staff salaries, for a period not exceeding two years, as under the Old Furlough Regulations?"	"An Officer may proceed to those places only which he could have visited on leave in India prior to the publication of the New Rules, and he can retain any appointment during absence for six months on private affairs and for two years on medical certificate."
"Will all Officers (Staff and Regimental) under the New Rules, who may proceed on leave for short periods to sea, or 'for brief periods to Ceylon, the Mauritius, or other places out of India' *on private affairs*, be entitled to receive their Indian Allowances during their absence; and if so, for what period from the dates of their quitting their respective Corps or Stations?"	"Officers absent for short periods at sea retain their Indian allowances, the Old Rules on this subject continuing in force."

G. O. C. 17th November 1859.—Referring to the Regulations marginally noted, Officers Military and Medical, proceeding on Furlough to Europe or beyond India, are warned that failure on their part to report intended date of departure to the Officer in charge of the Adjutant General's Office at Bombay will result in the commencement of their Furlough being calculated from date of its grant in General Orders.

Art. 331, page, 87 of 3rd Appendix to do.

G. O. C. 30th August 1862.—Furloughs of Officers transferred to the Royal Artillery, Royal Engineers, and New line Regiments, to appear in the General Orders of His Excellency the Commander-in-Chief in India, and cases of Medical Certificate to Europe or elsewhere to be disposed of according to the rules of the British Army.

G. G. O. 420 of 1863.—Leave of absence to officers of New Brigades of Artillery and New line Regiments of Cavalry and Infantry granted under H. M.'s Regulations generally; but to officers of Engineers, to be regulated by the practice in force for the Local Service.

G. G. O. 638 of 1862—A British Officer obtaining Medical Certificate when his Regiment is under orders for England, or he intends to retire, not entitled to advance of Indian Pay and allowances, after departure of Head Quarters of his Corps, if this take place within six months of his own departure.

G. O. C. 27th March 1863.—Officers of British Forces recommended for Medical Certificate to Europe or elsewhere to be brought at once before the Standing Medical Committee, and thereafter report themselves to the Major of Brigade, who will, with the sanction of the Brigadier, on production of necessary certificate, permit them to embark.

} Exclusive of the charge for transport made by the Transit Administration of Egypt.

CAUTION TO PASSENGERS.—GOODS OF A DANGEROUS NATURE.—The Company will not receive on board of their vessels any goods of a dangerous or damaging nature. If any such goods be shipped without notice, the Shippers will not only be liable to the penalties imposed by Statute, but also for all damages sustained in consequence of such shipment.—(See Extract from the Merchant Shipping Act, at page 14.)

Passengers not proceeding by the Peninsular and Oriental Company's Steamers, but shipping their Baggage from Southampton, will be charged at the rate of 10s. per cwt. between Southampton and Malta or Alexandria.

N.B.—The Baggage of Passengers proceeding *viâ* Trieste must be shipped at Southampton so as to ensure its arrival at Alexandria a week in advance of the Passengers to whom it may belong. Non-compliance with this regulation is likely to involve loss or detention of the Baggage in Egypt.

Passengers requiring information respecting their Baggage during the voyage, can obtain it by application to the Officer in charge.

Passengers who may miss any package of Baggage on arrival at their destination are recommended to apply, *without delay*, to the Company's Agent, giving full particulars, *in writing*, when application will at once be made to the Missing Baggage Depôts at Bombay or Southampton.

Baggage can be occasionally had up from the baggage-room during the passage by application to the Officer in charge.

No Trunks or Boxes allowed in the Saloon or Cabins, but only small Portmanteaux or Carpet Bags.

NOTICE.—All Parties are requested to take notice that the Company do not hold themselves liable for detention or delay of Passengers arising from accident or from extraordinary or unavoidable circumstances, or from circumstances arising out of or connected with the employment of the Company's vessels in Her Majesty's Mail Service, and that the Company do not hold themselves liable for damage to or loss or detention of Passengers' Baggage or for any consequences arising from the restrictions of quarantine wheresoever imposed. } Exclusive of the charge for transport made by the Transit Administration of Egypt.

All heavy luggage not required for the Overland route may be delivered to the Austrian Lloyd's agents in London, Alexandria or Suez for Shipment via Southampton.

The direct passage between Trieste and Alexandria and *vice versa*, occupies only 4½ to 5 days. The distance between these two ports is 200 miles shorter, than that between Marseilles and Alexandria. An experienced Surgeon is on board each vessel.

☞ Great facilities have been granted of late by the Austrian Authorities with regard to the Passport system of travellers passing through the Austrian Dominions. The Passport will have only to be exhibited and vised in future by the Police Authority at the Austrian frontier (Bondenbach and Trieste or vice versa)

Passports for British subjects returning from India are obtainable at the Government Secretariates at Calcutta, Bombay and Madras and at the Office of the British Consulate at Alexandria for the voyage to England via Trieste. Such Passports must be vised at Trieste at the Police Office and may at once be countersigned by the Consuls of those States through which the traveller passes.

Visa may also be obtained at the Austrian and Prussian consulates at the Presidency towns in India.

At Trieste the traveller to England has a great choice of picturesque and interesting Routes, occupying from 3 days 6 hours to 5 day's to London, at an expense varying from £7 to £13.

A splendid scenery is offered to the traveller in performing the journey between Vienna and Trieste, especially from Gratz in either direction.

The far famed pass of the Semmering Mountain lays between Gloggnitz and Murzzuschlag, on the way between Vienna and Gratz, a distance which is performed in about 1½ hours by express train, and 2 hours by ordinary train.—On this short distance the railway train passes through 14 tunnels stopping at 4 stations, viz :—Payerbach, Clamm, Breitenstein, and Semmering and by performing this journey in day time, an opportunity is afforded to the traveller of seeing the stupendous and wonderful engineering operations of this railway and of considering the difficulties which had to be surmounted in carrying the railway over this mountain.

The railway works between Laibach and Trieste also deserve particular attention.

Arriving at Adelsberg, a railway station between Laibach and Trieste, travellers should not lose the opportunity of inspecting the wonderful natural grotto, which is close to that station.

Throughout Germany few travel first class. The second class railway carriage in Germany and Belgium is fully equal to first class England.

If a stray is made at any of the towns en route, the traveller, if unacquainted with German had better employ a Commissioner, who will see his passport *vised* and apprize him of the precise hours of departure of the trains which according to season may be subject to alteration. On an average, he may put his hotel expenses down at 10s. a day.

Travellers desirous of performing an expeditious journey throughout and wishing to proceed at once from the various stations on the Continent without stopping, may have through tickets issued for long distances. This facility is offered at all the principal places on the Continent.

To travellers who proceed through the continent without unnecessary stoppages, the following is the expense of the journey from Bombay to London :—

	First Class.
Bombay to Suez	£75
Expenses of Transit through Egypt by Rail.	7
Alexandria to Trieste	15
Trieste to London (if II class Rail on the continent, only £9.)	12
	£109

The Agents of the Austrian Lloyd, named below, are prepared to grant passage tickets for the Steamers plying between Alexandria and Triéste and for the Railway between Suez and Alexandria. Parties who engage their passage in India thereby secure priority in the choice of accommodation, and the services of the Company's Agent at Suez.

Railway tickets for the journey through Egypt, entitling the holders thereof to the privileges secured by a recent convention between H. H. the Viceroy of Egypt and the Austrian Lloyd *(which are precisely the same as those of Passengers, who take their tickets at the P. & O. St. Co.'s offices)* are issued by the Company's Agents on behalf of the Egyptian Government at the following rates :

First Class £7, *Second Class* £3 10s.

Children over 3 and under 10 years at *half fare*. For further particulars apply on arrival at Suez, Alexandria and Triéste at the Austrian Lloyd's Offices and to the Companies Agent

On Week-days there are three Postal deliveries in Bombay—at 8, 11, and 3 o'clock; on Sundays there is but one delivery—at Noon.

The Delivery Peons are prohibited from taking charge of Letters for the purpose of posting them, or from going out of their course to deliver Letters, &c., and from delivering them without immediate payment of Postage. They must not give change, and if subjected to detention, they can refuse to deliver the Letters, &c., which will be sent out for delivery on the following day.

Post Masters can refuse to receive Letters, Papers, or Parcels, bearing the appearance of having been opened and re-closed, or tampered with, unless their damaged state is certified in writing by the senders; and are prohibited from knowingly receiving coin, bullion, precious stones, or jewels, for despatch.

The Post Office is not bound to give Receipts for Letters or Parcels. But if written Receipts for Parcels are presented, the Post Office Stamp will be affixed.

Postage must be paid immediately on demand; if the party refuses to pay, his property is liable to be seized and sold, and his Letters, &c. detained in the Post Office.

Letters containing remittances or valuable documents ought to be registered, and well secured with sealing-wax. Letters fastened with gum or wafer can be opened with impunity, without the slightest difficulty.

Letters, Packets, and Parcels once posted cannot be restored to the senders, except by an express order from Government; but Newspapers, Pamphlets, or Printed Papers can be returned on payment of the Postage which would have been charged had they been forwarded.

The Postage charged on any Letter or other article maliciously sent for the purpose of annoying the addressee may be remitted.

Letters, Papers, or Packets which follow a party, or are re-addressed from one Station to another, or stopped in transit, are liable to Forward Postage.

Letters addressed to Public Officers, superscribed "On the Public Service," but not franked, and consequently sent Bearing, must be received by the addressee, and the Postage charged in a Contingent Bill to be sent to Government.

In addressing Letters, the Community should add the Number of the house, or street, or locality, where their correspondents reside, and should sign their surnames. This will materially assist the delivery of Letters, and help the Dead Letter Office, where Letters remain undisposed of because neither the addressees nor the senders (who omit to add their surnames) can be found.

English Postage Stamps are not recognised in India, nor are Indian Postage Stamps acknowledged in Great Britain.

☞ All communications respecting Change of Address should be made to the Deputy Post Master General, and not to the Post Master General.

All complaint requiring redress, such as surcharge of Postage, mis-sending, or delay in the delivery of Letters, &c., must be made to the Post Master General, accompanied by the Envelopes of the Letters referred to; and the number of the Delivery Peon should always be stated.

ELECTRIC TELEGRAPHS.

GOVERNMENT ELECTRIC TELEGRAPH.

RULES FOR THE TRANSMISSION OF MESSAGES,

I. Messages are received for despatch at all hours, of the day or night, with exception of Sundays, Christmas Day, New Year's Day, Good Friday, and Queen's Birth-day, when the Offices will be closed between the hours of 8 and 16h. (or 4 P. M.)

II. Messages tendered for transmission on ordinary days between 18h. or 6 P. M.) and 6h. of the following day, and between 6h. and 8h. and 16h. and 18h. (or 4 P. M. and 6 P. M.) on the abovenamed Holidays will be charged double the ordinary rate.

III. Messages are transmitted by Telegraph between all the Stations enumerated in the accompanying list, at the rate of sixteen words for one rupee for each distance of 400 miles or under; 2 Rupees for all distances between 400 and 800 miles; and so on.*

IV. The distances are estimated by the Direct Map line, and not by the actual length of wire.

V. On the main lines no message, however short, is sent for less than one Rupee.

VI. For each word above 16 one anna additional is charged for each rate of distance. Thus for 16 words from Calcutta to Bombay (3 distances), the charge for 16 words or under is 3 Rupees; for 19 words, 3 Rupees 9 annas.

VII. Peon hire for the delivery of Messages, at the rate of two annas per mile, will be charged for all distances beyond 2 miles from the Telegraph Station. Fractions of a mile are charged as 1 mile.

VIII. The *names* of sender and addressee are charged in the address. Initials count each as one word, and it is recommended that the Chistian names should always be spelt in full. Compound names, such as McNaughten, O'Donnell, De Salis, Von Meyern, St Clair, count as one word, provided the prefix be no more than one syllable.

IX. In the *address* of a message, the words *From, To, Mr. Mrs., Messrs., and Co*, and all ordinary *prefix* designations, such as *Capt., Lieut.-Colonel, Sir, Lord, Baboo, Rajah, Nawaub*, are passed free, provided the designation be no more than two words, as *Major-General, Lieut.-Colonel.* Affix designations are charged for, word by word. Thus, "From Bangalore, from Mr. *Brown*. To Calcutta, to Lieut.-Col. *Smith, commanding 60th Rifles*," the words in italics are charged, the others are sent free.

X. The names of towns from and to, if Telegraph Stations, are also sent free; but are charged for if not Telegraph Stations. Names of

* A double rate extra is charged on all messages between any station in Ceylon and the Continent of India.

quarters, or streets, or numbers of houses, must be paid for. Messages addressed to large cities, such as Calcutta, Bombay, and Madras, should always have the residence of the addressee specified by street and number, and Messages to such names as Smith, Jones, Brown, &c., should have the Christian name or profession of the addressee, to prevent misdelivery.

XI. The day, hour, and minute, of the receipt of a message into a Telegraph Office for transmission is in every instance added by the Department following immediately the text of the message and telegraphed free of charge. Senders may date their messages if they think fit, but the senders date will be charged for, and will in view to avoid confusion if given at the end be transferred to the beginning of the text of the message.

XII. In the body of the message every word is charged. Stops, inverted commas, and notes of interrogation, are free.

XIII. The accuracy of messages is not guaranteed, and the sender and receiver have to accept all risk arising from errors and delays.

XIV. Senders of messages are *advised* to use the shortest and most familiar words they can select. The more intelligible the message is, the greater is the probability of its being transmitted correctly.

XV. The accurate transmission of messages is rendered much more certain by their being repeated back from each repeating Station. This repetition is charged for at half price extra, and is advised in all messages of great importance.

XVI. The errors which chiefly occur are in the numerals, such as *sixteen, sixty—thirteen, thirty*, owing to the sound and first three or four letters being similar. To obviate this, it is recommended that in all financial or money messages the sum be given in two forms, halving or doubling the amount, thus, "Pay to my order Rs. 500 or half, 1000." When this is done, an error is of very rare occurrence.*

XVII. Messages in cypher are transmitted at the ordinary charge, but must be in numbers, and these written in full, as in a cheque, or in ordinary English words of concealed meaning. Figures are telegraphed as if written in full, as in a cheque, and charged for according to the number of words; thus, "Rupees fifteen hundred and sixty-four," count as six words.

XVIII. Should a message in cypher be tendered for transmission simultaneously with a message in ordinary language, the latter will take precedence of the former.

XIX. All messages must be in the English language.

XX. The name of the sender must be written on the face of every message.

XXI. When a message is delivered in an unintelligible state, a refund of the cost of the portion rendered unintelligible will be made to the sender, if application be made within three months of the dates of despatch, provided the message has not been transmitted beyond the limits of India, its dependencies, or Ceylon, and within six months, in the case of Messages for countries beyond India, as Egypt or Europe,

* The accidental omission of the word Not, causing in many cases the total change of the intended meaning of a message, this word is always signalled, in slow time, twice over by the sender, and once back by the receiver, at each station. The same precaution is taken in signalling the words *our* and *your*.

such refunds will be made irrespective of whether the message has been paid for at repetition price or not, but no refund will be given for any error in an unrepeated message arising from wrong figures being given, unless the precaution advised in No. XVI. of these Rules shall have been adopted. Refunds on account of messages which have not reached their destination will be made subject to the above limits as respects time.

XXII. Refunds will also be made in all cases of non-delivery or unjustifiable delay of messages, whether repeated or not. By unjustifiable delay is meant that arising from negelect in the Offices. When a message is detained by an interruption on any section of the line, and is sent on by next post to the nearest Telegraph Station, the time occupied by the post is not allowed to count as delay in the Telegraph Department. *Expresses* are never started for private messages, but only for Mail News or Government despatches of great importance. But when an express is required for these purposes, advantage is taken of the opportunity to send on all private messages on hand.

XXIII. Complaints respecting errors, or delays or neglect in the delivery of messages, and applications for refund, should be addressed to the Director General of Telegraphs in India, Complaint Office, Calcutta. An exact copy of the message complained of and the receipt of the despatching Office, should in all cases accompany the complaint

XXIV. Private messages shall be despatched in the order of their receipt in the Telegraph Office. Should two or more messages be tendered simultaneously the shortest shall have the precedence, without reference to its relative importance.

XXV. No Private Message or Messages of more than 200 words in all can be sent at one time by any individual or firm and no second message by the same individual or firm till after the lapse of three hours, unless the line be free and not required by any one else.

XXVI. The practice of sending messages by each line alternately where alternate lines are available, as between Calcutta and Bombay, having caused much dissatisfaction to the public, in consequence of messages bearing later office dates arriving by the direct line before others sent between the same places, but which have gone by the alternative line, must cease, and in future the alternative line must be used only in the event of interruption on the direct line.

The rule here published has been acted on as respects messages between Calcutta and Bombay since the 9th of August, and the result as regards the diminution of number of complaints of suspected preference has been satisfactory. Under this arrangement it becomes necessary to define what are to be considered as the chief direct Telegraph routes throughout India. These are—

From Calcutta to Madras through Midnapoor.
From Calcutta to Bombay through Agra.
From Madras to Bombay through Bangalore.
From Calcutta to Bellary through Patna and Mirzapoor.
From Bombay to Lahore and Peshawur through Hyderabad, Sind.

The routes here termed direct are not in every case strictly so. The route from Bombay to Lahore via Hyderabad, Sind, is less direct than that via Agra, but it has been chosen as the route by which all messages from Bombay to Lahore or places to its north-west should be sent, in order to relieve the Indore line, which has to convey the entire of the important messages between Calcutta and Bombay.

XXVII. Messages will be forwarded by post to places not having Telegraph Stations, but only in *registered* letters, the registration fee to be paid by the sender of the message.

XXVIII. Messages will be received by post from Europe or elsewhere for transmission, if money be deposited beforehand at the despatching Station sufficient to pay for the transmission. Such messages should always be addressed as per margin, and *not* to the Superintendent. This mistake often causes the letter to be sent by post to the Head Quarters of the Department. All such letters should invariably have the words "*Telegraph Message for Despatch*," written conspicuously outside.

"To the Assistant in charge, ——Telegraph Office."

XXIX. Messages so sent by post must be prepaid by Telegraph stamps, and will be transmitted from the nearest Telegraph Station, where the stamp will be cancelled by being written across by the Assistant in Charge.

XXX. The stamped messages should be despatched marked conspicuously "*Telegraph Message.*"

XXXI. Adhesive Telegraph stamps will be procurable from the Civil Treasuries and private vendors. They should be affixed on the face of the message, so as to be *inside* when the message is folded up for transmission by the post. The usual postage must of course be paid in addition.

XXXII. In cases of extreme pressure of business, Assistants in charge of Offices may refuse to receive for despatch any messages beyond the number which experience shows may be cleared off within the day. The messages in such cases are not to be received and kept for despatch the following day, but must be returned so as to prevent accumulation.

XXXIII. In case of interruptions on any line, Assistants in charge of Offices have the power to refuse the receipt of messages for transmission.

XXXIV. When an interruption occurs, notice to that effect is to be posted conspicuously at the entrance of each Office, and communicated to the Press for public information.

XXXV. In every such case all persons tendering messages for places beyond the interrupted section, are to be informed of the interruption, advised not to leave the message, and acquainted that a refund will not be made in case of delay from this cause.

XXXVI. The sender of a message may prepay the charge for a reply, which must be limited to the number of words so prepaid for.

XXXVII. Messages are sent bearing from sea-ports when received by mail steamers or other vessels for despatch and addressed to well-known firms or individuals, but no message, whether paid or bearing, will be received for transmission from any vessel until her name has been made known. Bearing messages will not be delivered to the addressee till payment has been obtained.

XXXVIII. Assistants in charge of Telegraph Stations are authorised to refuse to transmit a message which may be of a decidedly objectionable character. Should the character of the message be disputed, the matter may be referred to a Secretary to Government if the dispute occur at the seat of a Government, or to the chief Civil Officer if at a provincial station.

XXXIX. To secure secrecy as much as possible, all persons *not actually on duty* in the Signal Room, whether belonging to the Telegraph Department or not, and without reference to official rank in any case, are strictly prohibited from entering the Signal Room. The only exception to this rule is for senders of messages, who may be allowed to see their messages despatched, if they attend the Office at the time of their turn for transmission.

XL. Violation of secrecy on the part of any person in the Department will be punished by dismissal from office, forfeiture of arrears of pay, and a declaration in the official *Gazette* of the incapacity of the delinquent to serve the Government in any capacity. It is a violation of secrecy to mention the fact that any message has been received or despatched by any particular person or firm.

XLI. Service messages from all public functionaries must be paid for in cash prior to despatch, the rates being the same for distance and number of words as those charged to private individuals.*

XLII. Service messages have no right of precedence, and take their turn of despatch with private messages, except in cases of pressing public emergency and importance, when priority may be claimed on special grounds.

XLIII. The sums paid by public functionaries for the despatch of messages will be recovered from Government by the senders, in their own Departments, by contingent bills countersigned as usual.

XLIV. On certain emergent occasions of great importance, the public functionaries named below have the power of "clearing the line," that is, of suspending the receipt and despatch of all other messages till the one for which the line is cleared has passed on :—

The Governor General of India.
Governor of Bombay.
Governor of Madras.
Governor of Ceylon.
Commanders-in-Chief, India, Madras, and Bombay.
Lieutenant Governors of Bengal, N. W. Provinces, and Punjab.
Commissioners of Sind, Oude, and Pegu, and such other Commissioners, Residents, Political Agents, and Military Officers, as may receive the power from the Government of India by special order.
Director of Telegraphs in India.

The messages so sent are, however, to be paid for in cash as in ordinary cases.

XLV. Under orders of Government the following order of precedence will be observed in the transmission of messages of European news received by the mail steamers at Galle and Bombay. Messages addressed to the Government of India, messages addressed to the Government of Bombay, Madras and Ceylon, &c. &c.

XLVI. No unpaid messages, except those on the actual business of the Telegraph itself as specified in the departmental Regulations, shall on any account whatever be transmitted. A violation of this rule will subject the Signaller or Assistant in Charge of the Station the message is sent from, to dismissal from the public service.

* The only exceptions to this rule are enumerated in special printed instructions issued to each Office.

XLVII. Messages received after 8 P.M., are not delivered till six the following morning, unless marked urgent or obviously of an urgent nature or addressed to the newspaper press.

As a measure of convenience, and to prevent the waste certain to ensue from message forms being issued loose, such forms will hereafter be delivered, to those requiring them, bound together in books containing 100 messages each with counterfoil. Such books will be issued on written application only, to public officers free, to private persons on payment of one rupee per copy. Each book will have a printed "side title" pasted on it, and on the inside of the cover, facing the first message, will be pasted a printed abstract of such of the Rules of the Department as it imports those for whose use the books are prepared to be acquainted with. These books are now available at the various Telegraph Offices, and the issue of loose message forms is absolutely prohibited.

All messages for despatch should be directed to the "*Assistant in Charge of the Telegraph Office,*" and the envelope should be marked outside, "*Message for Despatch.*" It often happens that the Message is directed to the Superintendent, Deputy Superintendent, or other Officer, who may be in some distant part of the country. Even in such a case, if it bears the mark *Message for Despatch*, it is at once opened, and all is well—but without this distinguishing mark it is of course forwarded to its address, and a delay of days or even weeks may result.

Native merchants must take their own measures for having their messages composed in accordance with the Telegraph rules, as translation is not undertaken by any officer or servant of the Department.

In future, when expressing the hour of the day or night in messages, the day will be considered as consisting of one cycle of 24 hours instead of two cycles of 12 hours each, the hours afternoon being continued as 13, 14, and so on up to midnight or 24h. the new day commencing as 0h. Thus, fifteen minutes past 4 of the afternoon of the 12th November will be expressed as November 12d. 16h. 15m., or more briefly, November 12d. 16.15h.

In all cases of messages deliverable on board vessels, the charge for boat hire must be prepaid. The sums leviable at Receiving Offices a boat hire for ship messages to be delivered at the undermentioned stations are as follow :—Calcutta, As. 4 ; Masulipatam and Vizagapatam, As. 8 ; Cannanore and Calicut, As. 12 : Hooghly Point, Paumben, Cochin, Galle, Bombay, Goa, Surat, Vingorla, and Kurrachee, 1 Rupee ; Pondicherry, Rs. 1-2-0 ; Madras and Colombo, Rs. 1-8-0 ; Coconada, Rs. 2 : Saugor, Rs. 3.
